

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[60Day–21–1268; Docket No. CDC–2021–0043]

#### Proposed Data Collection Submitted for Public Comment and Recommendations

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled “Drug Overdose Surveillance and Epidemiology”. This information collection is designed to improve local, state, and regional situational awareness of drug, opioid, heroin, and stimulant overdose trends and respond to acute local and multi-state drug outbreaks.

**DATES:** CDC must receive written comments on or before June 25, 2021.

**ADDRESSES:** You may submit comments, identified by Docket No. CDC–2021–0043 by any of the following methods:

- *Federal eRulemaking Portal: Regulations.gov.* Follow the instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS–D74, Atlanta, Georgia 30329.

*Instructions:* All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to *Regulations.gov*.

**Please note:** Submit all comments through the *Federal eRulemaking portal (regulations.gov)* or by U.S. mail to the address listed above.

**FOR FURTHER INFORMATION CONTACT:** To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS–D74, Atlanta, Georgia 30329; phone: 404–639–7118; Email: *omb@cdc.gov*.

**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
5. Assess information collection costs.

#### Proposed Project

Drug Overdose Surveillance and Epidemiology (DOSE) (OMB Control No. 0920–1268, Exp. 8/31/2022)—Extension—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

#### Background and Brief Description

The rapid increase in opioid overdose deaths since 2013, numerous severe fentanyl and fentanyl analog outbreaks occurring since 2015 across the United States, and the declaration of the opioid overdose epidemic as a national public health emergency on October 26, 2017 have highlighted the urgent need to rapidly establish and enhance timely surveillance of suspected drug, opioid, heroin, and stimulant overdoses. These data are critical to inform timely local,

state, and regional response, especially to acute and/or widespread multi-state outbreaks.

This data collection effort, an essential component toward reducing the opioid crisis, is one of the top priorities for HHS. Drug Overdose Surveillance and Epidemiology (DOSE) data is critical to our ability to rapidly identify outbreaks and provide situational awareness of changes in emergency department (ED) visits involving suspected drug, opioid, heroin and stimulant overdoses at the local, state, and regional level. This will be accomplished by standardizing and enhancing the sharing of existing ED data collected by 52 health departments (all 50 state health departments, the health department of Puerto Rico, and the health department of the District of Columbia) with CDC. In addition, CDC leadership communicates with HHS on an ongoing basis, and this data is part of its request to better monitor, plan, and implement programs to prevent overdose and reduce subsequent harm.

DOSE proposes to fund 52 health departments (50 state health departments, the health department of Puerto Rico and the health department of the District of Columbia) to rapidly share existing ED data on counts of ED visits involving suspected drug, opioid, heroin, and stimulant overdoses using two standard data forms (*i.e.*, the Rapid ED overdose data form and the ED discharge overdose data form), and standard CDC case definitions.

The system will leverage ED syndromic data and hospital discharge data on ED visits already routinely collected by state and territorial health departments. No new data will be systematically collected from EDs, and health departments will be reimbursed by CDC for the burden related to sharing ED data with CDC. Fifty-two funded health departments (50 state health departments, Puerto Rico, and the District of Columbia) will rapidly share existing ED data with CDC on a monthly basis using the Rapid ED overdose data form and standard CDC case definitions. Although data may come from different local ED data systems, it is expected to cover at least 75% of ED visits in the jurisdiction (*e.g.*, state).

CDC will require all participating health departments to provide counts of ED visits involving suspected drug, opioid, heroin, and stimulant overdoses by county, age group, sex, and time (*i.e.*, month and year) in a standardized manner, using the Rapid ED overdose data form, which is an Excel data template. This form also collects data quality indicators such as percentage of ED visits missing data on key variables

(i.e., metadata). In order to assess and improve rapid ED data sharing, all 52 participating health departments will also be asked to share counts of ED visits involving suspected drug, opioid, heroin and stimulant overdoses by

county, age group, sex, and time (i.e., month and year), from more finalized hospital discharge files. The data will be shared with CDC on a quarterly or yearly basis using a standardized Excel data form, the ED discharge overdose

data form, and standard CDC case definitions. The total estimated annual burden hours are 1,272. There are no costs to the respondents other than their time.

## ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Total number of responses per respondent	Average burden per response (hours)	Total annual burden (hours)
Participating health departments sharing aggregate data from local syndromic or hospital discharge file.	Rapid ED overdose data form .....	19	12	3	684
Participating health departments sharing case-level ED data with CDC through the NSSP BioSense (OMB #0920-0824)*.	Rapid ED overdose data form .....	33	12	30/60	198
Participating health department sharing finalized hospital discharge data on a quarterly basis.	ED discharge overdose data form ...	26	4	3	312
Participating health department sharing finalized hospital discharge data on a yearly basis.	ED discharge overdose data form ...	26	1	3	78

#### Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended, and the Determination of the Director, Strategic Business Initiatives Unit, Office of the Chief Operating Officer, CDC, pursuant to Public Law 92-463. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

*Name of Committee: Disease, Disability, and Injury Prevention and Control Special Emphasis Panel (SEP)-*

*RFA-OH-20-007, National Center of Excellence for the Prevention of Childhood Agricultural Injury.*

*Date: June 8, 2021.*

*Time: 1:00 p.m.-3:00 p.m., EDT.*

*Place: Video-Assisted Meeting.*

*Agenda: To review and evaluate grant applications.*

**FOR FURTHER INFORMATION CONTACT:** Dan Hartley, Ed.D., Scientific Review Officer, Office of Extramural Programs, National Institute for Occupational Safety and Health, CDC, 1095 Willowdale Road, Morgantown, West Virginia 26505, Telephone: (304) 285-5812; [DHartley@cdc.gov](mailto:DHartley@cdc.gov).

The Director, Strategic Business Initiatives Unit, Office of the Chief Operating Officer, Centers for Disease Control and Prevention, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

**Kalwant Smagh,**

[60Day-21-21EL; Docket No. CDC-2021-0041]

#### Proposed Data Collection Submitted for Public Comment and Recommendations

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled National Learning Community for HIV CBO Leadership Evaluation. The purpose of this data collection is to evaluate the National Learning Community for HIV CBO Leadership which is a component of cooperative agreement CDC-RFA-PS19-1904: Capacity Building Assistance (CBA) for High Impact HIV Prevention Program Integration.

**DATES:** CDC must receive written comments on or before June 25, 2021.
