SUPPLEMENTARY INFORMATION:

I. Abstract

The Quarterly Survey of Transactions in Selected Services and Intellectual Property with Foreign Persons (Form BE-125) is a survey that collects data from U.S. persons who engage in covered transactions in selected services or intellectual property with foreign persons. A U.S. person means any individual, branch, partnership, associated group, association, estate, trust, corporation, or other organization (whether or not organized under the laws of any State), resident in the United States or subject to the jurisdiction of the United States. A U.S. person must report if they had combined sales of covered services or intellectual property to foreign persons that exceeded \$6 million for the previous fiscal year, or are expected to exceed that amount during the current fiscal year, or if they had combined purchases of covered services or intellectual property from foreign persons that exceeded \$4 million for the previous fiscal year, or are expected to exceed that amount during the current fiscal year.

The data are needed to monitor U.S. trade in services, to analyze the impact of these cross-border services on the U.S. and foreign economies, to compile and improve the U.S. economic accounts, to support U.S. commercial policy on trade in services, to conduct trade promotion, and to improve the ability of U.S. businesses to identify and evaluate market opportunities. The data are used in estimating the trade in services component of the U.S. international transactions accounts

(ITAs) and national income and product accounts (NIPAs).

The Bureau of Economic Analysis (BEA) is proposing minor modifications to the existing transaction categories covered by the BE-125 survey and a change to the survey due date, beginning with reporting for first quarter 2022. The proposed modifications to the BE-125 survey would allow BEA to align its statistics more closely with international economic accounting guidelines and to increase the quality and usefulness of BEA's statistics on trade in services.

BEA proposes to eliminate the three transaction categories of other intellectual property. Rights to use other intellectual property (code 8.1), rights to reproduce and/or distribute other intellectual property (code 8.2), and outright sales or purchases of proprietary rights related to other intellectual property (code 8.3) would no longer be collected. BEA typically reclassifies transactions reported to BEA in these categories to research and development (R&D) services (transaction code 29.1, the provision of customized and non-customized R&D services; and, transaction code 29.2, other R&D services, including testing) and to other selected services (transaction code 42). With the elimination of the other intellectual property categories, respondents will be instructed to report transactions in these alternate categories.

BEA also proposes to change the due date of the survey to 30 days after the close of each quarter from 45 days for the three quarters that are not the final fiscal quarter of the year. For the final fiscal quarter of the year, reports would be due 45 days after the close of the quarter instead of 90 days. Shortening the reporting timeline will allow BEA to produce more accurate and complete trade in services statistics in preliminary estimates of the ITAs, which is critical information for policymakers' timely decisions on international trade policy. The earlier due date will allow BEA to use more reported data for preliminary statistics, improving the accuracy of both the aggregates and the country and service-type details, and reducing revisions in subsequent statistical releases. In addition, the proposed reporting deadlines are also consistent with the reporting deadlines of BEA's quarterly direct investment surveys.

BEA estimates there will be no change in the average number of burden hours per response, which is currently estimated to be 21 hours. While survey respondents will have to file earlier, the burden for the survey is unchanged

because the same information will be required on the survey as in the past. The language in the instructions and definitions will be reviewed and adjusted as necessary to clarify survey requirements.

II. Method of Collection

BEA contacts potential respondents by mail at the end of each quarter. Respondents would be required to file the completed BE-125 forms within 30 days after the end of each fiscal quarter that is not the final fiscal quarter of the year and within 45 days after the close of the final fiscal quarter of the year. Reports would be required from each U.S. person that had combined sales of covered services or intellectual property to foreign persons that exceeded \$6 million for the previous fiscal year, or are expected to exceed that amount during the current fiscal year, or that had combined purchases of covered services or intellectual property from foreign persons that exceeded \$4 million for the previous fiscal year, or that are expected to exceed that amount during the current fiscal year. Entities required to report will be contacted individually by BEA. Entities not contacted by BEA have no reporting responsibilities.

BEA offers its electronic filing option, the eFile system, for use in reporting on Form BE-125. For more information about eFile, go to www.bea.gov/efile. In addition, BEA posts all its survey forms and reporting instructions on its website, www.bea.gov/ssb. These may be downloaded, completed, printed, and submitted via fax or mail.

International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) has received requests to conduct administrative reviews of various antidumping duty (AD) and countervailing duty (CVD) orders and findings with March anniversary dates. In accordance with Commerce's regulations, we are initiating those administrative reviews.

DATES: Applicable May 5, 2021.

FOR FURTHER INFORMATION CONTACT:

Brenda E. Brown, AD/CVD Operations,

Customs Liaison Unit, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, telephone: (202) 482–4735.

SUPPLEMENTARY INFORMATION:

Background

Commerce has received timely requests, in accordance with 19 CFR 351.213(b), for administrative reviews of various AD and CVD orders and findings with March anniversary dates.

All deadlines for the submission of various types of information, certifications, or comments or actions by Commerce discussed below refer to the number of calendar days from the applicable starting time.

Notice of No Sales

If a producer or exporter named in this notice of initiation had no exports, sales, or entries during the period of review (POR), it must notify Commerce within 30 days of publication of this notice in the **Federal Register**. All submissions must be filed electronically at <https://access.trade.gov>, in accordance with 19 CFR 351.303.¹ Such submissions are subject to verification, in accordance with section 782(i) of the Tariff Act of 1930, as amended (the Act). Further, in accordance with 19 CFR 351.303(f)(1)(i), a copy must be served on every party on Commerce's service list.

Respondent Selection

In the event Commerce limits the number of respondents for individual examination for administrative reviews initiated pursuant to requests made for the orders identified below, Commerce intends to select respondents based on U.S. Customs and Border Protection (CBP) data for U.S. imports during the POR. We intend to place the CBP data on the record within five days of publication of the initiation notice and to make our decision regarding respondent selection within 35 days of publication of the initiation **Federal Register** notice. Comments regarding the CBP data and respondent selection should be submitted within seven days after the placement of the CBP data on the record of this review. Parties wishing to submit rebuttal comments should submit those comments within five days after the deadline for the initial comments.

In the event Commerce decides it is necessary to limit individual

examination of respondents and conduct respondent selection under section 777A(c)(2) of the Act, the following guidelines regarding collapsing of companies for purposes of respondent selection will apply. In general, Commerce has found that determinations concerning whether particular companies should be “collapsed” (e.g., treated as a single entity for purposes of calculating antidumping duty rates) require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, Commerce will not conduct collapsing analyses at the respondent selection phase of this review and will not collapse companies at the respondent selection phase unless there has been a determination to collapse certain companies in a previous segment of this AD proceeding (e.g., investigation, administrative review, new shipper review, or changed circumstances review). For any company subject to this review, if Commerce determined, or continued to treat, that company as collapsed with others, Commerce will assume that such companies continue to operate in the same manner and will collapse them for respondent selection purposes. Otherwise, Commerce will not collapse companies for purposes of respondent selection. Parties are requested to (a) identify which companies subject to review previously were collapsed, and (b) provide a citation to the proceeding in which they were collapsed. Further, if companies are requested to complete the Quantity and Value (Q&V) Questionnaire for purposes of respondent selection, in general, each company must report volume and value data separately for itself. Parties should not include data for any other party, even if they believe they should be treated as a single entity with that other party. If a company was collapsed with another company or companies in the most recently completed segment of this proceeding where Commerce considered collapsing that entity, complete Q&V data for that collapsed entity must be submitted.

Deadline for Withdrawal of Request for Administrative Review

Pursuant to 19 CFR 351.213(d)(1), a party that has requested a review may withdraw that request within 90 days of the date of publication of the notice of initiation of the requested review. The regulation provides that Commerce may extend this time if it is reasonable to do so. Determinations by Commerce to extend the 90-day deadline will be made on a case-by-case basis.
