

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

These safeguards apply to the records at all locations, including at Papa Ola Lokahi (POL), an entity which collaborates with HRSA/BHW in the administration of the NHHSP through a Cooperative Agreement to assist with the implementation of the NHHSP:

a. Administrative Safeguards:

- Authorized Users: Password-protected access is limited to persons authorized and needing to use the electronic records, which includes system managers and their staff, BHW headquarter officials and staff, HRSA Division of Regional Operations staff, financial and fiscal management personnel, Office of the General Counsel personnel, Office of Information Technology personnel, and POL personnel.

• Additional Authorized Users:

Password-protected access is also provided to applicants, participants, and service sites for the purpose of inputting data, uploading documents, or submitting queries through BMISS.

- Security controls are audited and reviewed on an ongoing basis, and security awareness training is conducted at least annually.

b. Technical safeguards:

- Encryption, intrusion detection, and firewalls are utilized. Scans are run against the BMISS platform for web and architecture vulnerabilities. Complex or strong passwords are required and must be changed frequently.

c. Physical Safeguards:

- Rooms where records are located are locked when not in use. During regular business hours, rooms are unlocked but are controlled by on-site personnel. Security guards perform random checks on the physical security of the offices (storage locations) after duty hours, including weekends and holidays.

- Servers and other computer equipment used to process identifiable data are located in secured areas which use physical access control devices (e.g., keys, locks, combinations, card readers) and/or security guards to control entries into the facility. All facilities housing HRSA information systems maintain fire suppression and detection devices or systems (e.g., sprinkler systems, handheld fire extinguishers, fixed fire hoses, and or smoke detectors) that can be activated in the event of a fire.

RECORD ACCESS PROCEDURES:

To request access to a record about you, submit a written access request to the Policy-Coordinating Official identified in the "System Manager" section of this SORN, who will refer

your request to the appropriate Point of Contact for the program/activity. The request must contain your full name, address, and signature, and should also include the name of the Program(s) in which you participated (or applied but were not selected) and current status (e.g., in training, in deferment, in service, or in default), and Applicant/Participant ID number. To verify your identity, your signature must be notarized or the request must include your written certification that you are the individual who you claim to be and that you understand that the knowing and willful request for or acquisition of a record pertaining to an individual under false pretenses is a criminal offense subject to a fine of up to \$5,000. You may request that copies of the records be sent to you, or you may request an appointment to review the records in person (including with a person of your choosing, if you provide written authorization for agency personnel to discuss the records in that person's presence). You may also request an accounting of disclosures that have been made of records about you, if any.

CONTESTING RECORDS PROCEDURES:

To request correction of a record about you in this system of records, submit a written amendment request to the Policy-Coordinating Official identified in the "System Manager" section of this SORN, who will refer your request to the appropriate Point of Contact for the program/activity. The request must contain the same information required for an access request and include verification of your identity in the same manner required for an access request. In addition, the request must reasonably identify the record and specify the information contested, the corrective action sought, and the reasons for requesting the correction; and should include supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant.

NOTIFICATION PROCEDURES:

To find out if the system of records contains records about you, submit a written notification request to the Policy-Coordinating Official identified in the "System Manager" section of this SORN who will refer your request to the appropriate Point of Contact for the program/activity. The request must contain the same information required for an access request, and must include verification of your identity in the same manner required for an access request.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.
