

Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to

respond to any facts or contentions made in a prohibited off-the-record communication and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40

CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. These filings are available for electronic review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the eLibrary link. #### **SUPPLEMENTARY INFORMATION:**

##### **I. General Information**

###### *A. What should I consider as I prepare my comments for EPA?*

1. **Submitting Confidential Business Information (CBI).** The EPA may publish any comment received to its public docket. Do not submit CBI information to the EPA through [www.regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to the EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the files on the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for Preparing Your Comments.** When submitting comments, remember to:

- Identify the rulemaking by docket number EPA-HQ-OAR-2021-0276 and other identifying information (subject heading, **Federal Register** date and page number).

- **Follow directions:** The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

- Describe any assumptions and provide any technical information and/or data that you used.

- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

- Provide specific examples to illustrate your concerns and suggest alternatives.

- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

- Make sure to submit your comments by the comment period deadline identified.

##### **II. Background**

MARSSIM provides information on planning, conducting, evaluating, and documenting environmental radiological surveys of surface soil and building surfaces for demonstrating compliance with regulations. MARSSIM, when finalized as Revision 2, will update this multi-agency consensus document.

MARSSIM was originally developed by the technical staffs of the four Federal agencies having authority for control of radioactive materials: DoD, DOE, EPA and NRC (60 FR 12555; March 7, 1995). The four agencies issued Revision 1 to MARSSIM in August 2000, and additional edits to Revision 1 in June 2001. MARSSIM has not been updated since 2001; updates prior to 2001 primarily consisted of minor non-technical edits. Revision 2 updates the science, clarifies methods, and implements lessons learned from over 20 years of the document's use in industry.

A summary of changes in MARSSIM Revision 2 includes the following: (1) Added measurement quality objectives (MQOs) and measurement uncertainty, (2) expanded measurement methods to include scan-only surveys, (3) updated survey instrumentation information, (4) added Scenario B ("assumed to meet the criteria until proven otherwise"), (5) increased emphasis on regulator interface during survey design, (6) improved description of the lower bound of the gray region (LBGR), (7) updated references, (8) changed English units to International System of Units (SI), (9) avoided using the term "Area Factor," (10) included additional examples in Chapter 5 and (11) reorganized Chapter 4.

The public review is a necessary step in the development of a final multi-agency consensus document. The document will also undergo concurrent, independent, scientific peer review. The draft has not been approved by the participating agencies for use, in part or in whole, and should not be used, cited, or quoted, except for the purposes of providing comments as requested.

Commenters are requested to focus on technical accuracy and understandability. Commenters are also

requested to address five questions while reviewing MARSSIM Revision 2:

(1) Do the revisions to MARSSIM provide greater clarity while maintaining a practical and implementable approach to performing environmental radiological surveys of surface soil and building surfaces?

(2) Are the revisions to MARSSIM technically accurate?

(3) Does MARSSIM Revision 2 provide useful examples and descriptions of approaches to implementing surveys and the statistics by which they are interpreted?

(4) Is the information in MARSSIM Revision 2 understandable and presented in a logical sequence? How can the presentation of material be modified to improve the understandability of the manual?

Comments may be submitted as proposed modified text, or as a discussion. Comments should be accompanied by supporting bases, rationale, or data. To ensure efficient and complete comment resolution, commenters are requested to reference the page number and the line number of MARSSIM Revision 2 to which the comment applies. Enter only the beginning page and line number, even if your comment applies to several pages or lines to follow.

Comments corresponding to an entire chapter, an entire section, or an entire table should be referenced to the line number for the title of the chapter section, or table. Comments on footnotes should be referenced to the line in the main text where the footnote is indicated. Comments on figures should be referenced to the page on which the figure appears. Figures do not have line numbers. The figure number should be included in the text of the comment. Comments on the entire manual should be referenced to the title page.

## FEDERAL COMMUNICATIONS COMMISSION

[FR ID 32686]

### Privacy Act of 1974; Matching Program

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice of a new matching program.

**SUMMARY:** In accordance with the Privacy Act of 1974, as amended (“Privacy Act”), this document announces the establishment of a computer matching program the Federal Communications Commission (“FCC” or “Commission” or “Agency”) and the Universal Service Administrative Company (USAC) will conduct with the Minnesota Department of Human Services (Department). The purpose of this matching program is to verify the eligibility of applicants to and subscribers of the Emergency Broadband Benefit Program, which is administered by USAC under the direction of the FCC, or other Federal programs that use qualification for the FCC’s Lifeline Program as an eligibility criterion. More information about this program is provided in the **SUPPLEMENTARY INFORMATION** section below.

**DATES:** Written comments are due on or before July 16, 2021. This computer matching program will commence on July 16, 2021 and will conclude 18 months after becoming effective.

**ADDRESSES:** Send comments to Margaret Drake, FCC, 45 L Street NE, Washington, DC 20554, or to [Privacy@fcc.gov](mailto:Privacy@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** Margaret Drake at 202-417-1707 or [Privacy@fcc.gov](mailto:Privacy@fcc.gov).

**SUPPLEMENTARY INFORMATION:** The Emergency Broadband Benefit Program (EBBP) was established by Congress in the Consolidated Appropriations Act of 2021, Public Law 116-260, 134 Stat. 1182. EBBP is a program that will help low-income Americans obtain discounted broadband service and one-time co-pay for a connected device (laptop, desktop computer or tablet). This program was created specifically to assist American families’ access to broadband, which has proven to be essential for work, school, and healthcare during the public health emergency that exists as a result of COVID-19. A household may qualify for the EBBP benefit under various criteria, including an individual qualifying for the FCC’s Lifeline program.

In a Report and Order adopted on March 31, 2016, the Commission ordered USAC to create a National Lifeline Eligibility Verifier (“National Verifier”), including the National Lifeline Eligibility Database (LED), that would match data about Lifeline applicants and subscribers with other data sources to verify the eligibility of an applicant or subscriber. The Commission found that the National Verifier would reduce compliance costs for Lifeline service providers, improve service for Lifeline subscribers, and reduce waste, fraud, and abuse in the program. The Consolidated Appropriations Act of 2021 directs the FCC to leverage the National Verifier to verify applicants’ eligibility for EBBP. The purpose of this matching program is to verify the eligibility of EBBP applicants and subscribers by determining whether they receive Supplemental Nutrition Assistance Program (SNAP) and Medicaid benefits administered by the Minnesota Department. Under FCC rules, consumers receiving these benefits qualify for Lifeline discounts and also for EBBP benefits.

### Participating Agencies

Minnesota Department of Human Services (Department).

### Authority for Conducting the Matching Program

Consolidated Appropriations Act of 2021, Public Law 116-260, 134 Stat. 1182; 47 CFR part 54.

### Purpose(s)

In the 2016 Lifeline Modernization Order (81 FR 33026, May 24, 2016), the FCC required USAC to develop and operate the National Verifier to improve efficiency and reduce waste, fraud, and abuse in the Lifeline program. The stated purpose of the National Verifier
