The Office of Workers' Compensation Programs administers the Longshore and Harbor Workers' Compensation Act. The Act provides benefits to workers injured in maritime employment on the navigable waters of the United States or in an adjoining area customarily used by an employer in loading, unloading, repairing, or building a vessel. In addition, several acts extend the Longshore Act's coverage to certain other employees.

Under sections 914(b) & (c) of the Longshore Act, a self-insured employer or insurance carrier is required to pay compensation within 14 days after the employer has knowledge of the injury or death and immediately notify the district director of the payment. Under Section 914(g), the employer/carrier is required to issue notification of final payment of compensation. Form LS-208 has been designated as the proper form on which report of those payments is to be made.

In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

[NARA-2021-019]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of a request for comments regarding an information collection.

SUMMARY: We are planning to request that the Office of Management and Budget (OMB) renew its approval for us to engage in the following generic information collection request (generic ICR), and we invite you to comment on it: Generic Clearance for NARA Public and Education Program Registration. Under this information collection, we request registration and attendance information from people requesting to

attend an education or other program at NARA.

DATES: We must receive written comments on or before June 14, 2021.

ADDRESSES: Send comments by email to tamee.fechhelm@nara.gov. Because our buildings are temporarily closed during the COVID-19 restrictions, we are not able to receive comments by mail during this time.

FOR FURTHER INFORMATION CONTACT: Tamee Fechhelm, Paperwork Reduction Act Officer, by email at

tamee.fechhelm@nara.gov or by telephone at 301-837-1694 with requests for additional information or copies of the proposed information collection and supporting statement.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), we invite comments proposed information collections. Comments and suggestions should address one or more of the following points: (a) Whether the proposed information is necessary for NARA to properly perform its functions; (b) our estimates of the burden of the proposed information collections and their accuracy; (c) ways we could enhance the quality, utility, and clarity of the information we collect; (d) ways we could minimize the burden on respondents of collecting the information, including through information technology; and (e) whether these collections affect small businesses. Burden means the total time, effort, or financial resources people need to provide the information, including time to review instructions, process and maintain the information, search data sources, and respond.

We will summarize any comments you submit and include the summary in our request for OMB approval. All comments will become a matter of public record. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information.

Explanation of generic ICRs

A generic ICR is a request for OMB to approve a plan for conducting more than one information collection using very similar methods when (1) we can evaluate the need for and the overall practical utility of the data in advance, as part of the review of the proposed plan, but (2) we cannot determine the details of the specific individual collections until a later time. Most generic clearances cover collections that are voluntary, low-burden (based on a consideration of total burden, total respondents, or burden per respondent),

and uncontroversial. This notice, for example, describes a general plan to gather registration information from members of the public who wish to participate in programs at NARA, through a series of registration forms used for a variety of current and future education programs at different facilities. As part of this plan, we construct, distribute, and use the registration forms in a similar manner, but customize each one for the type and location of the program involved.

Because we seek public comment on the plan, we do not need to seek public comment on each specific information collection that falls within the plan when we later develop the individual information collection. This saves the Government time and burden, and it streamlines our ability to gather registration information so we can provide more responsive programs. However, we still submit each specific information collection (e.g., each form) to OMB for review, in accordance with the terms of clearance set upon approval of the plan. OMB assesses the individual forms for PRA requirements, ensures that they fit within the scope of this generic ICR plan, and includes the specific forms in the PRA public docket prior to our use of them.

Specifics on This Information Collection

Title: Generic Clearance for NARA Public and Education Program Registration.

Description: This generic information collection request allows us to gather information from those members of the public who wish to register for public events, education programs, tours, and training sponsored by NARA. We will not use these forms for quantitative information collections designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance.

Purpose: Collecting this information allows us to register participants for NARA's public, education, and training programs throughout the agency's locations, and to collect and process credit card payments. The information is also used to develop mailing lists for distribution of education-related information and special NARA training events, based on the request or expressed interest of the person registering. Advance registration allows NARA offices to schedule the tours, training, and events to maximize the participants' time and to accommodate the participants in the space. The information collected from registrants will help ensure that users have an effective, efficient, and satisfying
