SUMMARY: As a result of these expedited sunset reviews, the Department of Commerce (Commerce) finds that revocation of the antidumping duty (AD) orders on certain magnesia carbon bricks (MCBs) from Mexico and the People’s Republic of China (China) would be likely to lead to the continuation or recurrence of dumping at the levels indicated in the “Final Results of Review” section of this notice.

DATES: Applicable May 10, 2021.

SUPPLEMENTARY INFORMATION:**Background**

On September 20, 2010, Commerce published the AD orders on MCBs from China and Mexico.¹ On January 4, 2021, Commerce published the notice of initiation of the second sunset reviews of the *AD Orders*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² In January 2021, Commerce received notices of intent to participate within the 15-day deadline specified in 19 CFR 351.218(d)(1)(i) from the Magnesia Carbon Bricks Fair Trade Committee (the Committee), an association comprised of three U.S. producers of MCBs: Resco Products, Inc.; Magnesita Refractories Company; and HarbisonWalker International, Inc.³ The Committee claimed interested party status under section 771(9)(E) of the Act, as each member of the Committee

is a manufacturer of the domestic like product.

On February 2, 2021, Commerce received adequate substantive responses to the notice of initiation from the Committee within the 30-day deadline specified in 19 CFR 351.218(d)(3).⁴ We received no substantive response from respondent interested parties with respect to either of the orders covered by these sunset reviews.

On February 22, 2021, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties.⁵ As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce conducted expedited (120-day) sunset reviews of the *AD Orders*.

Scope of the Orders

The scope of these orders includes certain chemically-bonded (resin or pitch), magnesia carbon bricks with a magnesia component of at least 70 percent magnesia (MgO) by weight, regardless of the source of raw materials for the MgO, with carbon levels ranging from trace amounts to 30 percent by weight, regardless of enhancements (for example, magnesia carbon bricks can be enhanced with coating, grinding, tar impregnation or coking, high temperature heat treatments, anti-slip treatments or metal casing) and regardless of whether or not antioxidants are present (for example, antioxidants can be added to the mix from trace amounts to 15 percent by weight as various metals, metal alloys, and metal carbides).

Certain magnesia carbon bricks that are the subject of these orders are currently classifiable under subheadings 6902.10.1000, 6902.10.5000, 6815.91.0000, 6815.99.2000 and 6815.99.4000 of the Harmonized Tariff Schedule of the United States (HTSUS). While HTSUS subheadings are provided for convenience and customs purposes, the written description is dispositive.

Analysis of Comments Received

All issues raised in these sunset reviews are addressed in the Issues and Decision Memorandum.⁶ The issues

discussed in the Issues and Decision Memorandum are the likelihood of continuation or recurrence of dumping and the magnitude of the dumping margin likely to prevail if the orders were revoked. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>. A list of topics discussed in the Issues and Decision Memorandum is included as an appendix to this notice. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at <http://enforcement.trade.gov/frn>.

Final Results of Reviews

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, Commerce determines that revocation of the *AD Orders* would be likely to lead to the continuation or recurrence of dumping at weighted-average dumping margins up to 236 percent for China and up to 57.90 percent for Mexico.

Administrative Protective Order (APO)

This notice also serves as the only reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective orders is hereby requested. Background

On September 21, 2010, Commerce published its CVD order on bricks from

China in the **Federal Register**.¹ On January 4, 2021, Commerce published the notice of initiation of the second sunset review of the *Order*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² Commerce received a notice of intent to participate from Magnesia Carbon Bricks Fair Trade Committee (the Committee), an *ad hoc* association of U.S. producers of magnesia carbon bricks, within the deadline specified in 19 CFR 351.218(d)(1)(i).³ The Committee claimed interested party status under section 771(9)(E) of the Act, as a trade or business association a majority of whose members manufacture, produce, or wholesale a domestic like product in the United States and stated that each member of the Committee is a manufacturer of the domestic like product and thus, are domestic interested parties pursuant to section 771(9)(C) of the Act.⁴

Commerce received a substantive response from the Committee⁵ within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). We received no substantive response from any other domestic or interested parties in this proceeding, nor was a hearing requested.

On February 22, 2021, Commerce notified the U.S. International Trade Commission (ITC) that it did not receive an adequate substantive response from respondent interested parties.⁶ As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce conducted an expedited (120-day) sunset review of this *Order*.
