SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

Title V of the Older Americans Act of 1965 (Reauthorized by Pub. L. 116–131, March 25, 2020) authorizes this information collection. The purposes of this Information Collection Request are to fulfill the statutory requirements for SCSEP data collection by supporting ETA’s ability to collect grantee performance data, including information on participant characteristics and outcomes (and pursuant to OAA 2020); document the equitable distribution of SCSEP services; assess customer satisfaction with the SCSEP program; and ensure that states are reporting on the SCSEP program as part of the State Plan process. Toward these goals, this ICR seeks to:

- Renew, with revisions, the existing legacy data collection instruments—ETA–9120—Participant Form, ETA–9121—Community Service Assignment Form, ETA–9122—Exit Form, and ETA–9123—Unsubsidized Employment Form—for use until such time as the

legacy system is replaced by the new Grant Performance Management System (GPMS);

- Combine the four existing data collection instruments (ETA–9120—Participant Form, ETA–9121—Community Service Assignment Form, ETA–9122—Exit Form, and ETA–9123—Unsubsidized Employment Form) with those data elements approved under Control No. 1205–0521 that are incorporated into the new GPMS, and additional data elements newly developed for both the legacy system and GPMS and not previously approved, as a single data collection instrument. Grantees will use this data collection instrument, GPMS once it is implemented and replaces SPARQ;

- Renew, with revisions, the legacy SCSEP Quarterly Progress Report (ETA–5140) and the new Quarterly Performance Report for SCSEP (ETA–9173–SCSEP);

- Renew, without revisions, the Equitable Distribution (ED) Reports (ETA–8705A, and ETA–8705B); and add ED to the annual planning process;

- Renew, with revisions, SCSEP’s survey collection instruments: ETA–9124A—Participant Survey and ETA–9124B—Host Agency Survey, and renew, without changes, the ETA–9124C—Employer Survey.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention “OMB Control Number 1205–0040.”

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.
