

approved contracting requirement on competitive bidding and project delivery. This report should, at a minimum: (1) Provide comparisons of bids received for the projects utilizing the relevant contract requirements to other projects of similar size and scope and in the same geographic area that are not utilizing such requirements; (2) If a reduction in the pool of bidders was evident, explain the potential offsetting benefits resulting from the use of the requirement; (3) Describe how the approved contracting requirement lead to an increase in the effectiveness and efficiency of Federal funds for the project; and (4) Describe and quantify how the approved contracting requirement promoted the efficient and effective use of Federal funds in connection with the contract, when considered over the long term for the recipient or subrecipient's program, or by serving to protect the integrity of the competitive bidding process.

The recipient or subrecipient also must submit to the FTA Regional Office a report that evaluates the effects of the approved contracting requirement on job creation, equitable hiring, and workforce development. This report should, at a minimum: (1) Quantify total number of jobs created, by job category; (2) Summarize general statistics regarding where workers reside, including how many workers reside within same county as project; (3) Evaluate the actual impact the approved contracting requirement had on equitable construction hiring and workforce development, particularly for economically or socially disadvantaged workers; and (4) Evaluate the effects of relevant contracting requirements on participation by DBE contractors and subcontractors (for example, evaluating whether DBE project goals were attained and whether the requirements acted as a barrier to DBE firms based on the composition of DBE firms' workforce). Prior to approving the application, FTA will consult with the recipient or subrecipient to establish the deadline for this report, based on the size and complexity of the project. FTA will include the deadline for this report in the written approval. In general, the report will be due no later than three years after issuance of the Notice to Proceed for the contract, unless the recipient or subrecipient demonstrates that relevant data necessary for the required evaluations will not be available within the three-year timeframe.

A review committee comprised of FTA staff will evaluate the reports and reserves the right to seek clarification from any recipient about any statement

that is made in a report. FTA also may request additional documentation or information to be considered during the review process. FTA or DOT may use information received from pilot program participants through these reports to support future regulatory changes, guidance and/or policies relating to utilization of hiring preferences in contracting.

SUPPLEMENTARY INFORMATION:

Title: Quarterly Readiness of Strategic Seaport Facilities Reporting.

OMB Control Number: 2133-0548.

Type of Request: Renewal of a previously approved information collection.

Abstract: Pursuant to E.O. 12656 and 49 CFR 1.81(10), 49 CFR part 33; the Maritime Administration (MARAD) issues, for emergency planning and preparedness purposes, a Port Readiness Plan (PRP) to each strategic commercial seaport (port) designated by the Commander, Military Surface Deployment and Distribution Command (SDDC). The PRP identifies specific facilities that DoD may need to support the deployment of Armed Forces of the United States or other emergency needs to promote the national defense. The collection of quarterly information is

necessary to validate the ports' ability to provide PRP-delineated facilities to the DOD within the PRP-delineated timeline.

Respondents: Strategic Commercial Seaports who have been designated by the Commander, SDDC and who have been issued a PRP by MARAD.

Affected Public: Strategic Commercial Seaports.

Estimated Number of Respondents: 17.

Estimated Number of Responses: 4.

Estimated Hours per Response: 1.

Annual Estimated Total Annual Burden Hours: 68.

Frequency of Response: Quarterly.
