SUPPLEMENTARY INFORMATION: The Office of Workers' Compensation Programs (OWCP) is the primary agency responsible for administration of the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended (EEOICPA), 42 U.S.C. 7384 *et seq.* EEOICPA provides for the payment of compensation to covered employees and, where applicable, survivors of deceased employees, who sustained either an "occupational illness" or a "covered illness" in the performance of duty for the Department of Energy and certain of its contractors and subcontractors. One element of the compensation provided to covered employees is medical benefits for the treatment of their occupational or covered illnesses that are accepted as compensable. OWCP contracts with a private sector bill processing agent that handles many of the tasks associated with paying bills for medical treatment provided to covered employees under EEOICPA. This bill processing agent uses an automated system that matches incoming bills with the authorized medical treatment of covered employees before it issues payments, and a provider of medical treatment, supplies or services to covered employees must provide the bill processing agent with information necessary for creation of an authorization within the agent's automated system before a bill can be paid. The collection of this information is authorized by 20 CFR 30.400(a) and (c), 30.403, 30.404(b) and 30.700. The information collections in this ICR collect demographic, factual and medical information that OWCP and/or its bill processing agent needs to process bills for medical treatment, supplies or services. For additional substantive

information about this ICR, see the related notice published in the **Federal Register** on October 2, 2020 (85 FR 62327).

In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of a continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance process to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, the reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act, or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining said information (29 U.S.C. 657).

The information collection requirements specified in the Bloodborne Pathogens Standard require
