

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket No. 21–127; RM–11894; DA 21–398; FR ID 20570]

Television Broadcasting Services Schenectady, New York

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission has before it a petition for rulemaking filed by WRGB Licensee, LLC (Petitioner), the licensee of WRGB (CBS), channel 6, Schenectady, New York. The Petitioner requests the substitution of channel 35 for channel 6 at Schenectady, New York in the DTV Table of Allotments.

DATES: Comments must be filed on or before May 24, 2021 and reply comments on or before June 7, 2021.

ADDRESSES: Federal Communications Commission, Office of the Secretary, 45 L Street NE, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve counsel for the Petitioner as follows: Paul A. Cicelski, Esq., Lerman Senter, PLLC, 2001 L Street NW, Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418–1647; or Joyce Bernstein, Media Bureau, at Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: In support of its channel substitution request, the Petitioner states that the Commission has recognized that VHF channels have certain propagation characteristics which may cause reception issues for some viewers, and also that the reception of VHF signals require larger antennas, that are generally not well suited to the mobile applications expected under flexible use, relative to UHF channels. According to the Petitioner, WRGB has received numerous complaints from viewers unable to receive an over-the-air signal, despite being able to receive signals from other stations. In addition, the Petitioner states that while the proposed channel 35 noise limited contour does not completely encompass the relevant channel 6 noise limited contour, WRGB is a CBS affiliate and there are three other CBS affiliated stations that serve some portion of the loss area. The Petitioner also submitted an analysis, using the Commission’s *TVStudy* software analysis program, demonstrating that after taking into account service provided by other CBS stations, all of the population located

within WRGB’s original post-DTV transition channel 6 noise limited contour will continue to receive CBS service, except for 30 people. The Bureau used the technical parameters of WRGB’s original post-transition digital channel 6 facility (File No. BPCDT–20080307AAK) in determining any predicted loss which may occur from the proposed channel substitution.
