

Community Living) first developed a State Program Report (SPR) in 1996 as part of its National Aging Program Information System (NAPIS). The SPR collects information about the national Aging Network, how State Agencies on Aging expend their OAA funds as well as funding from other sources for OAA authorized supportive services. The SPR also collects information on the demographic and functional status of the recipients, and is a key source for ACL performance measurement. This previously approved “New SPR” was a

revision of the currently active version (effective 2019–2022) and approved in 2018, also assigned with the same OMB Control Number #0985–0001. This previously approved collection reduces the number of data elements reported by 70% compared to the 2019–2022 SPR.

ACL intends to seek a new OMB Control Number for the new SPR effective FY 2022–2025.

This request applies only to making an administrative change to the 2018 approved version of the State Performance Report for State Units on Aging (Older Americans Act Titles III

and VII (Chapters 3 and 4) (“new SPR”). ACL intends to use this proposed data to collect information with the FY 2022 reporting year.

Comments in Response to the 60-Day Federal Register Notice: ACL published a 60-day notice in the **Federal Register** soliciting public comments on February 25, 2021, Volume 86, Number 36, pages 11541–11542. ACL received no comments.

Estimated Program Burden: ACL estimates an annual burden of 1,876 hours.
