

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Daryll Pope by email at dpope@usgs.gov, or by telephone at (804) 261-2630.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The USGS administers the National Ground-Water Monitoring Network which was developed through work with the Federal Advisory Committee on Water Information (ACWI) and its Subcommittee on Ground Water (SOGW). This network is required as part of Public Law 111-11, Subtitle F—Secure Water: Section 9507, 42 U.S.C. 10367, “Water Data Enhancement by United States Geological Survey.” The NGWMN consists of an aggregation of wells and spring from existing Federal, State, Tribal, and local groundwater monitoring networks. To support data

providers for the NGWMN, the USGS will be providing funding through cooperative agreements to water-resource agencies that collect groundwater data. The USGS will be soliciting applications for funding that will request information from the Agency collecting the data. Elements will include contact information (phone number and email address), and a proposal describing their proposed work in support of the NGWMN. The proposal will describe the groundwater networks to be included in the NGWMN, the purpose of the networks, and the Principal aquifers that are monitored. Proposals may include work to become a new data provider to the NGWMN, support for maintaining connections to agency databases, and work to enhance NGWMN sites (updating metadata, well maintenance, well drilling, and support for continuous water-level monitoring equipment). The proposal would require estimates of costs to complete the above tasks and a timeline for planned completion. The proposal will be reviewed by the USGS and the NGWMN Program Board who will make funding recommendations.

A **Federal Register** notice with a 60-day public comment period soliciting

comments on this collection of information was published October 21, 2020 (85 FR 67009). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility; (2) the accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) how might BIA minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The BIA—Indian Services is seeking renewal for the information collection Reporting System for Public Law 102–477 Demonstration Project. This information allows the Division of Workforce Development (DWD), which reports to the BIA—Indian Services, to document satisfactory compliance with statutory, regulatory, and other requirements of the various integrated programs. Public Law 102–477 authorized tribal governments to integrate federally funded employment, training, and related services and programs into a single, coordinated, comprehensive service delivery plan. Funding agencies include the Department of Labor and the Department of Health and Human Services. BIA is statutorily required to serve as the lead agency and provides a

single, universal report format for use by tribal governments to report on integrated activities and expenditures. The DWD shares the information collected from these reports with the Department of Labor and the Department of Health and Human Services.

This renewal will be revised to include information collected under 25 CFR part 26 to administer the job placement and training program, through Tribes, which provides vocational/technical training, related counseling, guidance, and job placement services, and limited financial assistance to Indian individuals who are not less than 18 years old and who reside within the Department of the Interior (DOI) approved service areas. Public Law 102–477 allows tribes to consolidate into a single plan, single budget and single report to one office programs they currently have under contract or grant. The job placement and training program has been included in these 477 plans. Since Tribes determine which programs will be included, the plans vary from Tribe to Tribe. Submission of this information allows DOI, through Tribes, to administer the job placement and training program, which provides vocational/technical training, related counseling, guidance, job placement services, and limited financial assistance to Indian individuals who are not less than 18 years old and who reside within DOI-approved service areas.

Title of Collection: Reporting System for Public Law 102–477 Demonstration Project.

OMB Control Number: 1076–0135.

Form Number: BIA–8205.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Indian tribes participating in Public Law 102–477 and individuals.

Total Estimated Number of Annual Respondents: 258.

Total Estimated Number of Annual Responses: 258.

Estimated Completion Time per Response: Varies from half an hour to six hours.

Total Estimated Number of Annual Burden Hours: 1,017.

Respondent's Obligation: Required to Obtain a Benefit.

Frequency of Collection: Once annually for the reporting, and once annually for the job placement and training application.

Total Estimated Annual Nonhour Burden Cost: \$355.

An agency may not conduct or sponsor and a person is not required to

respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
