ENVIRONMENTAL PROTECTION AGENCY

[FRL-10023-79-OAR]

Availability of Data on Allocations of Cross-State Air Pollution Rule Allowances to Existing Electricity Generating Units

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of data availability.

SUMMARY: Under the Cross-State Air Pollution Rule (CSAPR) trading program regulations, EPA allocates emission allowances to existing electricity generating units as provided in a notice of data availability (NODA). In the Revised CSAPR Update promulgated earlier this year, EPA finalized default allocations of CSAPR NO_x Ozone Season Group 3 allowances to existing units in Illinois, Indiana, Kentucky, Louisiana, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, and West Virginia from the new state emissions budgets for the control periods in 2021 and subsequent years. In the same rule, EPA also finalized a formula for determining supplemental amounts of allowances to be issued for the 12 states for the 2021 control period and a methodology for allocating each state's supplemental allowances among the state's existing units. Through this NODA, EPA is providing notice of the availability of data on the allowance allocations to

existing units from both the state emissions budgets and the supplemental allowances, as well as the data upon which the allocations are based.

FOR FURTHER INFORMATION CONTACT: Questions concerning this notice should be addressed to Michael Cohen at (202) 343-9497 or cohen.michael@epa.gov.

SUPPLEMENTARY INFORMATION: In the Revised CSAPR Update, EPA established new emissions budgets for ozone season emissions of nitrogen oxides (NO_x) in 2021 and subsequent years for 12 eastern states and promulgated federal implementation plan (FIP) provisions requiring affected units in those states to participate in the CSAPR NO_x Ozone Season Group 3 Trading Program.¹ Beginning with the 2022 control period, each covered state generally has the option to determine how the CSAPR NO_x Ozone Season Group 3 allowances in its state emissions budget should be allocated among the state's units through a state implementation plan (SIP) revision.² However, for the 2021 control period, and by default for subsequent control periods for which a state has not provided EPA with the state's own allocations pursuant to an approved SIP revision, the unit-level allocations are determined by EPA. For units that commenced commercial operations before January 1, 2019, termed "existing" units for purposes of this trading program, EPA determined default allocations of CSAPR NO_x Ozone Season Group 3 allowances from the state emissions budgets for all control periods in the Revised CSAPR Update rulemaking. For units commencing commercial operation on or after January 1, 2019, termed "new" units for purposes of this trading program, EPA will determine the default allocations annually after each control period by applying a methodology in the regulations to data for that control period.³

To ensure that the enhanced control stringency of the Revised CSAPR Update's new state emissions budgets will apply only after the rule's effective date, for the control period in 2021 the rule provides for EPA to issue supplemental allowances for the covered states in amounts determined under a formula that accounts for the portion of the 2021 ozone season occurring before the rule's effective

date.⁴ Subsequent to the rulemaking, EPA has computed the amounts of supplemental allowances for each state according to the formula and has also determined the allocations of each state's supplemental allowances among the state's existing units. The rule does not provide for allocations of supplemental allowances to new units.

Through this NODA, EPA is providing notice of the availability of data on the unit-level allocations of CSAPR NO_x Ozone Season Group 3 allowances to existing units from both the state emissions budgets and each state's supplemental allowances. The allocations are shown in an Excel spreadsheet entitled "Updated Unit-Level Allocations and Underlying Data for the Revised CSAPR Update for the 2008 Ozone NAAQS" that has been posted on EPA's website at <https://www.epa.gov/csapr/revised-cross-state-air-pollution-rule-update>. The spreadsheet contains the default unit-level allocations of allowances from the state emissions budgets for each control period starting with 2021, the unit-level allocations of supplemental allowances for the 2021 control period, and the data used to compute the allocations. The spreadsheet is an update of an earlier version that was included in the docket for the final Revised CSAPR Update and that contained the same default allocations of allowances from the state emissions budgets but did not contain the allocations of supplemental allowances. All allocations have been determined according to the allocation methodology finalized in the Revised CSAPR Update rulemaking.⁵ EPA is not requesting comment on the allocations, the underlying data, or the allocation methodology.

In accordance with the deadlines set forth in the regulations, EPA will generally record allocations of CSAPR NO_x Ozone Season Group 3 allowances to existing units for the 2021 control period by July 29, 2021.⁶ EPA will also generally record allocations to existing units for the 2022 control period by that same date except in instances where a state has provided EPA with timely notice of the state's intent to submit a SIP revision with state-determined allowance allocations replacing EPA's default allocations for the 2022 control period.⁷ However, in the case of any source that has not yet fully complied with the Revised CSAPR Update's

⁶ See 40 CFR 97.1021(a).

⁷ See 40 CFR 97.1021(b).

requirements concerning the recall of CSAPR NO_x Ozone Season Group 2 allowances allocated for control periods after 2020, recordation of CSAPR NO_x Ozone Season Group 3 allowances will be deferred until the source has fully complied with the recall requirements.⁸

EPA notes that an allocation or lack of allocation of emission allowances to a given unit does not constitute a determination that CSAPR does or does not apply to the unit.⁹ EPA also notes that allocations are subject to potential termination or correction under the regulations.¹⁰

Authority: 40 CFR 97.1011(a)(1).

Reid Harvey,

Director, Clean Air Markets Division, Office of Atmospheric Programs, Office of Air and Radiation.

Announcing Upcoming Meeting of Mobile Sources Technical Review Subcommittee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Pursuant to the Federal Advisory Committee Act, EPA announces an upcoming meeting of the Mobile Sources Technical Review Subcommittee (MSTRS), which is a subcommittee under the Clean Air Act Advisory Committee (CAAAC). This is a virtual meeting and open to the public. The meeting will include discussion of current topics and presentations about activities being conducted by EPA's Office of Transportation and Air Quality. MSTRS listserv subscribers will receive notification when the agenda is available on the Subcommittee website. To subscribe to the MSTRS listserv, send an email to MSTRS@epa.gov.

DATES: EPA will hold a virtual public meeting on Tuesday, June 15, 2021 from 9:00 a.m. to 5:00 p.m. Eastern Daylight Time (EDT). Please monitor the website <https://www.epa.gov/caaac/mobile-sources-technical-review-subcommittee-mstrs-caaac> for any changes to meeting logistics. The final meeting agenda will be posted on the website.

⁸ See 40 CFR 97.1021(m); see also 40 CFR 97.811(d).

⁹ See 40 CFR 97.1011(a)(1).

¹⁰ See 40 CFR 97.1011(a)(2) and (c).

ADDRESSES: For information on the public meeting or to register to attend, please contact MSTRS@epa.gov.

FOR FURTHER INFORMATION CONTACT: Any member of the public who wishes to attend the meeting or provide comments should express this intent by emailing MSTRS@epa.gov no later than Tuesday, June 1, 2021. Further information concerning this public meeting and general information concerning the MSTRS can be found at: <https://www.epa.gov/caaac/mobile-sources-technical-review-subcommittee-mstrs-caaac>. Other MSTRS inquiries can be directed to Julia Burch, the Designated Federal Officer for MSTRS, Office of Transportation and Air Quality, at 202–564–0961 or burch.julia@epa.gov.

SUPPLEMENTARY INFORMATION: During the meeting, the Subcommittee may also hear progress reports from its workgroups as well as updates and announcements on Office of Transportation and Air Quality activities of general interest to attendees.

Participation in virtual public meetings. Please note that EPA is deviating from its typical approach because the President has declared a national emergency. Because of current CDC recommendations, as well as state and local orders for social distancing to limit the spread of COVID–19, EPA cannot hold in-person public meetings at this time.

The virtual public meeting will provide interested parties the opportunity to participate in this Federal Advisory Committee meeting.

EPA is asking all meeting attendees, even those who do not intend to speak, to register for the meeting by sending an email to the address listed in the **FOR FURTHER INFORMATION CONTACT** section above, by Tuesday, June 1, 2021. This will help EPA ensure that sufficient participation capacity will be available.

Please note that any updates made to any aspect of the meeting logistics, including potential additional sessions, will be posted online at <https://www.epa.gov/caaac/mobile-sources-technical-review-subcommittee-mstrs-caaac>. While EPA expects the meeting to go forward as set forth above, please monitor the website for any updates.

For individuals with disabilities: For information on access or services for individuals with disabilities, please email MSTRS@epa.gov. To request accommodate of a disability, please email MSTRS@epa.gov, preferably at least 10 business days prior to the

meeting, to give EPA as much time as possible to process your request.

Julia Burch,

Designated Federal Officer, Mobile Source Technical Review Subcommittee, Office of Transportation and Air Quality.

Administration of Cross-State Air Pollution Rule Trading Program Assurance Provisions for 2020 Control Periods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of data availability.

SUMMARY: The Environmental Protection Agency (EPA) is providing notice of the availability of data on the administration of the assurance provisions of the Cross-State Air Pollution Rule (CSAPR) trading programs for the control periods in 2020. Total emissions of nitrogen oxides (NO_x) reported by Mississippi and Missouri units participating in the CSAPR NO_x Ozone Season Group 2 Trading Program during the 2020 control period exceeded the respective states' assurance levels under the program. Data demonstrating the exceedances and EPA's preliminary calculations of the amounts of additional allowances that the owners and operators of certain Mississippi and Missouri units must surrender have been posted in a spreadsheet on EPA's website. EPA will consider timely objections to the data and calculations before making final determinations of the amounts of additional allowances that must be surrendered.

DATES: Objections to the information referenced in this notice must be received on or before June 16, 2021.

ADDRESSES: Submit your objections via email to CSAPR@epa.gov. Include "2020 CSAPR Assurance Provisions" in the email subject line and include your name, title, affiliation, address, phone number, and email address in the body of the email.

FOR FURTHER INFORMATION CONTACT: Questions concerning this action should be addressed to Garrett Powers at (202) 564–2300 or powers.jamesg@epa.gov.

SUPPLEMENTARY INFORMATION: The regulations for each CSAPR trading program contain "assurance provisions" designed to ensure that the emissions reductions required from each state
