

- December—The Census Bureau distributes the SCO emails. The SCO email contains information required by the SCO to participate in the program.

- March—The Census Bureau distributes discrepancy emails to local governments based on feedback from the SCO.

The state certification materials include a governor's letter, an email to the SCO, respondent guide, legal boundary change and government name and status listings, and discrepancy email to local governments. The listings and respondent guide are provided on the BAS website. The SCO returns all updates electronically through the SWIM file transfer module.

Boundary Quality

The Boundary Quality project is designed to assess, analyze, and improve the spatial quality of legal, statistical, and administrative boundaries within the Census Bureau's MAF/TIGER System. Ensuring quality boundaries is a critical component of the geographic preparations for each decennial census and the Census Bureau's ongoing geographic programs. In addition, the improvement of boundary quality is an essential element of the Census Bureau's commitment as the responsible agency for legal boundaries under OMB Circular A-16.

The Boundary Quality project represents an effort to systematically target and assess boundary quality within the Census Bureau's MAF/TIGER System. Historically, it has relied exclusively on geographic programs such as BAS and the Participant Statistical Areas Program (PSAP) to obtain updates to tribal, state, local government, and CDP boundaries. While programs like BAS play an essential role in improving boundary quality, the goal of boundary quality activities is to establish a more accurate baseline for legal boundaries and CDPs within an entire state or county. BAS would build on this baseline by collecting individual legal boundary changes and optionally associated addresses, and CDP updates, on a transaction basis as they occur over the years.

SUPPLEMENTARY INFORMATION:

The Petitions

On April 21, 2021, the Department of Commerce (Commerce) received antidumping duty (AD) petitions concerning imports of raw honey from Argentina, Brazil, India, Ukraine, and Vietnam filed in proper form on behalf of the American Honey Producers Association (AHPA) and the Sioux Honey Association (SHA) (collectively, the petitioners), which are trade associations representing domestic producers of raw honey.¹

¹ See Petitioners’ Letter, “Raw Honey from Argentina, Brazil, India, Ukraine and the Socialist

Between April 22 and May 4, 2021, Commerce requested supplemental information pertaining to certain aspects of the Petitions in separate supplemental questionnaires.² The petitioners filed responses to the supplemental questionnaires between April 26 and May 6, 2021.³

In accordance with section 732(b) of the Tariff Act of 1930, as amended (the Act), the petitioners allege that imports of raw honey from Argentina, Brazil, India, Ukraine, and Vietnam are being, or are likely to be, sold in the United States at less than fair value (LTFV) within the meaning of section 731 of the Act, and that imports of such products are materially injuring, or threatening material injury to, the raw honey industry in the United States. Consistent with section 732(b)(1) of the Act, the Petitions are accompanied by information reasonably available to the petitioners supporting their allegations.

Commerce finds that the petitioners filed the Petitions on behalf of the domestic industry, because the petitioners are interested parties, as defined in sections 771(9)(E) of the Act.

Commerce also finds that the petitioners demonstrated sufficient industry support for the initiation of the requested AD investigations.⁴

Comments on the Scope of the Investigations

On April 22, April 27, and May 4, 2021, Commerce requested information and clarification from the petitioners regarding the proposed scope to ensure that the scope language in the Petitions is an accurate reflection of the products for which the domestic industry is seeking relief.⁵ On April 23, April 26, and May 6, 2021, the petitioners responded to these requests and provided additional clarification and revisions to the scope.⁶ The description of merchandise covered by these investigations, as described in the appendix to this notice, reflects these clarifications.
