SUPPLEMENTARY INFORMATION:

Background: The Board advises the Secretary of Commerce on matters relating to the U.S. travel and tourism industry.

Exceptional Circumstances: Pursuant to 41 CFR 102-3.150(b), the notice for this meeting is given less than 15 calendar days prior to the meeting because of the exceptional circumstances of the American Rescue Plan Act of 2021, which contains \$3 billion in funding for the Department of Commerce for economic adjustment assistance and requires that 25 percent of those funds be for “assistance to States and communities that have suffered economic injury as a result of job and gross domestic product losses in the travel, tourism, or outdoor recreation sectors.” To allocate the funds expeditiously and in a manner that would best achieve the goals of the Act, the Secretary of Commerce needs prompt advice from the Board on how these funds should be distributed.

Public Participation: The meeting will be open to the public and will be accessible to people with disabilities. Any member of the public requesting to join the meeting is asked to register in advance by the deadline identified under the **DATES** caption. Requests for auxiliary aids must be submitted by the registration deadline. Last minute requests will be accepted but may not be possible to fill. There will be fifteen (15) minutes allotted for oral comments from members of the public joining the meeting. To accommodate as many speakers as possible, the time for public comments may be limited to three (3) minutes per person. Members of the public wishing to reserve speaking time during the meeting must submit a request at the time of registration, as well as the name and address of the proposed speaker. If the number of registrants requesting to make statements is greater than can be reasonably accommodated during the meeting, the International Trade Administration may conduct a lottery to determine the speakers. Speakers are requested to submit a written copy of their prepared remarks by 5:00 p.m. EDT on Wednesday, April 21, 2021, for inclusion in the meeting records and for circulation to the members of the Board.

In addition, any member of the public may submit pertinent written comments concerning the Board’s affairs at any time before or after the meeting. Comments may be submitted to Jennifer Aguinaga at the contact information indicated above. To be considered

during the meeting, comments must be received no later than 5:00 p.m. EDT on Wednesday, April 21, 2021, to ensure transmission to the Board prior to the meeting. Comments received after that date and time will be transmitted to the Board but may not be considered during the meeting. Copies of Board meeting minutes will be available within 90 days of the meeting.

Jennifer Aguinaga,

Designated Federal Officer, United States Travel and Tourism Advisory Board.

DEPARTMENT OF DEFENSE

Department of the Air Force

Notice of Intent To Prepare an Environmental Impact Statement for Department of the Air Force Infrastructure Upgrades at Andersen Air Force Base, Guam

AGENCY: Department of the Air Force, Department of Defense.

ACTION: Notice of intent.

SUMMARY: The Department of the Air Force (DAF) and the U.S. Navy, acting as a Cooperating Agency, are issuing this Notice of Intent to prepare an Environmental Impact Statement (EIS) to assess the potential social, economic, and environmental impacts associated with proposed Infrastructure Upgrades at Andersen Air Force Base (AFB), Guam. The EIS will analyze the potential impacts of constructing proposed infrastructure upgrades at Andersen AFB and using this infrastructure consistent with existing installation operations once construction is completed.

DATES: A public scoping period of 30 days will take place starting from the date of this NOI publication in the **Federal Register**. Comments will be accepted at any time during the environmental impact analysis process; however, to ensure the DAF has sufficient time to consider public scoping comments during preparation of the Draft EIS, please submit comments within the 30-day scoping period. The Draft EIS is anticipated in late 2021 or early 2022. The Final EIS and a decision on the Proposed Action are expected in mid to late 2022.

ADDRESSES: For EIS inquiries or requests for printed or digital copies of scoping materials please contact Mr. Michael Noah, phone: (830) 358-6798. The project website (www.AAFBInfrastructureEIS.com)

provides additional information on the EIS and can be used to submit scoping comments. Scoping comments may also be submitted via email to AAFBInfrastructure.EIS@us.af.mil, or via postal mail to 36th Civil Engineer Squadron, ATTN: CEV (AAFB Infrastructure EIS), Unit 14007, APO, AP 96543-4007. Please submit inquiries or requests for printed or digital copies of the scoping materials via the email or postal address above. For printed material requests, the standard U.S. Postal Service shipping timeline will apply. Please consider the environment before requesting printed material.

SUPPLEMENTARY INFORMATION: The DAF intends to prepare an EIS which will evaluate the potential impacts associated with the proposed construction of infrastructure upgrades at Andersen AFB, Guam, and to then use this infrastructure consistent with existing installation operations once construction is completed. The purpose of this Proposed Action is to enhance Andersen AFB’s capability to support permanent and rotational forces within the Indo-Pacific and strengthen the U.S.’s ability to respond regionally and worldwide, in alignment with evolving DAF and Department of Defense initiatives for the region. To enhance Andersen AFB’s capability to support permanent and rotational forces, the Air Force needs to upgrade mission-related infrastructure. These upgrades include providing additional capability for parking, storing, maintaining, refueling, loading, and unloading aircraft at the airfield as well as for storing munitions. The DAF is the National Environmental Policy Act (NEPA) lead agency, and the U.S. Navy is a cooperating agency for this EIS process.

Under this proposal, the DAF is considering new infrastructure upgrades adjacent to the northwest corner of the airfield and within the munitions storage area at Andersen AFB. Construction would take place over approximately 7 years and would include airfield pavements, an aircraft hangar, maintenance and utilities buildings, fuel systems, fencing and utilities, roadways and parking, storm water management infrastructure, and earth covered magazines. Approximately 204 total acres would be disturbed during construction, which would be either developed sites or maintained vegetation once construction is complete. The infrastructure would accommodate aircraft types and flight operations that have been addressed under previously prepared National Environmental Policy Act documentation for Andersen AFB,
