DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[212A2100DD/AAKC001030/A0A501010.999900253G]

Notice of Intent To Prepare an Environmental Impact Statement for the Chuckwalla Solar Projects on the Moapa River Indian Reservation, Clark County, Nevada

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Bureau of Indian Affairs (BIA), as lead agency in cooperation with the Moapa Band of Paiute Indians (Moapa Band), Bureau of Land Management (BLM), and other agencies, intend to prepare an Environmental Impact Statement (EIS) that will evaluate the development of the Chuckwalla Solar Projects (Projects) on Moapa River Indian Reservation (Reservation) tribal lands. This notice announces the beginning of the scoping process to solicit public comments and identify potential issues related to the EIS. The BIA requests comments concerning the scope of the analysis, and identification of relevant information, studies, and analyses. It also announces that two public scoping meetings will be held virtually or in person to identify potential issues, alternatives, and mitigation to be considered in the EIS.

DATES: All comments must be received by May 3, 2021. The draft environmental impact statement is scheduled for October 2021 and the final environmental impact statement is scheduled for January 2022 with a Record of Decision in March 2022.

ADDRESSES: Send written comments to Mr. Chip Lewis, BIA Western Regional Office, 2600 North Central Avenue, 4th Floor Mailroom, Phoenix, Arizona 85004. Comments may also be sent via email to *Chip.Lewis@bia.gov* or on the Projects website at *www.ChuckwallaSolarProjectsEIS.com*.

FOR FURTHER INFORMATION CONTACT: Chip Lewis, BIA; telephone: (602) 379–6750; email: *Chip.Lewis@bia.gov*. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Purpose and Need of the Proposed Action

The proposed Federal action, taken under 25 U.S.C. 415, is BIA’s approval of the solar energy ground lease and related agreements entered into by the Moapa Band with EDF Renewables Development, Inc. (EDFR or Applicant). The agreements provide for construction, operation and maintenance (O&M), and decommissioning of up to 700 megawatts (MWs) from up to four solar photovoltaic (PV) electricity generation facilities located entirely on the Reservation and specifically on lands held in trust by the United States for the Moapa Band.

In addition, two transmission generation interconnection (gen-tie) lines would be constructed to interconnect the Projects to the regional

electrical grid. Portions of these lines would cross lands managed by BLM within a designated utility corridor on the Reservation and BLM land. The BIA and BLM would approve rights-of-way (ROWs) authorizing the construction and operation of the transmission lines.

The purposes of the proposed Projects are, among other things, to: (1) Help to provide a long-term, diverse, and viable economic revenue base and job opportunities for the Moapa Band; (2) meet the terms of the existing Power Purchase Agreements (PPAs) for the output of the Projects; (3) help Nevada and neighboring states to meet their State renewable energy needs; and (4) allow the Moapa Band, in partnership with the Applicant, to optimize the use of the lease site while maximizing the potential economic benefit to the Tribe.

Preliminary Proposed Action and Alternatives

The Applicant plans to develop up to four solar projects collectively referred to as the Projects on the Reservation in Clark County, Nevada. The four solar projects would total up to 700 MWs of solar energy generation, each using photovoltaic (PV) technology and incorporating battery energy storage systems (BESS).

The proposed Chuckwalla solar generating facilities would be constructed entirely within the Reservation within a lease study area of approximately 6,400 acres of tribal trust land. These lands are in the southeast corner of the Reservation on lands set aside by the Moapa Band for the Projects. The solar fields and associated facilities would be in Sections 13, 14, 22, 23, 24, 25, 26, 27, 34, 35, and 36; Township 16 South, Range 65 East; Mount Diablo Base Meridian.

Major components of each solar site would include multiple blocks of solar

PV panels mounted on tracking systems, H-beam or pad mounted inverters, transformers, collection lines, BESS, Projects substation, and O&M facilities. The four separate projects would include: Chuckwalla 1A—a 200 MW project; Chuckwalla 1B—a 50 MW project; Chuckwalla 2—a 200 MW project; and Chuckwalla 3—a 250 MW project.

Chuckwalla 1A and 1B would be built at the same time as the first phase. Chuckwalla 2 and Chuckwalla 3 would be built separately in subsequent phases. Construction of each phase is expected to take approximately 18 to 20 months.

Two gen-tie lines approximately 10 to 12 miles long would interconnect the Projects to the regional electrical grid—one to the existing Harry Allen substation and one to the existing Crystal Substation. These lines would be built parallel to one another for most of their length; approximately 4.5 miles would be in the designated utility corridor on the Reservation that is managed by BLM and BLM land.

Access to the Chuckwalla sites would be provided via I-15 to the Valley of Fire Highway to an existing 2.5-mile road on the Reservation paralleling its southern border that would be upgraded as needed. Water for each phase will be needed during construction for dust control and a minimal amount will be needed during operations for administrative/sanitary water use and panel washings. The water supply for the Projects would be leased from the Moapa Band and delivered to the site via temporary water pipeline or by truck.

The Applicant is expected to operate each of the energy facilities for up to 35 years under the terms of the solar leases with the Moapa Band. Each project is expected to be built to meet its corresponding PPA for the output of the Projects.

The EIS will focus on the Proposed Action as described above at the location on the Reservation selected by the Moapa Band. It will evaluate the Proposed Action and the No Action Alternative. Additional viable alternatives may be identified in response to issues raised during the scoping process.

Summary of Expected Impacts

Potential impacts to be addressed in the EIS analysis may include, but would not be limited to, impacts on water resources, biological resources, threatened and endangered species, cultural resources, Native American religious concerns, aesthetics, and traffic. In addition to those resource

topics identified above, Federal, State, and local agencies, along with other stakeholders that may be interested or affected by the BIA's decision on the proposed Projects, are invited to participate in the scoping process to identify additional issues to be addressed.

Anticipated Permits and Authorizations

In addition to the land lease and ROWs to be approved by BIA and the ROWs to be approved by BLM, the Projects would also require other permits and authorizations. These could include a Utility Environmental Protection Act (UEPA) permit from the Public Utilities Commission of Nevada and/or dust control and special use permits from Clark County.

Schedule for the Decision-Making Process

The EIS will provide a framework for BIA and BLM to make determinations and to decide whether to take the aforementioned Federal actions. The Records of Decision (RODs) to be issued by the BIA and BLM are currently scheduled for March 2022.

Public Scoping Process

This notice of intent initiates the scoping process, which guides the development of the EIS. Two public scoping meetings will be conducted either virtually or in person to further describe the Projects and identify potential issues and alternatives to be considered in the EIS. If in person, one public scoping meeting will be held on the Reservation and the other public scoping meeting will be held in Las Vegas, Nevada. If held virtually, the public meetings can be joined online through the Projects website at www.ChuckwallaSolarProjectsEIS.com. Those unable to live stream the presentation would be able to access the meeting presentation on the project website and could join by telephone. Additionally, the live presentation will be recorded and made accessible for viewing throughout the scoping period. During either the in-person or virtual meetings, a short presentation will be made and team members will be present to discuss and answer questions. The PowerPoint presentation will be posted to the Projects website and printed copies will be made available at the BLM Las Vegas Field Office and the Moapa River Indian Reservation Tribal Hall prior to the meetings. The dates of the public scoping meetings will be included in notices to be posted in the *Las Vegas Sun*, *Las Vegas Review-Journal*, and *Moapa Valley Progress* 15 days before the meetings.

Please include your name, return address, and the caption "EIS, Chuckwalla Solar Projects," on the first page of any written comments. You may also submit comments at the public scoping meetings.

Request for Identification of Potential Alternatives, Information, and Analyses Relevant to the Proposed Action

Interested parties are invited to identify potential alternatives, issues to be analyzed, mitigation measures, and other information to be considered in the EIS.

Lead and Cooperating Agencies

BIA will prepare the EIS in cooperation with the Moapa Band, BLM, Environmental Protection Agency (EPA), U.S. Fish and Wildlife Service (USFWS), and possibly the National Park Service (NPS) and Nevada Department of Wildlife (NDOW). The resulting EIS will aim to: (1) Provide agency decision makers, the Moapa Band, and the general public with a comprehensive understanding of the impacts of the proposed development of the solar field on the Reservation; (2) describe the cumulative impacts of increased development on the Reservation; and (3) identify and propose mitigation measures that would minimize or prevent significant adverse impacts.

Decision Maker

This notice is published in accordance with 40 CFR 1501.9 of the Council of Environmental Quality regulations and 43 CFR 46.235 of the Department of the Interior Regulations implementing the procedural requirements of the NEPA (42 U.S.C. 4321 *et seq.*), and in accordance with the exercise of authority delegated to the Principal Deputy Assistant Secretary—Indian Affairs by part 209 of the Department Manual.

Nature of Decision To Be Made

The BIA and the BLM decisions, if approved, would assist in addressing the management objectives in the Energy Policy Act of 2005 (Title II, Section 211) and Secretarial Order 3285A1 (March 11, 2009) that established the development of environmentally responsible renewable energy as a priority for the Department of the Interior.

Because the BIA has a jurisdictional trust responsibility over Indian lands and the BLM has land management responsibilities under FLPMA, the Projects is a major Federal action and must comply with the National

Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*). Because most of the Projects would be located on tribal trust lands, the BIA is the lead federal agency. The Moapa Band, BLM, EPA, NPS, NDOW, and USFWS may be cooperating agencies on the EIS for the Projects. The BIA and BLM will use this EIS to make their respective decisions and the other cooperating parties will use this information to support their analyses and decisions, as needed. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however.

Bryan Newland,

Principal Deputy Assistant Secretary—Indian Affairs.

Number 1090-0008]

**Agency Information Collection
Activities; E-Government Website
Customer Satisfaction Surveys**

AGENCY: Office of Strategic Employee and Organization Development, Federal Consulting Group, Office of the Secretary, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Federal Consulting Group is proposing to renew an information collection.

DATES: Interested persons are invited to submit comments on or before June 22, 2021.

ADDRESSES: Send your written comments to Federal Consulting Group (FCG), Attention: Lucy Adams, 1849 C St. NW, MS 4344, Washington, DC 20240-0001, or via email to Luciana_adams@ios.doi.gov. Individuals providing comments should reference

Customer Satisfaction Surveys (OMB ID: 1090-0008).

FOR FURTHER INFORMATION CONTACT: To request additional information or copies of the form(s) and instructions, please write to the Federal Consulting Group, Attention: Lucy Adams, 1849 C St. NW, MS 4344, Washington, DC 20240-0001, by telephone at 202-513-7679, or via email to Luciana_adams@ios.doi.gov.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct, or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment

to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Office of Management and Budget regulation at 5 CFR 1320, which implements the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)].

This information collection activity provides a means to consistently assess, benchmark, and improve customer satisfaction with Federal government agency websites within the Executive Branch. The Federal Consulting Group of the Department of the Interior serves as the executive agent for this methodology and has partnered with ForeSee to offer this assessment to federal agencies.

ForeSee is a leader in customer satisfaction and customer experience management on the web and related media. Its methodology (Customer Experience Analytics or CXA) is a derivative of one of the most respected, credible, and well known measures of customer satisfaction in the country, The ForeSee CXA methodology combines survey data and a patented econometric model to precisely measure the customer satisfaction of website users, identify specific areas for improvement, and determine the impact of those improvements on customer satisfaction and future customer behaviors.

The ultimate purpose of ForeSee CXA is to help improve the quality of goods and services available to American citizens, including those from the Federal government.

The E-Government website Customer Satisfaction Surveys will be completed subject to the Privacy Act of 1974, Public Law 93-579, December 31, 1974 (5 U.S.C. 522a). The agency information collection will be used solely for the purpose of the survey. The contractor will not be authorized to release any agency information upon completion of the survey without first obtaining permission from the Federal Consulting Group and the participating agency. In no case shall any new system of records containing privacy information be developed by the Federal Consulting Group, participating agencies, or the contractor collecting the data. In addition, participating Federal agencies may only provide information used to randomly selected respondents from among established systems of records provided for such routine uses.
