BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice of Filings

Take notice that the Commission has received the following Natural Gas Pipeline Rate and Refund Report filings:

Docket Numbers: RP01–382–031.

Applicants: Northern Natural Gas Company.

Description: Northern Natural Gas Company submits Carlton Reimbursement Report under RP01–382.

Filed Date: 6/1/21.

Accession Number: 20210601–5295.

Comments Due: 5 p.m. ET 6/14/21.

Docket Numbers: RP21–891–000.

Applicants: WTG Hugoton, LP.

Description: § 4(d) Rate Filing: WTGH Address Change Filing (July 1, 2021) to be effective 7/1/2021.

Filed Date: 6/8/21.

Accession Number: 20210608–5052.

Comments Due: 5 p.m. ET 6/21/21.

Docket Numbers: RP21–892–000.

Applicants: Transcontinental Gas Pipe Line Company, LLC.

Description: Compliance filing Rate Schedule S–2 Flow Through Refund Report OFO Penalty to be effective N/A.

Filed Date: 6/8/21.

Accession Number: 20210608–5074.

Comments Due: 5 p.m. ET 6/21/21.

The filings are accessible in the Commission's eLibrary system (*https://elibrary.ferc.gov/idmws/search/fercgensearch.asp*) by querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: *http://www.ferc.gov/docs-filing/efiling/filing-req.pdf.* For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: June 9, 2021.

Debbie-Anne A. Reese,

Deputy Secretary.

BILLING CODE 6717–01–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPPT–2021–0068; FRL–10025–01]

Certain New Chemicals; Receipt and Status Information for May 2021

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is required under the Toxic Substances Control Act (TSCA), as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, to make information publicly available and to publish information in the **Federal Register** pertaining to submissions under TSCA, including notice of receipt of a Premanufacture notice (PMN), Significant New Use Notice (SNUN) or Microbial Commercial Activity Notice (MCAN), including an amended notice or test information; an exemption application (Biotech exemption); an application for a test marketing exemption (TME), both pending and/or concluded; a notice of commencement (NOC) of manufacture (including import) for new chemical substances; and a periodic status report on new chemical substances that are currently under EPA review or have recently concluded review. This document covers the period from 05/01/2021 to 05/31/2021.

DATES: Comments identified by the specific case number provided in this document must be received on or before July 15, 2021.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPPT–2021–0068, and the specific case number for the chemical substance related to your comment, using the Federal eRulemaking Portal at *http://www.regulations.gov.* Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Due to the public health concerns related to COVID–19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit *http://www.epa.gov/dockets.*

FOR FURTHER INFORMATION CONTACT: *For technical information contact:* Jim Rahai, Project Management and Operations Division (MC 7407M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (202) 564–8593; email address: *rahai.jim@epa.gov.*

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554–1404; email address: *TSCA-Hotline@epa.gov.*

SUPPLEMENTARY INFORMATION:

I. Executive Summary

A. What action is the Agency taking?

This document provides the receipt and status reports for the period from 05/01/2021 to 05/31/2021. The Agency is providing notice of receipt of PMNs, SNUNs and MCANs (including amended notices and test information); an exemption application under 40 CFR part 725 (Biotech exemption); TMEs, both pending and/or concluded; NOCs to manufacture a new chemical substance; and a periodic status report on new chemical substances that are currently under EPA review or have recently concluded review.

EPA is also providing information on its website about cases reviewed under the amended TSCA, including the section 5 PMN/SNUN/MCAN and exemption notices received, the date of receipt, the final EPA determination on the notice, and the effective date of EPA's determination for PMN/SNUN/MCAN notices on its website at: *https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/status-pre-manufacture-notices.* This information is updated on a weekly basis.

B. What is the Agency's authority for taking this action?

Under the Toxic Substances Control Act (TSCA), 15 U.S.C. 2601 *et seq.,* a chemical substance may be either an

''existing'' chemical substance or a ''new'' chemical substance. Any chemical substance that is not on EPA's TSCA Inventory of Chemical Substances (TSCA Inventory) is classified as a ''new chemical substance,'' while a chemical substance that is listed on the TSCA Inventory is classified as an ''existing chemical substance.'' (See TSCA section 3(11).) For more information about the TSCA Inventory please go to: *https://www.epa.gov/tsca-inventory.*

Any person who intends to manufacture (including import) a new chemical substance for a non-exempt commercial purpose, or to manufacture or process a chemical substance in a non-exempt manner for a use that EPA has determined is a significant new use, is required by TSCA section 5 to provide EPA with a PMN, MCAN or SNUN, as appropriate, before initiating the activity. EPA will review the notice, make a risk determination on the chemical substance or significant new use, and take appropriate action as described in TSCA section 5(a)(3).

TSCA section 5(h)(1) authorizes EPA to allow persons, upon application and under appropriate restrictions, to manufacture or process a new chemical substance, or a chemical substance subject to a significant new use rule (SNUR) issued under TSCA section 5(a)(2), for ''test marketing'' purposes, upon a showing that the manufacture, processing, distribution in commerce, use, and disposal of the chemical will not present an unreasonable risk of injury to health or the environment. This is referred to as a test marketing exemption, or TME. For more information about the requirements applicable to a new chemical go to: *http://www.epa.gov/oppt/newchems.*

Under TSCA sections 5 and 8 and EPA regulations, EPA is required to publish in the **Federal Register** certain information, including notice of receipt of a PMN/SNUN/MCAN (including amended notices and test information); an exemption application under 40 CFR part 725 (biotech exemption); an application for a TME, both pending and concluded; NOCs to manufacture a new chemical substance; and a periodic status report on the new chemical substances that are currently under EPA review or have recently concluded review.

C. Does this action apply to me?

This action provides information that is directed to the public in general.

D. Does this action have any incremental economic impacts or paperwork burdens?

No.

E. What should I consider as I prepare my comments for EPA?

1. *Submitting confidential business information (CBI).* Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD–ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD–ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at *http://www.epa.gov/dockets/comments.html.*

II. Status Reports

In the past, EPA has published individual notices reflecting the status of TSCA section 5 filings received, pending or concluded. In 1995, the Agency modified its approach and streamlined the information published in the **Federal Register** after providing notice of such changes to the public and an opportunity to comment (See the **Federal Register** of May 12, 1995, (60 FR 25798) (FRL–4942–7). Since the passage of the Lautenberg amendments to TSCA in 2016, public interest in information on the status of section 5 cases under EPA review and, in particular, the final determination of such cases, has increased. In an effort to be responsive to the regulated community, the users of this information, and the general public, to comply with the requirements of TSCA, to conserve EPA resources and to streamline the process and make it more timely, EPA is providing information on its website about cases reviewed under the amended TSCA, including the TSCA section 5 PMN/SNUN/MCAN and exemption notices received, the date of receipt, the final EPA determination on the notice, and the effective date of EPA's determination for PMN/SNUN/MCAN notices on its website at: *https://www.epa.gov/reviewing-new-chemicals-under-toxic-substances-control-act-tsca/status-pre-manufacture-notices.* This information is updated on a weekly basis.

III. Receipt Reports

For the PMN/SNUN/MCANs that have passed an initial screening by EPA during this period, Table I provides the following information (to the extent that such information is not subject to a CBI claim) on the notices screened by EPA during this period: The EPA case number assigned to the notice that indicates whether the submission is an initial submission, or an amendment, a notation of which version was received, the date the notice was received by EPA, the submitting manufacturer (*i.e.,* domestic producer or importer), the potential uses identified by the manufacturer in the notice, and the chemical substance identity.

As used in each of the tables in this unit, (S) indicates that the information in the table is the specific information provided by the submitter, and (G) indicates that this information in the table is generic information because the specific information provided by the submitter was claimed as CBI. Submissions which are initial submissions will not have a letter following the case number. Submissions which are amendments to previous submissions will have a case number followed by the letter ''A'' (*e.g.,* P–18–1234A). The version column designates submissions in sequence as ''1'', ''2'', ''3'', etc. Note that in some cases, an initial submission is not numbered as version 1; this is because earlier version(s) were rejected as incomplete or invalid submissions. Note also that future versions of the following tables may adjust slightly as the Agency works to automate population of the data in the tables.

TABLE I—PMN/SNUN/MCANS APPROVED * FROM 05/01/2021 TO 05/31/2021

Case No.	Version	Received date	Manufacturer	Use	Chemical substance
J–21–0012A ...	2	05/11/2021	Vestaron Corporation	(G) Production of an agricultural product ...	(G) Yeast that has been stably modified for the production of an agricultural product.
J–21–0014	1	04/19/2021	CBI	(G) Chemical production	(G) Chromosomally-modified Saccharomyces cerevisiae.

TABLE I—PMN/SNUN/MCANS APPROVED * FROM 05/01/2021 TO 05/31/2021—Continued

Case No.	Version	Received date	Manufacturer	Use	Chemical substance
J–21–0015	1	04/19/2021	CBI	(G) Chemical production	(G) Chromosomally-modified Saccharomyces cerevisiae.
J–21–0016	1	04/19/2021	CBI	(G) Chemical production	(G) Chromosomally-modified Saccharomyces cerevisiae.

* The term 'Approved' indicates that a submission has passed a quick initial screen ensuring all required information and documents have been provided with the submission prior to the start of the 90 day review period, and in no way reflects the final status of a complete submission review.

In Table II of this unit, EPA provides the following information (to the extent that such information is not claimed as CBI) on the NOCs that have passed an initial screening by EPA during this period: The EPA case number assigned to the NOC including whether the submission was an initial or amended submission, the date the NOC was received by EPA, the date of commencement provided by the submitter in the NOC, a notation of the type of amendment (*e.g.,* amendment to generic name, specific name, technical contact information, etc.) and chemical substance identity.

TABLE II—NOCS APPROVED * FROM 05/01/2021 TO 05/31/2021

Case No.	Received date	Commencement date	If Amendment, type of amendment	Chemical substance
J–21–0003	05/13/2021	04/16/2021	N	(G) Genetically modified saccharomyces cerevisiae.

P–18–0336	05/25/2021	05/11/2021	N	(S) Propanedioic acid, 2,2-bis(hydroxymethyl)-, 1,3-dihexyl ester.
P–18–0351	05/10/2021	05/04/2021	N	(G) Acrylic acid, tricyclo alkyl ester.
P–20–0036	05/18/2021	05/14/2021	N	(S) Carbonic acid, di(lithium-6li) salt.
P–20–0159	04/30/2021	04/06/2021	N	(G) Phenoxathiinium, 10-phenyl, 5-alkyl-2-alkyl-4-(2,4,6-substituted tricarbomonocycle, hetero-acid)benzenesulfonate (1:1).
P–21–0018	04/30/2021	04/06/2021	N	(G) Sulfonium, triphenyl-, heterocyclic compound-carboxylate (1:1).

* The term 'Approved' indicates that a submission has passed a quick initial screen ensuring all required information and documents have been provided with the submission.

In Table III of this unit, EPA provides the following information (to the extent such information is not subject to a CBI claim) on the test information that has been received during this time period: The EPA case number assigned to the test information; the date the test information was received by EPA, the type of test information submitted, and chemical substance identity.

TABLE III—TEST INFORMATION RECEIVED FROM 05/01/2021 TO 05/31/2021

Case No.	Received date	Type of test information	Chemical substance
P–16–0289	05/26/2021	Particle Size Analysis	(G) Semi-aromatic polyamide.
P–16–0462	05/10/2021	Quarter 1 Metals Report	(G) Silane-treated aluminosilicate.
P–16–0543	05/12/2021	Exposure Monitoring Report	(G) Halogenophosphoric acid metal salt.
P–18–0160	05/20/2021	14-Day Range-Finding Study and Combined Repeated Dose Toxicity Study with Reproductive-Developmental Toxicity Test.	(G) Heteropolycyclic, halo substituted alkyl substituted- diaromatic amino substituted carbomonocycle, halo substituted alkyl substituted heteropolycyclic, tetraaromatic metalloid salt (1:1).
P–20–0044	05/26/2021	Freshwater Algal Growth Inhibition Test (OECD Test Guideline 201).	(S) 1-propanamine, 3-methoxy-n,n-dimethyl.
P–20–0073	05/11/2021	Ready Biodegradability Manometric Respirometry Tests (OECD Test Guideline 301F), Assessment of Aerobic Degradability in Seawater, Assessment of the 10 day LC50 Toxicity to the Marine Crustacean Corophium Volutator (OSPARCOM Part A Method), Assessment of the Toxicity to the Marine fish Cyprinodon Variegatus (OSPAR Limit Test), Assessment of the 72 Hour EC(r)50 toxicity to the Marine Unicellular Algae Skeletonema sp., and Manufacture Process Description.	(G) 2,5-furandione, reaction products with alkylamine, 1-octanol and polyethylene glycol alkoxy-ether, acetates (salts).

If you are interested in information that is not included in these tables, you may contact EPA's technical information contact or general information contact as described under **FOR FURTHER INFORMATION CONTACT** to access additional non-CBI information that may be available.

Notice of Proposed CERCLA Section 122(h)(1) Settlement for Cost Recovery of Past Response Costs at the Santa Clara Waste Water Treatment Plant Emergency Removal Site, Santa Paula, California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement; request for public comment.

SUMMARY: In accordance with the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (''CERCLA''), notice is hereby given that the Environmental Protection Agency (''EPA''), has entered into a proposed settlement, embodied in a CERCLA Section 122(h)(1) Settlement for Cost Recovery (''Settlement Agreement''), with Santa Clara Waste Water Company (''SCWW''). Under the Settlement Agreement, SCWW agrees to pay some of EPA's past response costs at the Santa Clara Waste Water Treatment Plant Emergency Removal Site, Santa Paula,
