DEPARTMENT OF DEFENSE

Department of the Army

[Docket ID: USA-2021-HQ-0005]

Privacy Act of 1974; System of Records

AGENCY: Department of the Army, Department of Defense (DoD).

ACTION: Notice of a modified system of records.

SUMMARY: The Department of the Army is modifying and renaming the United States Military Entrance Processing Command (USMEPCOM) Integrated Resource System (USMIRS), A0601-270. As the executive agent, the Department of the Army uses the

USMIRS to determine the qualifications of applicants for the Armed Forces of the United States through aptitude testing, medical examination, identity verification, background screening, and administrative processing. Records will also be used to determine patterns and trends in the military population, and for statistical analyses.

DATES: This system of records modification is effective upon publication; however, comments on the Routine Uses will be accepted on or before May 21, 2021. The Routine Uses are effective at the close of the comment period.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- * *Federal Rulemaking Portal:* <https://www.regulations.gov>.

Follow the instructions for submitting comments.

- * *Mail:* DoD cannot receive written comments at this time due to the COVID-19 pandemic. Comments should be sent electronically to the docket listed above.

Instructions: All submissions received must include the agency name and docket number for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <https://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: Mr. Myron Wong, Department of the Army, U.S. Army Records Management and Declassification Agency, ATTENTION: Army Privacy and Civil Liberties Office, 9301 Chapek Road (Building 1458), Fort Belvoir, VA 22060-5605, or by calling 571-515-0243.

SUPPLEMENTARY INFORMATION: The USMEPCOM consists of 65 Military Entrance Processing Stations (MEPS) and one Remote Processing Station (RPS) in the United States. The USMIRS conducts aptitude tests, processes medical examinations, and determines acceptability of individuals for entry into the Armed Forces of the United States based on each Service's eligibility standards. The USMIRS also determines acceptability, administratively processes, allocates, and inducts Selective Service System registrants when required; and provides aptitude and medical examination services for other Federal agencies as requested. The USMIRS interfaces with recruiting capabilities for the Services using standard DoD data elements to share

data between USMEPCOM and all the Armed Services recruiting and accession commands. Additionally, the USMIRS shares data with the Social Security Administration (SSA) and the United States Citizenship and Immigration Services (USCIS) for identity vetting and to verify eligibility to work in the United States. Applicant information is retained by the USMIRS for various statistical analyses to identify trends and reduce duplicative processes.

This system of records is being modified to alter the system name, modify the system number to remove "DoD" at the end, and to comply with requirements in Office of Management and Budget (OMB) Circular No. A-108 (2016). This modified system of records also expands the purposes of the system of records, the categories of individuals, and the categories of records by, among other things, including language concerning the system's support of Selective Service registration processes and support for other Federal agencies. The modifications include new and modified routine uses specifying, among other things, the potential sharing of information to authorized representative agents of Federal, state, local, territorial/tribal, international, or foreign agencies for legal, security, health, or other administrative reasons. Changes have also been made to the following sections: System manager; system location; authorities; retrieval of records; procedures for record access and notification, and contesting records; and safeguards.

In addition, the system of records is being modified to reflect major changes to the policies and practices for the retention and disposal of records due to a recent retention schedule change approved by the National Archives and Records Administration (NARA). The change in the system's retention policy was required to support the mobilization requirements in accordance with DoD policy (DoD Instruction 1352.01) and to prevent potential fraudulent enlistments using duplicated Social Security numbers. These changes will require the system to securely retain electronic data in a cloud computing environment to meet business needs prior to being securely archived offsite in a Federal Records Center on encrypted physical storage media.

The DoD notices for systems of records subject to the Privacy Act of 1974, as amended, have been published in the **Federal Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT** or at the Defense Privacy, Civil Liberties, and

Transparency Division website at <https://dpcl.d.defense.gov>.

In accordance with 5 U.S.C. 552a(r) and OMB Circular No. A-108, the DoD has provided a report of this system of records to the OMB and to Congress.

Dated: April 14, 2021.
