INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–666 and 731–TA–1558 (Preliminary)]

Walk-Behind Snow Throwers From China; Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of walk-behind snow throwers from China, provided for in subheading 8430.20.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (“LTFV”) and to be subsidized by the government of China.²

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission’s rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in § 207.21 of the Commission’s rules, upon notice from the U.S. Department of Commerce (“Commerce”) of affirmative preliminary determinations in the investigations under §§ 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under §§ 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right

to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On March 30, 2021, MTD Products Inc., Valley City, Ohio filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of subsidized imports of walk-behind snow throwers from China and LTFV imports of walk-behind snow throwers from China. Accordingly, effective March 30, 2021, the Commission instituted countervailing duty investigation No. 701–TA–666 and antidumping duty investigation No. 731–TA–1558 (Preliminary).

Notice of the institution of the Commission’s investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of April 6, 2021 (86 FR 17852). In light of the restrictions on access to the Commission building due to the COVID–19 pandemic, the Commission conducted its conference through written testimony and video conference on April 20, 2021. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to §§ 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on May 14, 2021. The views of the Commission are contained in USITC Publication 5197 (May 2021), entitled *Walk-Behind Snow Throwers from China: Investigation Nos. 701–TA–666 and 731–TA–1558 (Preliminary)*.

By order of the Commission.

Issued: May 14, 2021.

Secretary to the Commission.

Temporary Employment Certification, which is currently set to expire on October 31, 2021, and the renewal of the validity of all applicable forms, instructions, and electronic versions (OMB Control Number 1205–0534). DOL collects information through Form ETA–9142C, and appendices, and Form ETA–9141C, to carry out the responsibilities created for DOL under the Northern Mariana Islands U.S. Workforce Act of 2018 (Pub. L. 115–218) (The Workforce Act). DOL, in its continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program ensures the public provides all necessary data in the desired format, the reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The Workforce Act provides that a petition to employ a nonimmigrant worker under the CW–1 visa classification may not be approved by the U.S. Department of Homeland Security unless the employer has received a temporary labor certification from DOL confirming the following: (1) There are not sufficient U.S. workers in the Commonwealth of the Northern Mariana Islands (CNMI) who are able, willing, qualified, and available at the time and place needed to perform the services or labor involved in the petition; and (2) the employment of a nonimmigrant worker who is the subject of a petition will not adversely affect the wages and working conditions of similarly employed U.S. workers. 48 U.S.C. 1806(d)(2)(A).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection unless OMB, under the PRA, approves it and the collection tool displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be

summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB control number 1205–0534.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used. Specifically, during this renewal cycle, the Department is very interested in receiving public input with respect to the hourly burden associated with the administrative appeals of temporary employment certifications and prevailing wage determinations;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses).
