Acquisition Regulations; Buy Indian Act; Procedures for Contracting; Reopening and Extension of Comment Period

AGENCY: Indian Health Service (IHS), HHS.

ACTION: Proposed rule; reopening and extension of comment period.

SUMMARY: The Indian Health Service (IHS) is reopening and extending the comment period for the proposed rule entitled “Acquisition Regulations; Buy Indian Act; Procedures for Contracting.” This action is being taken in response to requests from stakeholders to extend the comment period to allow additional time for interested persons to submit comments on the proposed rule.

DATES: IHS is reopening and extending the comment period on the proposed rule published November 10, 2020 (85 FR 71596) for 60 days. Submit either electronic or written comments on the proposed rule by June 21, 2021.

ADDRESSES: You may submit comments as follows. Please note that late, untimely filed comments will not be considered. Electronic comments must be submitted on or before June 21, 2021. The <https://www.regulations.gov> electronic filing system will accept comments until 11:59 p.m. Eastern Time at the end of June 21, 2021. Comments received by mail/hand delivery/courier (for written/paper submissions) will be considered timely if they are postmarked or the delivery service acceptance receipt is on or before that date.

Electronic Submissions

Submit electronic comments in the following way:

- **Federal eRulemaking Portal:** <https://www.regulations.gov>. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket unchanged. Because your comment will be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else’s Social Security number, or

confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on <https://www.regulations.gov>.

- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see “Written/Paper Submissions” and “Instructions”).

Written/Paper Submissions

You may send comments identified by docket number OI–2012–0005 using any of the following methods:

Carl Mitchell, Director, Division of Regulatory Policy Coordination (DRPC), Office of Management Services (OMS), Indian Health Service, 5600 Fishers Lane, Mail Stop 09E70, Rockville, MD 20857.

Tiffani Redding, Director, Office of Recipient Integrity Coordination (ORIC), Department of Health and Human Services, Office of the Assistant Secretary for Financial Resources (ASFR), Room 533H, Hubert H. Humphrey Building, 200 Independence Avenue SW, Washington, DC 20201.

FOR FURTHER INFORMATION CONTACT: For technical questions concerning this proposed rule contact:

Carl Mitchell, Director, Division of Regulatory Policy Coordination (DRPC), Office of Management Services, Indian Health Service, 301–443–6384, carl.mitchell@ihs.gov; or Santiago Almaraz, Acting Director Office of Management Services, Indian Health Service, 301–443–4872, santiago.almaraz@ihs.gov.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of November 10, 2020 (85 FR 71596), the Indian Health Service (IHS) published a proposed rule entitled “Acquisition Regulations; Buy Indian Act; Procedures for Contracting” with a 60-day comment period.

Comments have been received from tribes and tribal entities requesting an extension of the comment period due to the encompassing of the holiday season during the original comment period, as well as the disproportionately high impact of the pandemic on Indian Country. Both of these events have delayed stakeholders from being able to perform a complete and full review of the proposed rule and provide comments within the initial 60-day comment period.

IHS has concluded that it is reasonable to reopen and extend the comment period for an additional 60

days to allow any interested persons to submit comments on the proposed rule.

Approved: April 06, 2021.

Xavier Becerra,

Secretary, Department of Health and Human Services.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Gray Triggerfish Management Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes to implement management measures described in a framework action to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP), as prepared by the Gulf of Mexico Fishery Management Council (Council). If implemented, this proposed rule would modify catch limits in the Gulf of Mexico (Gulf) exclusive economic zone (EEZ) for gray triggerfish. The purpose of this proposed rule and the framework action is to modify the catch limits, as applicable, consistent with the most recent interim analysis for gray triggerfish and to achieve optimum yield (OY) for the stock.

DATES: Written comments must be received on or before May 21, 2021.

ADDRESSES: You may submit comments on the proposed rule, identified by “NOAA-NMFS-2021-0030” by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter “NOAA-NMFS-2021-0030”, in the Search box. Click on the “Comment” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Kelli O'Donnell, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: Comments sent by any other method, to any other address or

individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

Electronic copies of the framework action, which includes an environmental assessment, a regulatory impact review, and a Regulatory Flexibility Act (RFA) analysis, may be obtained from the Southeast Regional Office website at <https://www.fisheries.noaa.gov/action/framework-action-modification-gray-triggerfish-catch-limits>.

FOR FURTHER INFORMATION CONTACT: Kelli O'Donnell, Southeast Regional Office, NMFS, telephone: 727-824-5305, email: Kelli.ODonnell@noaa.gov.

SUPPLEMENTARY INFORMATION: The Gulf reef fish fishery, which includes gray triggerfish, is managed under the FMP. The FMP was prepared by the Council and is implemented by NMFS through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

Background

The Magnuson-Stevens Act requires NMFS and regional fishery management councils to prevent overfishing and to achieve, on a continuing basis, the OY from federally managed fish stocks to ensure that fishery resources are managed for the greatest overall benefit to the nation, particularly with respect to providing food production and recreational opportunities, and protecting marine ecosystems.

Gray triggerfish in the Gulf EEZ are managed using both commercial and recreational sector measures with each sector having its own annual catch limit (ACL) and annual catch target (ACT). The sector allocation of the stock ACL, which equals the acceptable biological catch (ABC), is 21 percent commercial and 79 percent recreational and was implemented in 2008 through Amendment 30A to the FMP (73 FR 38139; July 3, 2008). Inseason accountability measures (AMs) for gray triggerfish specify that if commercial and/or recreational landings meet or are projected to meet the respective sector's ACT, that sector will close for the

remainder of the fishing year. For the commercial sector, the post-season AM specifies that if the commercial ACL is exceeded despite the quota closure, then the following fishing year's commercial ACL and ACT (commercial quota) will be reduced by the amount of the prior-year's commercial ACL overage. For the recreational sector, if the recreational ACL is exceeded and gray triggerfish are overfished then in the following fishing year the recreational ACL and ACT would be reduced by the amount of the ACL overage in the prior fishing year. The current gray triggerfish ACLs, ACTs (set at 5 percent and 10 percent less than the commercial and recreational sector ACLs, respectively), and inseason AMs for both sectors and the post season AM for the recreational sector, were established in 2013, through Amendment 37 to the FMP (78 FR 27084; May 9, 2013). The postseason AM for the commercial sector was established in 2008, through Amendment 30A to the FMP (73 FR 38139).

The most recent Southeast Data, Assessment, and Review (SEDAR) stock assessment for gray triggerfish was completed and reviewed by the Council's Scientific and Statistical Committee (SSC) in October 2015 (SEDAR 43). SEDAR 43 indicated that the gray triggerfish stock was not experiencing overfishing but remained overfished and would not be rebuilt by the end of 2017 as previously projected. As a result of SEDAR 43, the Council's SSC made recommendations for an increased overfishing limit (OFL) based on a fixed maximum fishing mortality threshold, which is independent of rebuilding, and ABCs based on an 8, 9, or 10-year rebuilding timeline. Because of the stock not rebuilding as anticipated, the Council decided not to change the ABC, sector ACLs, and sector ACTs set by Amendment 37 but to change the rebuilding timeline to rebuild the stock by 2025. Amendment 46 implicitly adopted the SSC's recommendations for an increased OFL by including alternatives with an ABC that was higher than the *status quo* OFL. Amendment 44 to the FMP, implemented in 2017 (82 FR 61488; December 28, 2017), updated the stock status to not overfished but did not revise the sector ACLs or ACTs.

Between 2012 and 2019, the commercial sector has exceeded its ACL of 64,100 lb (29,075 kg), round weight, two times, in both 2012 and 2018. During that same time frame, the recreational sector has exceeded its ACL of 241,200 lb (109,406 kg), round weight, five times, in 2012, 2013, 2016, 2018, and 2019.
