SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000-0142, Past Performance Information.

B. Need and Uses

This clearance covers the information that offerors and contractors must submit to comply with the following Federal Acquisition Regulation (FAR) requirements: Preaward. For responses during source selection.

- *FAR 15.305(a)(2)(ii).* This section requires solicitations describe the approach for evaluating past performance, including evaluating offerors with no relevant performance history, and providing offerors an opportunity to identify past or current contracts (including Federal, State, and local government and private) for efforts similar to the Government requirement. Solicitations also must authorize offerors to provide information on problems encountered on their identified contracts and the offeror corrective actions. Per FAR 15.304(c)(3), past performance must be evaluated in all source selections for negotiated competitive acquisitions expected to exceed the simplified acquisition threshold (SAT) unless the contracting officer documents the reason past performance is not an appropriate evaluation factor for the acquisition.

- *FAR 52.212-1, Instructions to Offerors—Commercial Items.* This provision requires offerors, per paragraph (b)(10), to submit past performance information, when included as an evaluation factor, to include recent and relevant contracts for

the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information).

Postaward. For responses in the Contractor Performance Assessment Reporting System (CPARS).

- *FAR 42.1503(d).* Requires contractors be afforded up to 14 calendar days from the notification date that a past performance evaluation has been entered into CPARS to submit comments, rebutting statements, or additional information. Past performance information is relevant information regarding a contractor's actions under previously awarded contracts or orders, for future source selection purposes. Source selection officials may obtain past performance information from a variety of sources.

The contracting officer will use the information to support future source selection decisions.

C. Annual Burden

Respondents: 65,373.

Total Annual Responses: 83,262.

Total Burden Hours: 166,524.

D. Public Comment

A 60-day notice was published in the **Federal Register** at 86 FR 8913, on February 10, 2021. One respondent submitted comments; however, they did not change the estimate of the burden.

Comment: The commenter expressed there is a need for a revision to the practices of acquiring, analyzing, and utilizing past performance information for source selection in federal acquisitions. The commenter noted that "there have emerged in recent years a number of issues that result in a misleading, incomplete, deceptive, or distorted assessment of an Offeror's Past Performance that is not allowing fair competition for contracts which evaluate this factor." The commenter suggested changes on a few areas by using examples.

Response: Some of the suggestions made by the commenter may require consideration via the rulemaking process, and other suggestions refer to practices by particular agencies. These suggestions are outside the scope of this information collection renewal. The commenter did not express an opinion on whether the collections of information are needed; whether the estimated number of burden hours is accurate; or ways to minimize the burden of the collection of information. Therefore, the estimate of the burden was not changed.

Obtaining Copies: Requesters may obtain a copy of the information

collection documents from the GSA Regulatory Secretariat Division by calling 202-501-4755 or emailing GSARegSec@gsa.gov. Please cite OMB Control No. 9000-0142, Past Performance Information.

SUPPLEMENTARY INFORMATION:

Background: The Advisory Board was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Advisory Board include providing advice on the development of probability of causation guidelines that have been promulgated by the Department of Health and Human Services (HHS) as a final rule; advice on methods of dose reconstruction, which have also been promulgated by HHS as a final rule; advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program; and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC). In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to CDC. NIOSH implements this responsibility for CDC.

The Advisory Board's charter was issued on August 3, 2001, renewed at appropriate intervals, rechartered on March 22, 2020, and will terminate on March 22, 2022.

Purpose: The Advisory Board is charged with (a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advise the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class. SDRR was established to aid the Advisory Board in carrying out its duty to advise the Secretary, HHS, on dose reconstruction.

Matters To Be Considered: The agenda will include discussions on the following dose reconstruction program quality management and assurance activities: Dose reconstruction cases
