

Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*). Because most of the Projects would be located on tribal trust lands, the BIA is the lead federal agency. The Moapa Band, BLM, EPA, NPS, NDOW, and USFWS may be cooperating agencies on the EIS for the Projects. The BIA and BLM will use this EIS to make their respective decisions and the other cooperating parties will use this information to support their analyses and decisions, as needed. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.

Bryan Newland,

Principal Deputy Assistant Secretary—Indian Affairs.

Abstract: The Office of Management and Budget regulation at 5 CFR 1320, which implements the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)].

This information collection activity provides a means to consistently assess, benchmark, and improve customer satisfaction with Federal government agency websites within the Executive Branch. The Federal Consulting Group of the Department of the Interior serves as the executive agent for this methodology and has partnered with ForeSee to offer this assessment to federal agencies.

ForeSee is a leader in customer satisfaction and customer experience management on the web and related media. Its methodology (Customer Experience Analytics or CXA) is a derivative of one of the most respected, credible, and well known measures of customer satisfaction in the country, The ForeSee CXA methodology combines survey data and a patented econometric model to precisely measure the customer satisfaction of website users, identify specific areas for improvement, and determine the impact of those improvements on customer satisfaction and future customer behaviors.

The ultimate purpose of ForeSee CXA is to help improve the quality of goods and services available to American citizens, including those from the Federal government.

The E-Government website Customer Satisfaction Surveys will be completed subject to the Privacy Act of 1974, Public Law 93-579, December 31, 1974 (5 U.S.C. 522a). The agency information collection will be used solely for the purpose of the survey. The contractor will not be authorized to release any agency information upon completion of the survey without first obtaining permission from the Federal Consulting Group and the participating agency. In no case shall any new system of records containing privacy information be developed by the Federal Consulting Group, participating agencies, or the contractor collecting the data. In addition, participating Federal agencies may only provide information used to randomly selected respondents from among established systems of records provided for such routine uses.

Further, the information will enable Federal agencies to determine customer satisfaction metrics with discrimination capability across variables. Thus, this information collection will assist Federal agencies in making the best use of resources in a targeted manner to improve service to the public.

This survey asks no questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, or other matters that are commonly considered private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it is operating under a currently valid Office of Management and Budget control number. The Office of Management and Budget control number for this collection is 1090-0008. The control number will be displayed on the surveys used. For expeditious administration of the surveys, the expiration date will not be displayed on the individual instruments. Response to the surveys is voluntary.

Termination of Notice of Intent To Prepare an Environmental Impact Statement, New Mexico Unit of the Central Arizona Project; Catron, Grant, and Hidalgo Counties, New Mexico

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of termination.

SUMMARY: The Bureau of Reclamation (Reclamation) is terminating preparation of an Environmental Impact Statement (EIS) for the New Mexico Unit of the Central Arizona Project (CAP) (NM Unit). A Notice of Intent to prepare an EIS was published on June 12, 2018. Reclamation, as the lead Federal agency, and the New Mexico Interstate Stream Commission (ISC), as joint lead agency, issued a Draft EIS for public review on April 24, 2020. On October 15, 2020, the ISC, Reclamation, and the New Mexico CAP Entity terminated the Interim Advance Funding Agreement, which funded the NM Unit EIS process.

DATES: The preparation of the EIS for the NM CAP is discontinued as of the date of publication of this notice.

FOR FURTHER INFORMATION CONTACT: Ms. Leslie Meyers, Bureau of Reclamation, Phoenix Area Office, 6150 West Thunderbird Road, Glendale, AZ 85306-4001; telephone (623) 773-6211; facsimile (623) 773-6480; email lmeyers@usbr.gov. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The Arizona Water Settlements Act, Public Law 108-451 (AWSA), amended the Colorado River Basin Project Act of 1968, Public Law 90-537, 43 U.S.C. Ch. 32, authorizing the Secretary of the Interior (Secretary) to contract with water users in New Mexico for water from the Gila River, its tributaries and underground water sources. Water use under the AWSA is conditioned on satisfying a variety of laws and agreements related to its use in New Mexico and Arizona.

The AWSA authorized the Secretary to design, build, operate, and maintain a NM Unit to divert Gila River water in New Mexico for this purpose. The Secretary was further directed to carry

out all necessary environmental compliance required by Federal law in implementing the Consumptive Use and Forbearance Agreement and the New Mexico Unit Agreement, which would enable an exchange of CAP water to downstream Gila River water users in Arizona, for diversion and use of the Gila River in the NM Unit project area in southwestern New Mexico.

On November 18, 2016, an Interim Advance Funding Agreement was executed among the ISC, Reclamation, and the New Mexico CAP Entity (action proponent) for the purposes of paying Reclamation's costs associated with preparation of the EIS.

Pursuant to the National Environmental Policy Act (NEPA) of 1969, as amended, 42 U.S.C. 4231-4347, a Notice of Intent to prepare the EIS for the NM Unit was published in the **Federal Register** on June 12, 2018 (83 FR 27347).

Publication of the **Federal Register** notice was followed by a public scoping period that ended on July 20, 2018. The Draft EIS was made available for public review and comment from April 24 to June 8, 2020.

On June 18, 2020, the ISC voted to terminate the NEPA process for the NM Unit, and not fund Reclamation to complete the NEPA process.

The parties went through a dispute resolution process for termination of the Interim Advance Funding Agreement, following the ISC's decision. On October 15, 2020, the ISC, Reclamation, and the New Mexico CAP Entity terminated the Interim Advance Funding Agreement, which funded the NM Unit EIS process.

Karl Stock,

Acting Regional Director, Interior Region 8: Lower Colorado Basin, Bureau of Reclamation.
