SUPPLEMENTARY INFORMATION:

Description: The ExCELS Descriptive Study is a new information collection to learn about what leadership looks like in center-based early care and education settings serving children whose ages range from birth to age 5, but not yet in kindergarten, and better understand how leadership might improve center quality and outcomes for staff, children, and families. The goals of ExCELS are to (1) develop a short-form measure of early care and education leadership that has strong psychometric properties, and (2) examine empirical support for the associations among key constructs and outcomes in the study’s theory of change of early care and education leadership for quality improvement. The study will recruit 120 centers that receive funding from Head Start or the Child Care and Development Fund, ask the primary site leader at the centers to participate in two interviews, and distribute surveys to select center managers and all teaching staff to test hypothesized associations between leadership constructs and outcomes in the study’s theory of change.

Respondents: Management and teaching staff from center-based early care and education settings that receive funding from Head Start or the Child Care and Development Fund.

Proposed Information Collection Activity; Child and Family Services Reviews

AGENCY: Children’s Bureau, Administration on Children, Youth and Families, Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: The Administration for Children and Families (ACF) is requesting reinstatement of the activities associated with the *Child and Family Services Reviews* (CFSR) collection (OMB #0970–0214). Revisions have been made to the forms to clarify instructions and incorporate new guidance. The activities associated with the Title IV–E Foster Care Eligibility

Reviews and Anti-Discrimination Enforcement Corrective Action Plans have been removed from this collection.

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: Copies of the proposed collection of information can be obtained and comments may be forwarded by emailing *infocollection@acf.hhs.gov*. Alternatively, copies can also be obtained by writing to the Administration for Children and Families, Office of Planning, Research, and Evaluation (OPRE), 330 C Street SW, Washington, DC 20201, Attn: ACF Reports Clearance Officer. All requests, emailed or written, should be identified by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The following activities are associated with the CFSR collection: CFSR Statewide Assessment, CFSR On-site Review, and the CFSR Program Improvement Plan. The collection of information for review of state child and family services programs (45 CFR 1355.33(b), 1355.33(c) and 1355.35(a)) is to determine whether such programs are in substantial conformity with state plan requirements under titles IV–B and IV–

E of the Social Security Act (the Act) and is authorized by section 1123(a) [42 U.S.C. 1320a–2a] of the Act. The CFSR looks at the outcomes related to safety, permanency, and well-being of children served by the child welfare system and at seven systemic factors that support the outcomes. The information collection is needed to monitor state plan requirements under titles IV–B and IV–E of the Act and is required by federal statute. The resultant information will allow ACF to determine if states are in compliance with state plan requirements and are achieving desired outcomes for children and families. If necessary, ACF will require states revise applicable statutes, rules, policies and procedures, and provide proper training to staff, through the development and implementation of program improvement plans. The CFSR reviews not only address conformity with state plan requirements but also assist states in enhancing the capacities to serve children and families. In computing the number of burden hours for this information collection, ACF based the annual burden estimates on ACF’s and states’ experiences in conducting reviews and developing program improvement plans.

Respondents: State Title IV–E Agencies.
