[Project No. 4428-011]

Walden Hydro, LLC; Notice of Intent To Prepare an Environmental Assessment

On May 29, 2020, Enel Green Power North America, Inc.¹ filed an application on behalf of Walden Hydro, LLC (Walden Hydro), for a new license for the 2.1-megawatt Walden Hydroelectric Project (Walden Project) (FERC No. 4428). The Walden Project is located on the Wallkill River in Orange County in the Village of Walden, New York. The Project is located approximately 28.5 river miles upstream of the mouth of the Wallkill River. The project does not occupy federal land.

In accordance with the Commission's regulations, on February 10, 2021, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). Based on the information in the record, including comments filed on the REA notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to license the Walden Project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

¹ In a February 3, 2021 filing, the Commission was notified that Enel Green Power North America, Inc. transferred all its ownership interests for Walden Hydro, LLC to Hydroland, Inc.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA August 2021 ² .	September 2021.
Comments on EA

[Docket No. CP21-179-000]

Nopetro LNG, LLC; Notice of Petition for Declaratory Order

Take notice that on April 20, 2021, pursuant to Rule 207(a)(2) of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, Nopetro LNG, LLC (Nopetro or Petitioner) filed a petition for declaratory order. The petition seeks a declaratory order from the Commission stating that Nopetro's construction and operation of a natural gas liquefaction and truck loading facility and proposed natural gas transloading operations in Port St. Joe, Florida, would not be subject to the Commission's jurisdiction under section 3 or section 7 of the Natural Gas Act, 15 U.S.C. 717b and 717f (2018), as more fully explained in Nopetro's petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as

² The Council on Environmental Quality's (CEQ) regulations under 40 CFR 1501.10(b)(1) require that EAs be completed within 1 year of the federal action agency's decision to prepare an EA. This notice establishes the Commission's intent to prepare an EA for the Walden Project. Therefore, in accordance with CEQ's regulations, the EA must be issued within 1 year of the issuance date of this notice.

appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Petitioner.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at <http://www.ferc.gov>. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission’s Home Page (<http://www.ferc.gov>) using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission’s Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. SUPPLEMENTARY INFORMATION:

Title: FERC-516, Electric Rate Schedules and Tariff Filings.

OMB Control No.: 1902-0096.

Type of Request: Three-year extension of the FERC-516 information collection requirements with no changes to the current reporting requirements.

Abstract: This notice for FERC-516 includes 11 components listed in the table below.¹ Section 205(c) of the Federal Power Act (FPA) requires that every public utility have all its jurisdictional rates and tariffs on file with the Commission and make them

¹ This notice does not address the requirements in the Supplementary Notice of Proposed Rulemaking (NOPR) in Docket No. RM20-10. The Supplementary NOPR is available on FERC’s eLibrary system (<https://elibrary.ferc.gov/eLibrary/search>) by searching Docket No. RM20-10.

available for public inspection, within such time and in such form as the Commission may designate. Section 205(d) of the FPA requires that every public utility must provide notice to FERC and the public of any changes to its jurisdictional rates and tariffs, file such changes with FERC, and make them available for public inspection, in such manner as directed by the Commission. FPA section 205 specifies that all rates and charges, and related contracts and service conditions, for wholesale sales and transmission of energy in interstate commerce must be filed with the Commission and must be “just and reasonable”. In addition, FPA section 206 requires the Commission, upon complaint or its own motion, to modify existing rates or services that are found to be unjust, unreasonable, unduly discriminatory or preferential.

Several rulemakings related to this information collection and its components have been summarized below.

In Order No. 745 (in Docket No. RM10-17), the Commission amended its regulations under the Federal Power Act (FPA). That amendment sought to ensure that when a demand response resource participating in an organized wholesale energy market administered by a Regional Transmission Organization (RTO) or Independent System Operator (ISO) has to demonstrate by a compliance filing that it has the capability to balance supply and demand as an alternative to a generation resource, and when dispatch of that demand response resource is cost-effective as determined by the net benefits test described in the final rule, that demand response resource must be compensated for the service it provides to the energy market at the market price for energy, referred to as the locational marginal price (LMP).² This approach for compensating demand response resources helps to ensure the competitiveness of organized wholesale energy markets and remove barriers to the participation of demand response resources, thus ensuring just and reasonable wholesale rates.

In Order 845 (in Docket No. RM11-7), the Commission revised its regulations to remedy undue discrimination in the procurement of frequency regulation in the organized wholesale electric markets and ensure that providers of frequency regulation receive just and reasonable and not unduly discriminatory or preferential rates. To remedy this undue discrimination, the Commission found
