

DEPARTMENT OF LABOR**Office of the Workers' Compensation Programs****Agency Information Collection Activities; Comment Request; Request for Information on Earnings, Dual Benefits, Dependents and Third Party Settlement, CA-1032**

AGENCY: Division of Federal Employees', Longshore and Harbor Workers' Compensation—FECA, Office of the Workers' Compensation Programs, Department of Labor.

ACTION: Notice.

SUMMARY: The Department of Labor (DOL) is soliciting comments concerning a revision for the authority to conduct the information collection request (ICR) titled, “[Request for Information on Earnings, Dual Benefits, Dependents and Third Party Settlement, CA-1032].” This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).

DATES: Consideration will be given to all written comments received by August 6, 2021.

ADDRESSES: A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free by contacting Anjanette Suggs by telephone at 202-354-9660 or by email at suggs.anjanette@dol.gov.

Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor, Office of Workers' Compensation Programs, Room S3323, and 200 Constitution Avenue NW, Washington, DC 20210; by email: suggs.anjanette@dol.gov.

FOR FURTHER INFORMATION CONTACT: Anjanette Suggs by telephone at 202-354-9660 or by email at suggs.anjanette@dol.gov.

SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is

minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The OWCP uses this collection to obtain information from a Federal Employees' Compensation Act (FECA) claimant receiving workers' compensation benefits over an extended period. The OWCP uses the response to determine whether the claimant is entitled to continue receiving benefits and whether the benefit amount should be adjusted. The collection is necessary to help verify that the beneficiary receives the correct compensation. Information requested on the CA-1032 is obtained from each claimant receiving continuing compensation on the periodic disability roll. The form requests information on the claimant's earnings, dependents, third party settlements, and other Federal benefits received. Questions in the form in Part D (2) Other Benefits or Payments pertaining to Social Security Benefits were slightly revised for better clarity for the respondent.

The FECA authorizes this information collection. See 5 U.S.C. 8124 and 8149. This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. The current information collection expires November 30, 2023. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Written comments will receive consideration, and be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention [1240-0016].

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL—Office of Workers' Compensation Programs.

Type of Review: [Revision].

Title of Collection: [Request for Information on Earnings, Dual Benefits, Dependents and Third Party Settlement].

Form: [CA-1032].

OMB Control Number: [1240-0016].

Affected Public: [Individual or Household].

Estimated Number of Respondents: [37,056].

Frequency: [Annually].

Total Estimated Annual Responses: [37,056].

Estimated Average Time per Response: [20 minutes].

Estimated Total Annual Burden Hours: [12,352] hours.

Total Estimated Annual Other Cost Burden: \$[294,472]

Authority: 44 U.S.C. 3506(c)(2)(A).

Anjanette Suggs,

Agency Clearance Officer.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NOTICE: [21-033]]

Name of Information Collection: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to

comment on proposed and/or continuing information collections.

DATES: Comments are due by July 7, 2021.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting "Currently under 60-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Claire Little, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546 or email claire.a.little@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations; provide an early warning of issues with service; or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness; appropriateness; accuracy of information; courtesy; efficiency of service delivery; and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

II. Methods of Collection

The Agency will only submit a collection for approval under this

generic clearance if it meets the following conditions:

The collections are voluntary; The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;

The collections are non-controversial and do not raise issues of concern to other Federal agencies;

Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;

Information gathered will only be used internally for general service improvement and program management purposes and is not intended for release outside of the Agency;

Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made; the sampling frame; the sample design (including stratification and clustering); the precision requirements or power calculations that justify the proposed sample size; the expected response rate; methods for assessing potential non-response bias; the protocols for data collection; and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs,

and other matters that are commonly considered private.

III. Data

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB Number: 2700–0153.

Type of Review: Extension of approval for a collection of information.

Affected Public: Federal Government; Individuals and Households; Businesses and Organization; State, Local, or Tribal Government.

Estimated Annual Number of Activities: 40.

Estimated Number of Respondents per Activity: 2,000.

Annual Responses: 80,000.

Estimated Time per Response: 5 minutes.

Estimated Total Annual Burden Hours: 6,667.

Estimated Total Annual Cost: \$200,000.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Lori Parker,

NASA PRA Clearance Officer.
