Proposed Renewal IHA and Request for Public Comment

As a result of these preliminary determinations, NMFS proposes to issue a Renewal IHA to Vineyard Wind for conducting marine site characterization survey activities off the coast of Massachusetts in the areas of the Commercial Lease of Submerged Lands for Renewable Energy Development on the Outer Continental Shelf (OCS-A 0501 and OCS-A 0522) and along potential submarine cable routes to landfall locations in Massachusetts, Rhode Island, Connecticut, and New York for a period of one year from the date of issuance, provided the previously described mitigation, monitoring, and reporting requirements are incorporated. A draft of the proposed and final initial IHA can be found at <https://www.fisheries.noaa.gov/permit/incidental-take-authorizations-under-marine-mammal-protection-act>. We request comment on our analyses, the proposed Renewal IHA, and any other aspect of this Notice. Please include with your comments any supporting data or literature citations to help inform our final decision on the request for MMPA authorization.

SUPPLEMENTARY INFORMATION:

I. Abstract

National Marine Fisheries Service's (NMFS) Office of Protected Resources sponsors this information collection and is requesting renewal of the currently approved collection.

Section 118 of the Marine Mammal Protection Act requires any commercial fisherman operating in Category I and II fisheries to register for a certificate of authorization that will allow the fisherman to take marine mammals incidental to commercial fishing operations. Category I and II fisheries are those identified by NOAA as having either frequent or occasional takings of marine mammals. All states have integrated the NMFS registration process into the existing state fishery registration process and vessel owners do not need to file a separate federal registration. If applicable, vessel owners will be notified of this simplified registration process when they apply for their state or Federal permit or license. A valid certificate of authorization protects the vessel owner from prosecution under the MMPA for violation of the moratorium on taking marine mammals. The information needed to register or update a commercial fishery authorization is found at 50 CFR 229.4.

II. Method of Collection

Fishermen's information is imported directly into the Marine Mammal Authorization Program (MMAP) from their state. If they do not have a state or Federal fishery permit or license, fishermen can request a MMAP registration form (OMB No. 0648-0293) from their NMFS regional office and mail in the registration form.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS), Alaska Regional Office, is requesting renewal of a currently approved information collection that contains the requirements for the annual

participant letter for the Aleutian Islands pollock fishery.

Amendment 82 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) established a framework for the management of the Aleutian Islands subarea (AI) directed pollock fishery. The Aleut Corporation receives an annual AI pollock allocation for the purpose of economic development in Adak, Alaska. The Aleut Corporation is identified in Public Law 108-199 as a business incorporated pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 *et seq.*). Regulations implementing the FMP appear at 50 CFR part 679.

The Aleut Corporation's AI pollock fishery is set up so that harvesting pollock in the AI directed pollock fishery and processing pollock taken in the AI directed pollock fishery are authorized only for those harvesters and processors that are selected by the Aleut Corporation and approved by the NMFS Regional Administrator.

Each year and at least 14 days before harvesting pollock or processing pollock in the AI directed pollock fishery, the Aleut Corporation must submit its selections to NMFS. The information submitted by the Aleut Corporation consists of the names of the harvesting vessels and processors it has selected, the Federal fisheries permit numbers or Federal processor permit numbers of the participants, and the fishing year for which approval is requested.

On approval, NMFS sends the Aleut Corporation a letter that includes a list of the approved participants. A copy of this letter must be retained on board each participating vessel and on site at each shoreside processor at all times.

This information collection is necessary for NMFS to obtain the list of vessels and processors selected by the Aleut Corporation to harvest and process its annual AI pollock allocation. The Aleut Corporation is required by Federal regulations at 50 CFR 679.4(m)(2) to provide its selected harvesters and processors to NMFS for approval. Without this information, NMFS would not know the participants selected by the Aleut Corporation and harvest rates could not be determined, which may result in allocations being exceeded.

II. Method of Collection

The Aleut Corporation submits the participant letter to NMFS by mail, email, or fax.

III. Data

OMB Control Number: 0648-0513.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other for-profit organizations.

Estimated Total Annual Cost to Public: \$5.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Consolidated Appropriations Act of 2004; Magnuson-Stevens Fishery Conservation and Management Act.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.
