This RFI outlines the information NIST is seeking from the public to inform the development of recommendations regarding both the Federal Voter Registration Form and other barriers it has identified that prevent people with disabilities from exercising their fundamental rights and the ability to vote privately and independently.

Responses may include any topic believed to have implications for the development of recommendations to promoting access to voting for people with disabilities, regardless of whether the topic is included in this document. Comments containing references, studies, research, and other empirical data that are not widely published should include copies of the referenced materials. NIST asks commenters to avoid including PII as NIST has no plans to redact PII from comments. Do not submit confidential business

Fishing Capacity Reduction Program for the Southeast Alaska Purse Seine Salmon Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice that the 2021 season fee rates will not change.

SUMMARY: NMFS performs an annual evaluation of the Southeast Alaska Purse Seine Salmon Fishing Capacity Reduction (Buyback) Loans. Our analysis reveals Loan A (or BBSA-001A) is currently ahead of schedule and Loan B (or BBSA-001B) is 2 years, or approximately \$410,000, behind its scheduled amortization. Due to the impact of the Covid-19 pandemic, NMFS has determined it is in the best interest of the fishery to keep the annual Buyback fee rates for both Loan A and Loan B at 1 percent for 2021. Maintaining the current fee rates will minimally impact Loan A and Loan B will receive approximately \$30,000 more than the scheduled annual amortized amount. The 2021 fishing season runs from June 1, 2021 through December 31, 2021.
