

information, supporting documentation, and further certifications of compliance prior to receiving any subsequent disbursement(s), including comprehensive closeout documentation. As noted above, if award amounts have to be reduced on a pro rata basis but then any funds are recovered from other recipients, then DOT may make supplemental disbursements to the remaining eligible recipients.

In accordance with 2 CFR 200.333 (“Retention requirements for Records”), recipients will be required to retain all supporting documentation for three (3) years after submitting the final expenditure report. If any litigation, claim, or audit is started before the expiration of the three-year period, then the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken.

If a recipient enters an agreement under this program but then cannot fulfill its statutory and contractual obligations under that agreement, including (but not limited to) funding the Private Contribution), then DOT will seek appropriate remedies, including (but not limited to) termination of the agreement and/or recovery of any funds already disbursed. All recipients may be subject to audits by DOT or other oversight agencies, and any funds improperly used may have to be returned to the government.

If a recipient enters an agreement under this program but then files for protection under any process related to the United States Bankruptcy Code, then DOT may terminate the agreement and seek appropriate remedies, including recovery of any funds already disbursed.

If a recipient enters an agreement under this program but is then acquired by (or merges with) another business in a manner that affects eligibility or compliance with the agreement, then DOT may terminate the agreement and seek appropriate remedies, including recovery of any funds already disbursed. The agreement will address related requirements for notification to the government and assignment.

7. Preservation of Safety-Related Responsibilities

DOT will not make any substantive judgment about the job categories that an applicant does or does not include in defining the EEG. DOT will only verify that the EEG meets the requirements set forth in this notice. Nothing in DOT’s determination of eligibility in any way relieves the applicant of its responsibilities, including all safety-related responsibilities pursuant to

certificates issued by the FAA, or compliance obligations under federal regulations and any other legal obligations.

8. Other Information

Financial assistance under this program is subject to the requirements of 2 CFR part 170, in accordance with the Federal Funding Accountability and Transparency Act of 2006 (Pub. L. 109–282), as amended by section 6202 of Public Law 110–252. The agreements will include corresponding requirements, including the requirements pertaining to executive compensation. Before providing financial assistance under this program greater than the simplified acquisition threshold, DOT is required to review and consider any information about the applicant that is in the designated integrity and performance system accessible through SAM (currently FAPIIS³⁷) (see 41 U.S.C. 2313). An applicant may, at its option, review information in the designated integrity and performance systems accessible through SAM and comment on any information about itself that a Federal awarding agency previously entered and is currently in the designated integrity and performance system accessible through SAM. DOT will consider any comments by the applicant, in addition to the other information in the designated integrity and performance system, in making a judgment about the applicant’s integrity, business ethics, and record of performance under Federal awards when completing the review of risk posed by applicants as described in 2 CFR 200.206.

As noted previously, DOT strongly recommends that all interested businesses monitor the official DOT program web page frequently for any new or updated information regarding the AMJP program.

Description: Section 214 of the Fair and Accurate Credit Transactions Act of 2003 (FACT Act),² which added section

624 to the Fair Credit Reporting Act (FCRA),³ generally prohibits a person from using certain information received from an affiliate to solicit a consumer for marketing purposes, unless the consumer is given notice and an opportunity and simple method to opt out of such solicitations.

Twelve CFR 1022.20–1022.27 require financial institutions to issue notices informing consumers about their rights under section 214 of the FACT Act. Consumers use the notices to decide if they want to receive solicitations for marketing purposes or opt out. Financial institutions use consumers’ opt-out responses to determine the permissibility of making a solicitation for marketing purposes.

If a person receives certain consumer eligibility information from an affiliate, the person may not use that information to solicit the consumer about its products or services, unless the consumer is given notice and a simple method to opt out of such use of the information, and the consumer does not opt out. Exceptions include a person using eligibility information: (1) To make solicitations to a consumer with whom the person has a pre-existing business relationship; (2) to perform services for another affiliate subject to certain conditions; (3) in response to a communication initiated by the consumer; or (4) to make a solicitation that has been authorized or requested by the consumer. A consumer’s affiliate marketing opt-out election must be effective for a period of at least five years. Upon expiration of the opt-out period, the consumer must be given a renewal notice and an opportunity to renew the opt-out before information received from an affiliate may be used to make solicitations to the consumer.

On March 22, 2021, the OCC published a 60-day notice for this information collection, 86 FR 15288. No comments were received. Comments continue to be invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC’s estimate of the information collection burden;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.
