[Public Notice: 11444]

60-Day Notice of Proposed Information Collection: Electronic Choice of Address and Agent

ACTION: Notice of request for public comment.

SUMMARY: The Department of State is seeking Office of Management and Budget (OMB) approval for the information collection described below. In accordance with the Paperwork Reduction Act of 1995, we are requesting comments on this collection from all interested individuals and organizations. The purpose of this notice is to allow 60 days for public comment preceding submission of the collection to OMB.

DATES: The Department will accept comments from the public up to *August 16, 2021*.

ADDRESSES: You may submit comments by any of the following methods:

- *Web:* Persons with access to the internet may comment on this notice by going to www.Regulations.gov. You can search for the document by entering “Docket Number: DOS-2021-0013” in the Search field. Then click the “Comment Now” button and complete the comment form.

- *Email:* PRA_BurdenComments@state.gov.

- *Phone:* Dylan Aikens at 202-485-7586.

You must include the DS form number (if applicable), information collection title, and the OMB control number in any correspondence.

FOR FURTHER INFORMATION CONTACT: Direct requests for additional information regarding the collection listed in this notice, including requests for copies of the proposed collection instrument and supporting documents, to Dylan Aikens at 202-485-7586 or PRA_BurdenComments@state.gov.

SUPPLEMENTARY INFORMATION:

- *Title of Information Collection:* Electronic Choice of Address and Agent.
- *OMB Control Number:* 1405-0186.
- *Type of Request:* Extension of a Currently Approved Collection.

We are soliciting public comments to permit the Department to:

- Evaluate whether the proposed information collection is necessary for the proper functions of the Department.
- Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection

The DS-261 allows the beneficiary of an approved and current immigrant visa petition to provide the Department with his or her preferred email address, which will be used for communications with the beneficiary. The DS-261 also allows the beneficiary to appoint an agent to receive mailings from the National Visa Center (NVC) and assist in the filing of various application forms and/or paying the required fees. The beneficiary is not required to appoint an agent but must provide current contact information. All cases will be held at NVC until the DS-261 is electronically submitted to the Department.

Methodology

Applicants will complete the form online and submit it electronically to the Department.

Kevin E. Bryant,

Deputy Director, Office of Directives Management, Department of State.

BILLING CODE 4710-06-P

TENNESSEE VALLEY AUTHORITY

Environmental Impact Statement for Kingston Fossil Plant Retirement

AGENCY: Tennessee Valley Authority.

ACTION: Notice of intent.

SUMMARY: The Tennessee Valley Authority (TVA) intends to prepare an Environmental Impact Statement (EIS) to assess the impacts associated with the proposed retirement of the nine coal-fired units at the Kingston Fossil Plant (KIF) and the construction and operation of facilities to replace the retired generation. TVA will use the EIS process to elicit and prioritize the values and concerns of stakeholders; formulate, evaluate and compare alternatives; provide opportunities for public review and comment; and ensure that TVA's evaluation of potential retirement and replacement energy generation reflects a full range of stakeholder input. Public comment is invited concerning the scope of the EIS, alternatives being considered, and environmental issues that should be addressed as a part of this EIS. TVA is also requesting data, information and analysis relevant to the proposed action from the public; affected Federal, State, tribal, and local governments, agencies, and offices; the scientific community; industry; or any other interested party.

DATES: To ensure consideration, comments on the scope and environmental issues must be postmarked, emailed or submitted online no later than July 15, 2021. To facilitate the scoping process, TVA will hold a public scoping meeting; see <http://www.tva.gov/nepa> for more information on the meeting.

ADDRESSES: Written comments should be sent to Chevales Williams, NEPA Compliance Specialist, 1101 Market Street, BRC 2C, Chattanooga, TN 37402. Comments may also be submitted online at: www.tva.gov/nepa, or by email at nepa@tva.gov. Please note that, due to current TVA requirements for many employees to work remotely, TVA recommends the public submit comments electronically to ensure their timely review and consideration.

FOR FURTHER INFORMATION CONTACT: Please contact Chevales Williams at the address above, by phone at (423) 751-7316 or email at cwilliams1@tva.gov.

SUPPLEMENTARY INFORMATION: This notice is provided in accordance with the regulations promulgated by Council on Environmental Quality at 40 CFR parts 1500 to 1508 (84 FR 43304, July 16, 2020) and TVA's procedures implementing the National

Environmental Policy Act at 18 CFR part 1318. TVA is an agency and instrumentality of the United States, established by an act of Congress in 1933, to foster the social and economic welfare of the people of the Tennessee Valley region and to promote the proper use and conservation of the region's natural resources. One component of this mission is the generation, transmission, and sale of reliable and affordable electric energy.

Background

In June 2019, TVA published the 2019 Integrated Resource Plan (IRP), which was developed with input from stakeholder groups and the general public. The 2019 IRP evaluated six scenarios (plausible futures) and five strategies (potential TVA responses to those futures) and identified a range of potential resource additions and retirements throughout the TVA power service area, which encompasses approximately 80,000 square miles covering most of Tennessee and parts of Alabama, Georgia, Kentucky, Mississippi, North Carolina, and Virginia. The target supply mix adopted by the TVA Board through the 2019 IRP included the potential retirement of 2,200 MW of coal-fired generation by 2038. The IRP acknowledged continued operational challenges for the aging coal fleet and included a recommendation to conduct end-of-life evaluations during the term of the IRP to determine whether retirements greater than 2,200 MW would be appropriate. Following the publication of the IRP, TVA began conducting these evaluations to inform long-term planning. TVA's recent evaluation confirms that the aging coal fleet is among the oldest in the nation and is experiencing deterioration of material condition and performance challenges. The performance challenges are projected to increase because of the coal fleet's advancing age and the difficulty of adapting the fleet's generation within the changing generation profile; and, in general, because the coal fleet is contributing to environmental, economic, and reliability risks.

KIF is located in Harriman, Roane County, Tennessee, approximately 35 miles west of downtown Knoxville. The plant is on a large reservation of approximately 1,255 acres situated on a peninsula formed by the confluence of the Clinch and Emory Rivers at the Clinch River. Built between 1954 and 1955, the nine-unit, coal-fired steam-generating plant has a summer net capability of 1,398 megawatts (MW). The intensive cycling of the KIF units, reflected in start-up/shutdown events
