

0.374 inch (9.5 mm) plywood painted black. The enclosure must consist of a front, a bottom, a back, and two sides. The front, back, and sides of the enclosure must be brought into the closest contact with the appliance that the configuration of the dishwasher will allow. The height of the rectangular test enclosure must be the height that provides the minimum clearances as specified in the manufacturer's operation manual. The dishwasher must be installed from the top and mounted to the edges of the enclosure.

In section 2.10, Detergent, add at the end of the section:

For compact in-sink dishwashers with a combination sink that have neither prewash program nor a main detergent compartment, determine the amount of main wash detergent (in grams) to be added directly into the washing chamber according to section 2.10.2 of this appendix.

(3) *Representations*. FOTILE may not make representations about the energy and water use of a basic model listed in paragraph (1) of this Order for compliance or marketing, unless the basic model has been tested in accordance with the provisions set forth above and such representations fairly disclose the results of such testing.

(4) This waiver shall remain in effect according to the provisions of 10 CFR 430.27.

(5) DOE issues this waiver on the condition that the statements, representations, test data, and information provided by FOTILE are valid. If FOTILE makes any modifications to the controls or configurations of these basic models, such modifications will render the waiver invalid with respect to that basic model, and FOTILE will either be required to use the current Federal test method or submit a new application for a test procedure waiver. DOE may rescind or modify this waiver at any time if it determines the factual basis underlying the petition for waiver is incorrect, or the results from the alternate test procedure are unrepresentative of a basic model's true energy consumption characteristics. 10 CFR 430.27(k)(1). Likewise, FOTILE may request that DOE rescind or modify the waiver if FOTILE discovers an error in the information provided to DOE as part of its petition, determines that the waiver is no longer needed, or for other appropriate reasons. 10 CFR 430.27(k)(2).

(6) FOTILE remains obligated to fulfill any applicable requirements set forth at 10 CFR part 429.
