

<https://www.dol.gov/agencies/ebsa/about-ebsa/about-us/state-all-payer-claims-databases-advisory-committee>.

2. *Deadline for Registration of Oral Presentations:* June 21, 2021. Requests should be submitted by email to SAPCDAC@dol.gov.

3. *Deadline for Submission of Oral Remarks and Written Comments:* June 21, 2021. Remarks and comments should be submitted by email to SAPCDAC@dol.gov.

4. *Deadline for Requesting Special Accommodations:* June 21, 2021. Requests should be submitted by email to SAPCDAC@dol.gov.

The meetings will focus on the various issues related to all payer claims databases as well as a general discussion of the work plan and recommendations for the report that must be submitted by the Committee. Additional details about the agenda items and topics, as well as agenda updates, will be available at on the Committee's website: <https://www.dol.gov/agencies/ebsa/about-ebsa/about-us/state-all-payer-claims-databases-advisory-committee>.

Dated: May 26, 2021.

Ali Khawar,

Acting Assistant Secretary, Employee Benefits Security Administration, U.S. Department of Labor.

BILLING CODE 4510-29-P

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Mine Safety and Health Administration Grant Performance Reports

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that agency receives on or before July 1, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open

for Public Comments" or by using the search function.

Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT:

Crystal Rennie by telephone at 202-693-0456 or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: MSHA

grantees are required by DOL regulations to submit project and final reports. Grantees are also required to submit final reports no later than 90 days after the end of the grant period. Technical Project Reports: A grantee submits a technical project report to MSHA no later than 30 days after quarterly deadlines. Technical project reports provide both quantitative and qualitative information and a narrative assessment of performance for the preceding three-month period. This includes the current grant progress against the overall grant goals. Between reporting dates, the grantee informs MSHA of significant developments or problems affecting the organization's ability to accomplish the work. Final Reports: At the end of the grant period, each grantee provides a project summary of its technical project reports, an evaluation report, and a close-out financial report. These final reports are due no later than 90 days after the end of the 12-month performance period. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 18, 2020 (85 FR 82522).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not

display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL-MSHA.

Title of Collection: Mine Safety and Health Administration Grant Performance Reports.

OMB Control Number: 1219-0154.

Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Respondents: 50.

Total Estimated Number of Responses: 250.

Total Estimated Annual Time Burden: 625 hours.

Total Estimated Annual Other Costs Burden: \$0.

Authority: 44 U.S.C. 3507(a)(1)(D).

Crystal Rennie,

Senior PRA Analyst.

BILLING CODE 4510-43-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities; Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register** and two were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance

Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314, or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays). Comments regarding this information collection are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number, and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Summary of Comments on the Survey of Doctorate Recipients and NSF's Responses: As required by 5 CFR 1320.8(d), comments on the information collection activities as part of this study were solicited through the publication of a 60-Day Notice in the **Federal Register** on 5 February 2021, at 86 FR 8384. We received two comments. The nature of each comment and our responses are summarized below.

Comment: On 5 February 2021, Dr. Andrew Reamer of George Washington University sent an email to NSF on behalf of the American Economic Association's Committee on Economic Statistics. He requested the draft information collection request (ICR) materials for the 2021 SDR and asked whether any changes were proposed for the 2021 SDR compared to the 2019 SDR.

Response: NSF responded to Dr. Reamer on 2 February 2021, explaining that the 2021 SDR ICR materials were in the process of being prepared and that there were no substantive changes planned. He was directed to the 2019 SDR questionnaires on the NSF website, which would be updated to reflect the survey year. He was also informed that the same instrument, with updates to reflect survey year and modifications to accommodate the circumstances of the coronavirus pandemic, will be used for the 2021 cycle.

Comment: NCSES received a comment on 17 March 2021 from Dr. Jon Freeman representing the American Association for the Advancement of

Science (AAAS) and the American Educational Research Association (AERA). The commenters requested that NCSES include measures of sexual orientation and gender identity on the SDR and on other NCSES surveys (specifically, the National Survey of College Graduates and the Survey of Earned Doctorates).

Response: NCSES informed the commenters that it continues to actively engage on the Federal Committee on Statistical Methodology's (FCSM) Working Group on Measuring Sexual Orientation and Gender Identity and described its research efforts for development and fielding possible questionnaire additions to address the topic. NCSES informed the commenters that it does not intend to include these measures in the 2021 SDR.

Title of Collection: 2021 Survey of Doctorate Recipients.

OMB Approval Number: 3145-0020.

Summary of Collection: The purpose of this panel survey is to collect data that will be used to provide national estimates on the doctoral science and engineering workforce and changes in their employment, education, and demographic characteristics. The SDR is sponsored by the National Center for Science and Engineering Statistics (NCSES) within the NSF and by the National Institutes of Health.

The National Science Foundation Act of 1950, as subsequently amended, includes a statutory charge to “. . . provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources, and to provide a source of information for policy formulation by other agencies of the Federal Government.” The SDR is designed to comply with these mandates by providing information on the supply and utilization of the nation's doctoral level scientists and engineers.

Use of the Information: The NSF uses the information from the SDR to prepare congressionally-mandated reports such as *Women, Minorities and Persons with Disabilities in Science and Engineering* and *Science and Engineering Indicators*. NCSES also produces, on a biennial basis, a set of statistical tables from the SDR, and publishes statistics from the SDR in other reports.

Expected Respondents: A statistical sample of 130,938 individuals who had earned a research doctorate degree from a U.S. academic institution in the fields of science, engineering, or health (SEH) will be contacted in 2021; these individuals may reside in the U.S. or abroad. As with prior SDR data collection cycles, the sample consists of all eligible cases from the previous

cycle, as well as a sample of new doctoral graduates, who received their doctorate between 1 July 2017 and 30 June 2019. In addition, the sample may include 5,000 cases that will be part of a non-production bridge panel designed to quantify the potential impact of question wording modifications on key survey estimates. Another 9% of the production sample may submit an inter-round updated contact form that takes about 3 minutes to complete.

Estimate of Burden: NCSES expects the overall 2021 SDR response rate to be approximately 70 percent. The amount of time to complete the questionnaire may vary depending on an individual's circumstances; however, based on 2019 SDR completion times, NCSES estimates an average completion time of approximately 21 minutes. NCSES estimates that the average annual burden for the 2021 survey cycle over the course of the three-year OMB clearance period will be no more than 10,882 hours [(130,938 individuals × 70% response × 21 minutes) + (125,938 × 9% participation × 3 minutes)]/3 years/60 minutes.

Dated: May 26, 2021.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-295, 50-304, and 72-1037; NRC-2019-0236]

In the Matter of ZionSolutions, LLC and Exelon Generation Company, LLC; Zion Nuclear Power Station, Units 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Direct transfer of license; extending effectiveness of order.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an Order to extend until November 26, 2021, the effectiveness of a November 26, 2019, order, which approved the direct transfer of Facility Operating License Nos. DPR-39 and DPR-48 for Zion Nuclear Power Station (ZNPS), Units 1 and 2, respectively, and the general license for the ZNPS independent spent fuel storage installation from the current holder, ZionSolutions, LLC, to Exelon Generation Company, LLC and amended the facility operating licenses for administrative purposes to reflect the transfer.
