SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the

pesticide specific contact person listed under **FOR FURTHER INFORMATION CONTACT:** *For pesticide specific information, contact:* The Chemical Review Manager for the pesticide of interest identified in the Table in Unit IV.

For general information on the registration review program, contact: Melanie Biscoe, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (703) 305-7106; email address: *biscoe.melanie@epa.gov*.

II. Background

Registration review is EPA’s periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. As part of the registration review process, the Agency has completed interim decisions for all pesticides listed in the Table in Unit IV. Through this program, EPA is ensuring that each pesticide’s registration is based on current scientific and other knowledge, including its effects on human health and the environment.

III. Authority

EPA is conducting its registration review of the chemicals listed in the Table in Unit IV pursuant to section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. Section 3(g) of FIFRA provides, among other things, that the registrations of pesticides are to be reviewed every 15 years. Under FIFRA, a pesticide product may be registered or remain registered only if it meets the statutory standard for registration given in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). When used in accordance with widespread and commonly recognized practice, the pesticide product must perform its intended function without unreasonable adverse effects on the environment; that is, without any unreasonable risk to man or the environment, or a human dietary risk from residues that result from the use of a pesticide in or on food.

IV. What action is the Agency taking?

Pursuant to 40 CFR 155.58, this notice announces the availability of EPA’s interim registration review decisions for the pesticides shown in the following table. The interim registration review decisions are supported by rationales included in the docket established for each chemical.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2021-0257; FRL-10022-05-OAR]

California State Motor Vehicle Pollution Control Standards; Advanced Clean Car Program; Reconsideration of a Previous Withdrawal of a Waiver of Preemption; Opportunity for Public Hearing and Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Opportunity for Public Hearing and Comment.

SUMMARY: The Environmental Protection Agency (EPA) is reconsidering a prior action that withdrew a waiver of

preemption for California's zero emission vehicle (ZEV) mandate and greenhouse gas (GHG) emission standards within California's Advanced Clean Car (ACC) program for purposes of rescinding that action. The ACC program waiver, as it pertains to the GHG emission standards and ZEV mandates, will become effective should EPA rescind the prior action. On September 27, 2019, EPA and the National Highway Transportation Safety Administration (NHTSA) issued an action titled "The Safer Affordable Fuel-Efficient Vehicles Rule Part One: One National Program" (SAFE 1) that included, among other matters, EPA's determination that the Agency had authority to reconsider the ACC program waiver and that elements of the ACC program waiver should be withdrawn due to NHTSA's action under the Energy Policy & Conservation Act (EPCA) and Clean Air Act (CAA) preemption provisions. In addition, SAFE 1 included EPA's interpretation of whether States can adopt California's GHG emission standards under section 177 of the CAA.

EPA believes that there are significant issues regarding whether SAFE 1 was a valid and appropriate exercise of agency authority, including the amount of time that had passed since EPA's 2013 waiver decision, the novel approach and legal interpretations used in SAFE 1, and whether EPA took proper account of the environmental conditions in California and the environmental consequences from the waiver withdrawal in SAFE 1. Further, EPA will be addressing issues raised in several petitions for reconsideration of SAFE 1, including one filed by California (jointly with a number of States and Cities) and one jointly filed by nongovernmental organizations. Finally, on January 20, 2021, President Biden issued an Executive Order on "Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis." The President directed the Federal Agencies to "immediately review" SAFE 1, and to consider action "suspending, revising, or rescinding" that action by April 2021. Therefore, based on the issues

associated with SAFE 1, the petitions for reconsideration, and the Executive Order, this **Federal Register** notice initiates reconsideration of SAFE 1 and announces a virtual public hearing as well as an opportunity to submit new written comment.

DATES:

Comments: Comments must be received on or before July 6, 2021.

Public Hearing: EPA will hold a virtual public hearing on June 2, 2021. Please refer to the **SUPPLEMENTARY INFORMATION** section for additional information on the public hearing.
