

place to comply with the Federal Funding Accountability and Transparency Act reporting requirements (see 2 CFR 170.200(b), unless you are exempt under 2 CFR 170.110(b)). These regulations may be obtained at <https://www.ecfr.gov/cgi-bin/ECFR?page=browse>.

The following additional requirements apply to grantees selected for this program:

(a) Execution of an Agency approved Grant Agreement.

(b) Acceptance of a written Letter of Conditions.

(c) Submission of Form RD 1940–1, “Request for Obligation of Funds.”

(d) RD Instruction 1940–Q, Exhibit A–1, “Certification for Contracts, Grants and Loans.”

(e) SF–LLL, “Disclosure of Lobbying Activities” if applicable.

3. Reporting

After grant approval and through grant completion, you will be required to provide the following:

a. A SF–425, “Federal Financial Report,” and a project performance report will be required on a semiannual basis (due 30 working days after end of the semiannual period). For the purposes of this grant, semiannual periods end on June 30th and December 31st. The project performance reports shall include a comparison of actual accomplishments to the objectives established for that period;

b. Reasons why established objectives were not met, if applicable;

c. Reasons for any problems, delays, or adverse conditions, if any, which have affected or will affect attainment of overall project objectives, prevent meeting time schedules or objectives, or preclude the attainment of particular objectives during established time periods. This disclosure shall be accompanied by a statement of the action taken or planned to resolve the situation; and

d. Objectives and timetable established for the next reporting period.

e. Provide a final project and financial status report within 90 days after the expiration or termination of the grant.

f. Provide outcome project performance reports and final deliverables.

G. Agency Contacts

For general questions about this announcement and for program Technical Assistance, please contact the appropriate State Office at <http://www.rd.usda.gov/contact-us/state-offices>. You may also contact Honie Turner, Program Management Division,

Direct Programs Branch, Rural Business-Cooperative Service, USDA at (202) 720–1400 or email CPgrants@usda.gov. You are also encouraged to visit the application website for application tools, including an application template. The website address is: <http://www.rd.usda.gov/programs-services/delta-health-care-services-grants>.

H. Other Information

Non-Discrimination Statement

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA’s TARGET Center at (202) 720–2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877–8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD–3027, found online at <https://www.usda.gov/oascr/how-to-file-a-program-discrimination-complaint> and at any USDA office or write a letter addressed to USDA and provide in the letter all the information requested in the form. To request a copy of the complaint form, call (866) 632–9992. Submit your completed form or letter to USDA by:

(1) *Mail*: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue SW, Washington, DC 20250–9410; and

(2) *Email*: OAC@usda.gov.

Mark Brodziski,

Acting Administrator, Rural Business-Cooperative Service.

BILLING CODE 3410–XY–P

DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; 2020 Public Use Microdata Areas Program

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. Public comments were previously requested via the **Federal Register** on July 6, 2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau.

Title: 2020 Public Use Microdata Areas Program.

OMB Control Number: 0607–XXXX.

Form Number(s): None.

Type of Request: Regular submission, New Information Collection Request.

Number of Respondents: 52.

Average Hours per Response: 40.

Burden Hours: 2,080.

Needs and Uses: Public Use Microdata Areas, or PUMAs, are non-overlapping, statistical geographic areas that partition each state or equivalent entity into geographic areas containing no fewer than 100,000 people each. They cover the entirety of the United States, Puerto Rico, Guam, and the U.S. Virgin Islands.¹ PUMAs are a higher level of geography than census tract, or even county in some instances, and provide all data users with another level of geography for data analysis.

The Census Bureau is the only federal agency to create PUMAs. Every ten

¹ States or equivalent entities with less than 200,000 persons are not eligible to participate because their populations do not meet the minimum threshold to delineate more than one PUMA.

years the Census Bureau offers State Data Centers the opportunity to delineate PUMAs for the tabulation and dissemination of decennial census and American Community Survey (ACS) Public Use Microdata Sample (PUMS) data as well as for the dissemination of period estimates from both the ACS and Puerto Rico Community Survey. PUMS data are valuable to state and local planning agencies/offices, as well as students, for use in long-range planning and research projects. PUMS data contain individual records of the characteristics for a sample of persons and households. They show a full range of population and housing unit responses collected on individual ACS questionnaires, for a subsample of ACS housing units and group quarters persons. Without PUMAs and PUMS data, the data community would not be able to create custom tables and statistics not available through pre-tabulated (or summary) data products.

The Census Bureau invites State Data Centers from each state, the District of Columbia, and Puerto Rico to delineate PUMAs, using the decennial census population counts and updated census tract geography as critical inputs to delineation. The Census Bureau asks State Data Centers to involve interested data users, such as those in tribal, state, and local (e.g., county, incorporated place, and town/township) governments, as well as regional planning agencies or organizations to ensure that the PUMAs meet the needs of a variety of data users. Collaboration between State Data Centers and other interested data users is especially important for areas with population exceeding 100,000. Though collaboration is encouraged, the State Data Centers are the official participants for this program and must coordinate the delineation suggestions from other interested data users. The Census Bureau accepts PUMA delineation proposals for the 2020 Public Use Microdata Areas (PUMA) program (e.g., the 2020 PUMA) only from each state's respective State Data Center.

The Geographic Update Partnership Software (GUPS) is a geographic information system developed by the Census Bureau and provided complimentary to State Data Centers and interested data users. It contains tools and options specifically designed to assist with the delineation of PUMAs, allows for the sharing of work performed by multiple participants to facilitate a collaborative effort, and prepares the delineated PUMAs properly for submission to the Census Bureau. The Census Bureau only

accepts submissions of PUMAs delineated and exported using GUPS.

There are three options for delineating PUMAs within GUPS. State Data Centers can choose to create them from scratch (e.g., Create a new blank PUMA layer), import them from a census tract equivalency file (e.g., Import a PUMA tabular equivalency file), or import them from a locally-generated PUMA shapefile (e.g., Import a PUMA shapefile). For added flexibility, participants can use more than one option to delineate PUMAs as they conduct their work. Each State Data Center works closely with the interested data users assisting with PUMA delineation to determine the best delineation method(s) for their state or specific situation. Once the State Data Centers complete the delineation process, they submit their PUMA delineations using the Secure Web Incoming Module (SWIM). SWIM is the only Census Bureau authorized submission method for the 2020 PUMA. The participant guide, which will be available for download from the 2020 PUMA website when the program begins in September 2021, includes instructions for using both GUPS and SWIM. Locate the 2020 PUMA website at: www.census.gov/programs-surveys/geography/guidance/geo-areas/pumas/2020pumas.html.

To prepare State Data Centers for their involvement in the 2020 PUMA, the Census Bureau provided an overview of the program during the State Data Center's annual meeting in October 2020. During that overview, the Census Bureau informed State Data Centers of their opportunity to review and provide comments on the proposed criteria and guidelines for PUMAs. The Census Bureau will respond to comments received on the proposed criteria prior to posting the final criteria and guidelines on the PUMA website for use during the program.

Following the October 2020 meeting, the Census Bureau emailed each of the State Data Centers to establish a primary and secondary point of contact for the 2020 PUMA, inquire about existing SWIM account(s), and gauge interest in GUPS user acceptance testing. These points of contact will receive the official program announcement email in September 2021, that will include instructions to download the 2020 PUMA materials from the PUMA website and begin delineation. After the program announcement email is distributed, the Census Bureau will communicate with the points of contact to confirm receipt of the email, answer any questions they may have, and ensure an awareness of the material

availability on the PUMA website. The Census Bureau will also reinforce the program's 90-day review timeframe and overall schedule.

Once the program is underway, the Census Bureau will conduct a minimum of two online trainings to support PUMA delineation and will provide technical support to participants throughout the duration of the program.

The Census Bureau will accept PUMA submissions from State Data Centers through January 2022. If questions arise regarding a submission during processing, the Census Bureau will confer with the points of contact to resolve them. The resulting, finalized PUMAs will be publicly available online to all data users at the conclusion of the Census Bureau's processing in the summer of 2022.

Affected Public: State Data Centers representing each state, the District of Columbia, and Puerto Rico.

Frequency: Once per decade, following the decennial census.

Respondent's Obligation: Voluntary.
Legal Authority: Title 13, U.S.C. Section 6.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering the title of the collection.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.
