

(v) *60 points*: Preliminary creditworthiness assessment score. 33 U.S.C. 3907(a)(1); 40 CFR 35.10015(c); 40 CFR 35.10045(a)(1); 40 CFR 35.10045(a)(4); 40 CFR 35.10045(b).

In addition to the selection criteria score, EPA is required by 33 U.S.C. 3902(a) to “ensure a diversity of project types and geographical locations.”

Following analysis by the WIFIA program staff, a final score is calculated for each project. Projects will be selected in order of score, subject to the requirement to ensure a diversity of project types and geographical locations. To ensure diversity, EPA will establish a ceiling for each project type and geographical location. EPA will select projects in rank order up until the point that the ceiling is reached. Thereafter, the next highest project that adds diversity will be selected.

The scoring scales and guidance used to evaluate each project against the selection criteria are available in the WIFIA program handbook. Prospective borrowers considering WIFIA should review the WIFIA program handbook and discuss how the project addresses each of the selection criteria in the LOI submission.

Authority: 33 U.S.C. 3901–3914; 40 CFR part 35.

Michael S. Regan,
Administrator.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 35

[FRL 10022–78–OW]

Notification of Funding for Credit Assistance Under the State Infrastructure Finance Authority Water Infrastructure Finance and Innovation Act (SWIFIA) Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification of funding availability (NOFA).

SUMMARY: In the Consolidated Appropriations Act, 2021, signed by the President on December 27, 2020, Congress provided \$5 million in budget authority solely for the cost of direct loans or guaranteed loans to state infrastructure financing authority borrowers for projects described in the Water Infrastructure Finance and Innovation Act of 2014 (WIFIA). The state infrastructure financing authority WIFIA (SWIFIA) program will use this

amount to cover the subsidy required to provide a much larger amount of credit assistance. Environmental Protection Agency (EPA or Agency) estimates that this budget authority may provide approximately \$1 billion in credit assistance and may finance approximately \$2 billion in water infrastructure investment. The purpose of this NOFA is to solicit letters of interest (LOIs) from prospective state infrastructure financing authority borrowers seeking credit assistance from EPA under the SWIFIA program. EPA will evaluate and select proposed projects described in the LOIs using the selection criteria established in the statute, and further described in this NOFA as well as the WIFIA program handbook. This NOFA explains budgetary scoring factors to determine budgetary scoring compliance and outlines the process that prospective borrowers should follow to be considered for SWIFIA credit assistance. In addition, EPA reserves the right to make additional awards under this announcement, consistent with Agency policy and guidance, if additional funding is available after the original selections are made.

DATES: The LOI submittal period will begin on April 30, 2021, and end at 11:59 p.m. EDT on June 25, 2021.

ADDRESSES: Prospective borrowers should submit all LOIs electronically via email at: wifia@epa.gov or via EPA’s SharePoint site. To be granted access to the SharePoint site, prospective borrowers should contact wifia@epa.gov and request a link to the SharePoint site, where they can securely upload their LOIs. Requests to upload documents should be made no later than 5 p.m. EDT on June 21, 2021.

EPA will notify prospective borrowers that their LOI has been received via a confirmation email.

Prospective borrowers can access additional information, including the WIFIA program handbook and application materials, on the WIFIA website: <https://www.epa.gov/wifia>.

SUPPLEMENTARY INFORMATION: For a project to be considered during a selection round, EPA must receive an LOI, via email or SharePoint, before the corresponding deadline listed above. EPA is only able to accept emails of 25 MB or smaller with unzipped attachments (EPA cannot accept zipped files). If necessary due to size restrictions, prospective borrowers may submit attachments separately, as long as they are received by the deadline.

When writing an LOI, prospective borrowers should complete the SWIFIA LOI form and follow the guidelines

contained on the WIFIA program website: <https://www.epa.gov/wifia/wifia-application-materials>. Prospective borrowers should provide the LOI and any attachments as Microsoft Word documents or searchable PDF files, whenever possible, to facilitate EPA’s review. Section VI of this NOFA provides additional details on the LOI’s content.

EPA will invite each prospective borrower whose project proposal is selected for continuation in the process to submit a final application. Final applications should be received by EPA within 365 days of the invitation to apply.

EPA will host a webinar to provide state infrastructure finance authority prospective borrowers further information about the SWIFIA loans and how to submit an LOI. The webinar date and registration directions can be found on the WIFIA program website: <https://www.epa.gov/wifia/wifia-webinars>.

Prospective borrowers with questions about the program or interest in meeting with the WIFIA program staff may send a request to wifia@epa.gov. EPA will meet with all prospective borrowers interested in discussing the program prior to submission of an LOI.

I. Background

Congress enacted WIFIA as part of the Water Resources Reform and Development Act of 2014 (WRRDA). Codified at 33 U.S.C. 3901–3914, WIFIA authorizes a federal credit program for water infrastructure projects to be administered by EPA. WIFIA authorizes EPA to provide federal credit assistance in the form of secured (direct) loans or loan guarantees for eligible water infrastructure projects.

Congress amended WIFIA in America’s Water Infrastructure Act of 2018 (AWIA) to authorize federal credit assistance exclusively for state infrastructure financing authority borrowers.

The WIFIA program’s mission is to accelerate investment in our nation’s water infrastructure by providing long-term, low-cost, supplemental credit assistance under customized terms to creditworthy water infrastructure

projects of national and regional significance.

II. Program Funding

Congress appropriated \$5 million in funding to cover the subsidy cost of providing SWIFIA credit assistance. The subsidy cost covers the federal government's risk that the loan may not be paid back. EPA anticipates that the average subsidy cost for SWIFIA-funded projects will be relatively low; therefore, this funding can be leveraged into a much larger amount of credit assistance. EPA estimates that this appropriation will allow the Agency to provide approximately \$1 billion¹ in long-term, low-cost financing to water infrastructure projects and accelerate approximately \$2 billion in infrastructure investment around the country.

III. Program Priorities

This year, EPA identified the following priorities to address the water sector's most pressing public health and environmental challenges:

(i) *Protection against extreme weather events*: As extreme weather events become increasingly common and continue to damage critical infrastructure that provide water and wastewater services to communities across the nation, EPA is prioritizing financing for projects that protect the nation's water from the impacts of climate change.

(ii) *Repair, rehabilitate, and replace aging infrastructure and conveyance systems*: Many communities face formidable challenges in providing adequate and reliable water and wastewater services. Existing water and wastewater infrastructure is aging, and investment is not always keeping up with the needs. EPA is prioritizing projects that will help meet these needs for the nation's aging infrastructure.

(iii) *Economically stressed communities*: To support EPA's goal of considering equity in various aspects of our work, EPA is committed to increasing access to financing for water and wastewater infrastructure projects for communities experiencing economic hardship. EPA is prioritizing projects that support improved water infrastructure in economically stressed communities.

(iv) *Lead and emerging contaminants*: EPA is working to strengthen its

implementation of the Safe Drinking Water Act to ensure we protect and build upon the enormous public health benefits achieved through the provision of safe drinking water throughout the country. EPA will give greater consideration to projects that reduce exposure to lead and address emerging contaminants including per- and polyfluoroalkyl substances (PFAS).

(v) *New or innovative approaches*: To promote the incorporation of new and innovative approaches into projects, EPA is prioritizing projects that incorporate innovative approaches such as but not limited to the following: Cybersecurity; the use of energy efficient parts and systems; the use of renewable or alternative sources of energy; green infrastructure; and the development of alternative sources of drinking water through, for example, desalination, aquifer recharge or water recycling, and resource recovery.

IV. Eligibility Requirements

The WIFIA statute and implementing rules set forth eligibility requirements for prospective borrowers, projects, and project costs. The requirements outlined below are described in greater detail in the WIFIA program handbook.

A. Eligible Applicants

Prospective borrowers must be a state infrastructure financing authority to be eligible for SWIFIA credit assistance. EPA defines state infrastructure financing authority as the state entity established or designated by the Governor of a state to receive a capitalization grant provided by, or otherwise carry out the requirements of, title VI of the Federal Water Pollution Control Act (33 U.S.C. 1381 et. seq.) or section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j–12).

B. Eligible Projects

To be eligible for SWIFIA credit assistance, the SWIFIA project must be a combination of projects, each of which is eligible for assistance under section 603(c) of the Federal Water Pollution Control Act (33 U.S.C. 1383(c)) or section 1452(a)(2) of the Safe Drinking Water Act (42 U.S.C. 300j–12(a)(2)), for which a state infrastructure financing authority submits to the Administrator a single application.

C. Eligible Costs

As defined under 33 U.S.C. 3906 and described in the WIFIA program handbook, eligible project costs are costs associated with the following activities:

(i) Development-phase activities, including planning, feasibility analysis

(including any related analysis necessary to carry out an eligible project), revenue forecasting, environmental review, permitting, preliminary engineering and design work, and other preconstruction activities;

(ii) Construction, reconstruction, rehabilitation, and replacement activities;

(iii) The acquisition of real property or an interest in real property (including water rights, land relating to the project, and improvements to land), environmental mitigation (including acquisitions pursuant to 33 U.S.C. 3905(8)), construction contingencies, and acquisition of equipment; and

(iv) Capitalized interest necessary to meet market requirements, reasonably required reserve funds, capital issuance expenses, and other carrying costs during construction. Capitalized interest on WIFIA credit assistance may not be included as an eligible project cost.

D. Threshold Requirements

For a project to be considered for SWIFIA credit assistance, a SWIFIA project must meet the following four criteria:

(i) The project and obligor shall be creditworthy;

(ii) A project shall have eligible project costs that are reasonably anticipated to equal or exceed \$20 million;

(iii) Project financing shall be repayable, in whole or in part, from state or local taxes, user fees, or other dedicated revenue sources that also secure the senior project obligations of the project; shall include a rate covenant, coverage requirement, or similar security feature supporting the project obligations; and may have a lien on revenues subject to any lien securing project obligations;

(iv) The project shall have an operations and maintenance plan that identifies adequate revenues to operate, maintain, and repair the project during its useful life.

E. Federal Requirements

All projects receiving SWIFIA assistance must comply, if applicable, with federal requirements and regulations, including (but not limited to):

(i) American Iron and Steel Requirement, 33 U.S.C. 3914, <https://www.epa.gov/cwsrf/state-revolving-fund-american-iron-and-steel-ais-requirement>;

(ii) Labor Standards, 33 U.S.C. 1372, <https://www.dol.gov/whd/govcontracts/dbra.htm>;

¹ This estimated loan volume is provided for reference only. Consistent with the Federal Credit Reform Act of 1990 and the requirements of the Office of Management and Budget, the actual subsidy cost of providing credit assistance is based on individual project characteristics and calculated on a project-by-project basis. Thus, actual lending capacity may vary.

(iii) National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*, <https://www.epa.gov/nepa>;

(iv) Floodplain Management, Executive Order 11988, 42 FR 26951, May 24, 1977, <https://www.archives.gov/federal-register/codification/executive-order/11988.html>;

(xxviii) Section 504 of the Rehabilitation Act, 29 U.S.C. 794, supplemented by Executive Orders 11914, 41 FR 17871, April 29, 1976 and 11250, 30 FR 13003, October 13, 1965, <https://www.epa.gov/ocr/external-civil-rights-compliance-office-title-vi>;

(xxix) Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d *et seq.*, <https://www.epa.gov/environmentaljustice/title-vi-and-environmental-justice>; and

(xxx) Participation by Disadvantaged Business Enterprises in Procurement under the Environmental Protection Agency Financial Assistance Agreements, 73 FR 15904, March 26, 2008, <https://www.epa.gov/resources-small-businesses>.

Detailed information about some of these requirements is outlined in the WIFIA program handbook. Further information can be found at the links above.

V. Fiscal Year 2021 Office of Management and Budget Budgetary Scoring Determination

To comply with Public Law 116–260, a project selected for WIFIA financing using funding appropriated in FY 2021 will be assessed using two initial screening questions and sixteen scoring factors. These questions will help the Office of Management and Budget (OMB) determine compliance with budgetary scoring rules, a process that will be conducted in parallel to EPA’s LOI evaluation process outlined in this NOFA. The questions may be found in the **Federal Register** publication: Water Infrastructure Finance and Innovation Act Program (WIFIA) Criteria Pursuant to Public Law 116–94 [85 FR 39189, June 30, 2020]. These questions are also published in the WIFIA program handbook and further information about the scoring process may be referenced therein. EPA encourages project applicants to review the scoring criteria and provide sufficient information in the LOI or as an attachment to the LOI to facilitate EPA and OMB review of the prospective project considering the scoring criteria. EPA may contact prospective borrowers after the LOI is submitted if clarification is needed to answer the budgetary scoring determination questions.

VI. Types of Credit Assistance

Under SWIFIA, EPA is offering senior, parity loans to help state infrastructure finance authorities lend to multiple projects throughout the state. The maximum amount of SWIFIA credit assistance to a state infrastructure financing authority is 49 percent of estimated eligible total costs of the State Revolving Funds (SRF) loans that are included in the SWIFIA project. Prospective SWIFIA borrowers may request one the following loan structures:

(i) EPA accepts the state infrastructure financing authority’s existing indenture; or

(ii) The state infrastructure financing authority accepts EPA’s standard terms. More information on EPA’s standard terms is available at www.epa.gov/wifia.

SWIFIA credit assistance is available for SRF projects which are ready to proceed. For construction projects, EPA considers an SRF project ready to proceed if its construction will commence no later than 24 months after the LOI deadline. For planning and design projects, the requirement for construction to commence no later than 24 months after the LOI deadline is not applicable.

VII. Letters of Interest and Applications

Each prospective borrower will be required to submit an LOI and, if invited, an application to EPA to be considered for approval. This section describes the LOI submission and application submission.

A. Letter of Interest (LOI)

Prospective borrowers seeking a SWIFIA loan must submit an LOI describing the project fundamentals and addressing the SWIFIA selection criteria.

The primary purpose of the LOI is to provide adequate information to EPA to validate the eligibility and creditworthiness of the prospective borrower and the prospective project and determine the extent to which the SWIFIA project meets the statutory selection criteria. Based on its review of the information provided in the LOI, EPA will invite prospective borrowers to submit applications for their projects.

Prospective borrowers are encouraged to utilize the LOI form on the WIFIA website and ensure that sufficient detail about the project is provided for EPA's review. EPA will notify a prospective borrower if its project is deemed ineligible as described in Section III of this NOFA.

Below is guidance on what EPA recommends be included in the LOI.

A. Loan Information: The prospective borrower provides information about its legal name, business address, program website, employer/taxpayer identification number, Dun and Bradstreet Data Universal Number System number, requested SWIFIA loan amount and SWIFIA project amount, type of SRF loans (clean water, drinking water, or both), and requested loan structure.

B. Supporting Documents: The prospective borrower provides the most recent version of the following documents: Intended Use Plan (IUP), SRF Operating Agreements with EPA Regional Office, documentation of the priority setting system, and bond indenture (if applicable).

C. Contact Information: The prospective borrower identifies the points of contact with whom the WIFIA program should communicate regarding the LOI. To complete EPA's evaluation, the WIFIA program staff may contact a prospective borrower regarding specific information in the LOI.

D. Certifications: The prospective borrower certifies that it will abide by all applicable laws and regulations, if selected to receive funding.

B. Application

After EPA concludes its evaluation of the LOIs, a selection committee will invite prospective borrowers to apply. EPA expects that all eligible state infrastructure financing authority prospective borrowers will be invited to apply for a SWIFIA loan. If the amount requested by prospective borrowers exceeds the amount available from EPA, each eligible state infrastructure financing authority prospective borrowers will be invited for a pro rata share, based on the financing request outlined in their LOIs. If a prospective borrower declines EPA's invitation, EPA would re-allocate to other eligible prospective borrowers to the extent practicable or carry the funding forward to a future round.

An invitation to apply for WIFIA credit assistance does not guarantee EPA's approval, which remains subject to a project's continued eligibility, including creditworthiness, the successful negotiation of terms acceptable to the Agency, and the availability of funds at the time at which all necessary recommendations and evaluations have been completed. However, the purpose of EPA's LOI review is to pre-screen prospective borrowers to the extent practicable. It is expected that EPA will only invite prospective borrowers to apply if it anticipates that those prospective borrowers are able to obtain WIFIA credit assistance. Detailed information needs for the application are listed in the application form and described in the WIFIA program handbook.

VIII. Fees

There is no fee to submit an LOI. For information about application and post-closing costs, please refer to the WIFIA fee rule, Fees for Water Infrastructure Project Applications under WIFIA, 40 CFR 35.10080.

IX. Selection Criteria

This section specifies the criteria and process that EPA will use to evaluate LOIs and award applications for SWIFIA assistance.

The selection criteria described are the statutory selection criteria for state infrastructure finance authority borrowers. For SWIFIA loans, EPA has identified readiness to proceed as a priority for this LOI submittal period. To ensure the efficient use of limited federal resources for infrastructure finance, the readiness of the SRF loans included in the SWIFIA project to proceed toward development, including loan closing and the commencement of construction, is an Agency priority.

Following its eligibility determination, EPA will determine the extent to which the SWIFIA project meets the statutory selection criteria. They are as follows:

(i) The extent to which the project financing plan includes public or private financing in addition to assistance under [WIFIA]. 33 U.S.C. 3907(b)(2)(B); 40 CFR 35.10055(a)(10).

(ii) The likelihood that assistance under [WIFIA] would enable the project to proceed at an earlier date than the project would otherwise be able to proceed. 33 U.S.C. 3907(b)(2)(C); 40 CFR 35.10055(a)(2).

(iii) The extent to which the project uses new or innovative approaches. 33 U.S.C. 3907(b)(2)(D); 40 CFR 35.10055(a)(3).

(iv) The amount of budget authority required to fund the Federal credit instrument made available under [WIFIA]. 33 U.S.C. 3907(b)(2)(E).

(v) The extent to which the project (1) protects against extreme weather events, such as floods or hurricanes; or (2) helps maintain or protect the environment. 33 U.S.C. 3907(b)(2)(F); 40 CFR 35.10055(a)(4); 40 CFR 35.10055(a)(5).

(vi) The extent to which the project serves regions with significant energy exploration, development, or production areas. 33 U.S.C. 3907(b)(2)(G); 40 CFR 35.10055(a)(6).

(vii) The extent to which a project serves regions with significant water resource challenges, including the need to address: (1) Water quality concerns in areas of regional, national, or international significance; (2) water quantity concerns related to groundwater, surface water, or other water sources; (3) significant flood risk; (4) water resource challenges identified in existing regional, state, or multistate agreements; or (5) water resources with exceptional recreational value or ecological importance. 33 U.S.C. 3907(b)(2)(H); 40 CFR 35.10055(a)(7).

(viii) The extent to which the project addresses identified municipal, state, or regional priorities. 33 U.S.C. 3907(b)(2)(I); 40 CFR 35.10055(a)(8).

(ix) The readiness of the project to proceed toward development, including a demonstration by the obligor that there is a reasonable expectation that the contracting process for construction of the project can commence by not later than 90 days after the date on which a federal credit instrument is obligated for the project under [WIFIA]. 33 U.S.C. 3907(b)(2)(J); 40 CFR 35.10055(a)(9).

(x) The extent to which assistance under [WIFIA] reduces the contribution of Federal assistance to the project. 33 U.S.C. 3907(b)(2)(K); 40 CFR 35.10055(a)(11).

Authority: 33 U.S.C. 3901–3914; 40 CFR part 35.

Michael S. Regan,
Administrator.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MB Docket Nos. 19–311, 13–249; FCC 20–154; FRS 22220]

All-Digital AM Broadcasting, Revitalization of the AM Radio Service

AGENCY: Federal Communications Commission.

ACTION: Final rule; announcement of effective date.

SUMMARY: In this document, the Commission announces that the Office of Management and Budget has approved a revision to the information collection requirements under OMB Control Number 3060–1034 associated with new or amended rules adopted in the Federal Communications Commission’s *All-Digital AM Broadcasting Report and Order*, FCC 20–154, governing the contents of all-digital notifications submitted using the Digital Notification Form, FCC Form 335–AM, and that compliance with these rules is now required. This document is consistent with the *All-Digital AM Broadcasting Report and Order*, which states that the Commission will publish a document in the **Federal Register** announcing the effective date for these new or amended rule sections and revise the rules accordingly.

DATES: The addition of 47 CFR 73.406, published at 85 FR 78022 on December 3, 2020, is effective April 29, 2021.

FOR FURTHER INFORMATION CONTACT: Cathy Williams, Office of the Managing Director, Federal Communications Commission, at (202) 418–2918 or Cathy.Williams@fcc.gov.

SUPPLEMENTARY INFORMATION: This document announces that the Office of Management and Budget (OMB) approved the information collection requirements in 47 CFR 73.406 on April 14, 2021. This rule section was adopted in the *All-Digital AM Broadcasting Report and Order*, FCC 20–154 (85 FR 78022, December 3, 2020). The Commission publishes this document as an announcement of the effective date for these new or amended rules. If you have any comments on the burden

estimates listed below, or how the Commission can improve the collections and reduce any burdens caused thereby, please contact Cathy Williams, Federal Communications Commission, Room 3.317, 45 L Street NE, Washington, DC 20554, regarding OMB Control Number 3060–1034. Please include the OMB Control Number in your correspondence. The Commission will also accept your comments via email at PRA@fcc.gov. To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an email to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at (202) 418–0530 (voice), (202) 418–0432 (TTY).

Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the Commission is notifying the public that it received final OMB approval on April 14, 2021, for the information collection requirements contained in 47 CFR 73.406. Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number for the information collection requirements in 47 CFR 73.406 is 3060–1034.

The foregoing notice is required by the Paperwork Reduction Act of 1995, Public Law 104–13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060–1034.

OMB Approval Date: April 14, 2021.

OMB Expiration Date: April 30, 2024.

Title: Digital Audio Broadcasting Systems and their Impact on the Terrestrial Radio Broadcast Service; Digital Notification, FCC Form 335.

Form Number: FCC Form 335–AM.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 270 respondents; 270 responses.

Estimated Time per Response: 1 hour–8 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in Sections 154(i), 303, 310,

and 553 of the Communications Act of 1934, as amended.

Total Annual Burden: 490 hours.

Total Annual Cost: \$197,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: On October 27, 2020, the Commission released the *All-Digital AM Broadcasting Report and Order*, FCC 20–154, MB Dockets 19–311, 13–249, where it adopted rules to allow AM radio stations, on a voluntary basis, to broadcast an all-digital signal using the HD radio in-band on-channel (IBOC) mode name MA3. This action benefits AM stations and their listeners by improving reception quality and listenable signal coverage in stations’ service areas and by advancing the Commission’s goal of improving the AM service, thereby helping to ensure the future of the service. AM broadcast station licensees are required to notify the Commission of a change to all-digital operations using Digital Notification Form, FCC Form 335–AM. Specifically pertaining to this Information Collection, in the *All-Digital AM Broadcasting Report and Order*, the Commission requires AM broadcast stations to electronically file a digital notification using the existing FCC Form 335–AM Digital Notification (or any successor notification form) to notify the Commission of the following changes: (1) The commencement of new all-digital operation; (2) an increase in nominal power of an all-digital AM station; or (3) a transition from core-only to enhanced operating mode. Although we direct broadcasters to use the current Form 335–AM for all-digital notifications, additional information is required for notification of AM all-digital operations specifically. Therefore, until the Form 335–AM is updated to display the new all-digital operation requirements, we direct filers to select “N/A” as appropriate within the form and submit an attachment containing the following information. These new all-digital AM notification requirements have been added to new § 73.406 of the Commission’s rules.

(a) The type of notification (all-digital notification, increase in nominal power, reduction in nominal power, transition from core-only to enhanced, transition from enhanced to core-only, reversion from all-digital to hybrid or analog operation);

(b) the date that new or modified all-digital operation will commence or has ceased;

(c) a certification that the all-digital operations will conform to the relevant
