

Estimated Time per Response: 0.084 hours (5 minutes)—4 hours per response.

Frequency of Response: On occasion, annual and every five-year reporting requirements, recordkeeping requirement and third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 4, 303, 309, 332 and 362 of the Communications Act of 1934, as amended.

Total Annual Burden: 10,333 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The requirements contained in 47 CFR 80.59 of the Commission's rules are necessary to implement the provisions of section 362(b) of the Communications Act of 1934, as amended, which require the Commission to inspect the radio installation of large cargo ships and certain passenger ships at least once a year to ensure that the radio installation is in compliance with the requirements of the Communications Act.

Further, section 80.59(d) states that the Commission may, upon a finding that the public interest would be served, grant a waiver of the annual inspection required by section 362(b) of the Communications Act of 1934, for a period of not more than 90 days for the sole purpose of enabling the United States vessel to complete its voyage and proceed to a port in the United States where an inspection can be held. An information application must be submitted by the ship's owner, operator or authorized agent. The application must be submitted to the Commission's District Director or Resident Agent in charge of the FCC office nearest the port of arrival at least three days before the ship's arrival. The application must provide specific information that is in rule section 80.59.

Additionally, the Communications Act requires the inspection of small passenger ships at least once every five years.

The Safety Convention (to which the United States is a signatory) also requires an annual inspection.

The Commission allows FCC-licensed technicians to conduct these inspections. FCC-licensed technicians certify that the ship has passed an inspection and issue a safety certificate. These safety certificates, FCC Forms 806, 824, 827 and 829 indicate that the vessel complies with the Communications Act of 1934, as amended and the Safety Convention. These technicians are required to

provide a summary of the results of the inspection in the ship's log that the inspection was satisfactory.

Inspection certificates issued in accordance with the Safety Convention must be posted in a prominent and accessible place on the ship (third party disclosure requirement).

Federal Communications Commission.

Marlene Dortch,

Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1113; FRS 20907]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before June 14, 2021. If you anticipate that you will be submitting comments, but find it

difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1113.

Title: Election Whether to Participate in the Wireless Emergency Alert System.

Form No.: N/A.

Type of Review: Extension of a currently-approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 1,253 respondents; 5,012 responses.

Estimated Time per Response: 0.5 (30 minutes)—12 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirements.

Obligation to Respond: Mandatory and Voluntary. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 154(j), 154(o), 218, 219, 230, 256, 302(a), 303(f), 303(g), 303(j), 303(r), 403, 621(b)(3), and 621(d).

Total Annual Burden: 28,820 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: This Commission is requesting an extension of a currently approved information collection from the Office of Management and Budget (OMB) in order to obtain the three-year approval after this 60-day comment period. It includes the collection of the following information from Commercial Mobile Service (CMS) providers: (1) Enhanced notice to consumers at time of sale (Enhanced Notice at Time of Sale); (2) disclosure as to degree of participation in wireless alerts ("in whole" or "in part") (Notice of Election); (3) notice to current subscribers of non-participation in WEA (Notice to Current Subscribers); and (4) a collection to include voluntary information collection for a database that the Commission plans to create (Database Collection).

The Commission created WEA (previously known as the Commercial Mobile Service Alert System) as required by Congress in the Warning

Alert and Response Network (WARN) Act and to satisfy the Commission's mandate to promote the safety of life and property through the use of wire and radio communication.

All these information collections involve the Wireless Emergency Alert (WEA) system, a mechanism under which CMS providers may elect to transmit emergency alerts to the public. OMB last granted these collection requests on August 1, 2018 (ICR Ref. No. 201804-3060-013).

Notice of Election

On August 7, 2008, the Commission released the Third Report and Order in PS Docket No. 07-287 (CMS Third Report and Order), FCC 08-184. The CMS Third Report and Order implemented provisions of the WARN Act, including a requirement that within 30 days of release of the CMS Third Report and Order, each CMS provider must file an election with the Commission indicating whether or not it intends to transmit emergency alerts as part of WEA. The Commission began accepting WEA election filings on or before September 8, 2008.

The Bureau has sought several extensions of this information collection. On January 30, 2018, the Commission adopted a WEA Second Report and Order and Second Order on Reconsideration in PS Docket Nos. 15-91 and 15-94, FCC 18-4 (WEA Second R&O). In this order, the Commission defines "in whole" or "in part" WEA participation, specifies the difference between these elections, and requires CMS providers to update their election status accordingly.

Enhanced Notice at Time of Sale

Section 10.240 of the Commission's rules already requires that CMS Providers participating in WEA "in part" provide notice to consumers that WEA may not be available on all devices or within the entire service area, as well as details about the availability of WEA service. As part of the WEA Second R&O, the Commission adopted enhanced disclosure requirements, requiring CMS Providers participating in WEA "in part" to disclose the extent to which enhanced geo-targeting is available on their network and devices at the point of sale and the benefits of enhanced geo-targeting at the point of sale. We believe these disclosures will allow consumers to make more informed choices about their ability to receive WEA Alert Messages that are relevant to them.

Notice to Current Subscribers

A CMS provider that elects not to transmit WEA Alert Messages, in part or in whole, shall provide clear and conspicuous notice, which takes into account the needs of persons with disabilities, to existing subscribers of its non-election or partial election to provide Alert messages by means of an announcement amending the existing subscriber's service agreement.

A CMS provider that elects not to transmit WEA Alert Messages, in part or in whole, shall use the notification language set forth in § 10.240 (c) or (d) respectively, except that the last line of the notice shall reference FCC Rule 47 CFR 10.250, rather than FCC Rule 47 CFR 10.240.

In the case of prepaid customers, if a mailing address is available, the CMS provider shall provide the required notification via U.S. mail. If no mailing address is available, the CMS provider shall use any reasonable method at its disposal to alert the customer to a change in the terms and conditions of service and directing the subscriber to a voice-based notification or to a website providing the required notification.

Database Collection

The Commission also seeks to extend OMB approval in connection with the Commission's creation of a WEA database to improve information transparency for emergency managers and the public regarding the extent to which WEA is available in their area. The Commission will request this information from CMS providers on a voluntary basis, including geographic area served and devices that are programmed, at point of sale, to transmit WEAs. We note that many participating CMS providers already provide information of this nature in their docketed filings. As discussed below, this database will remove a major roadblock to emergency managers' ability to conduct tests of the alerting system and enable individuals and emergency managers to identify the alert coverage area.

Since ensuring consumer notice and collecting information on the extent of CMS providers' participation is statutorily mandated, the Commission requests to extend approval of this collection by OMB so that the Commission may continue to meet its statutory obligation under the WARN Act.

Federal Communications Commission.
