## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2021-0083; FRL-10025-10]

### Pesticide Product Registration; Receipt of Applications for New Active Ingredients—June 2021

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

**SUMMARY:** EPA has received applications to register pesticide products containing active ingredients not included in any currently registered pesticide products. Pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is hereby providing notice of receipt and opportunity to comment on these applications.

**DATES:** Comments must be received on or before July 21, 2021.

**ADDRESSES:** Submit your comments, identified by docket identification (ID) number and the File Symbol of interest as shown in the body of this document, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <https://www.epa.gov/dockets/where-send-comments-epa-dockets>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets/about-epa-dockets>.

#### FOR FURTHER INFORMATION CONTACT:

Charles Smith, Biopesticides and Pollution Prevention Division (BPPD) (7511P), main telephone number: (703) 305-7090, email address:

[BPPDFRNotices@epa.gov](mailto:BPPDFRNotices@epa.gov); The mailing address for each contact person is: Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001. As part of the mailing address, include the contact person's name, division, and mail code. The division to contact is listed at the end of each pesticide petition summary.

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

###### A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).

###### B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at

<https://www.epa.gov/dockets/commenting-epa-dockets>.

## II. Registration Applications

EPA has received applications to register pesticide products containing active ingredients not included in any currently registered pesticide products. Pursuant to the provisions of FIFRA section 3(c)(4) (7 U.S.C. 136a(c)(4)), EPA is hereby providing notice of receipt and opportunity to comment on these applications. Notice of receipt of these applications does not imply a decision by the Agency on these applications. For actions being evaluated under EPA's public participation process for registration actions, there will be an additional opportunity for public comment on the proposed decisions. Please see EPA's public participation website for additional information on this process (<http://www2.epa.gov/pesticide-registration/public-participation-process-registration-actions>).

### NOTICE OF RECEIPT—NEW ACTIVE INGREDIENTS

1. *File Symbol:* 52991-GT. *Docket ID number:* EPA-HQ-OPP-2021-0343. *Applicant:* Bedoukian Research, Inc., 6 Commerce Dr., Danbury, CT 06810. *Product name:* Bedoukian z-11-Tetradecenal Technical Pheromone. *Active ingredient:* Straight chain lepidopteran pheromone—(Z)-11-Tetradecenal at 93%. *Proposed use:* For use to manufacture end-use products intended to control: obliquebanded leafroller (*Choristoneura rosaceana*), pandemis leafroller (*Pandemis pyrusana*), fruittree leafroller (*Archips argyrosipilus*), threelined leafroller (*Pandemis limitata*), European leafroller (*Archips rosanus*), cotton bollworm (*Helicoverpa armigera*), eastern spruce budworm (*Choristoneura fumiferana*), orange tortrix (*Argyrotaenia citrana*), South American tortricid moth (*Argyrotaenia sphaleropa*), and western spruce budworm (*Choristoneura occidentalis*). *Contact:* BPPD.

2. *File Symbols:* 94614-E and 94614-R. *Docket ID number:* EPA-HQ-OPP-2021-0271. *Applicant:* GreenLight Biosciences, Inc. 200 Boston Ave., Suite 1000, Medford, MA 02155. *Product names:* GS2 Formulation and GS2 Technical. *Active ingredient:* Insecticide—Ledprona (Cas No. 2433753-68-3) at 0.8% and 1.4%. *Proposed use:* For use on all agricultural commodities and food products and for manufacturing use. *Contact:* BPPD.

Authority: 7 U.S.C. 136 *et seq.*

Dated: June 8, 2021.

### National Oceanic and Atmospheric Administration

[RTID 0648-XB160]

#### Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to the U.S. Navy Target and Missile Launch Activities on San Nicolas Island

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; issuance of an incidental harassment authorization.

**SUMMARY:** In accordance with the regulations implementing the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that NMFS has issued an incidental harassment authorization (IHA) to the U.S. Navy (Navy) to incidentally harass, by Level B harassment only, marine mammals during target and missile launch activities on San Nicolas Island (SNI), California. The Navy's activities are considered military readiness activities pursuant to the MMPA, as amended by the National Defense Authorization Act for Fiscal Year 2004 (NDAA).

**DATES:** This Authorization is effective from June 12, 2021 through June 11, 2022.

**FOR FURTHER INFORMATION CONTACT:** Stephanie Egger, Office of Protected Resources, NMFS, (301) 427-8401. Electronic copies of the original application and supporting documents (including NMFS **Federal Register** notices of the original proposed and final authorizations, and the previous IHA), as well as a list of the references cited in this document, may be obtained online at: <https://www.fisheries.noaa.gov/permit/incidental-take-authorizations-under-marine-mammal-protection-act>. In case of problems accessing these documents, please call the contact listed above.

#### SUPPLEMENTARY INFORMATION:

##### Background

The MMPA prohibits the "take" of marine mammals, with certain

exceptions. Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed incidental take authorization may be provided to the public for review.

Authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for taking for subsistence uses (where relevant). Further, NMFS must prescribe the permissible methods of taking and other "means of effecting the least practicable adverse impact" on the affected species or stocks and their habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of such species or stocks for taking for certain subsistence uses (referred to in shorthand as "mitigation"); and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth.

The NDAA (Pub. L. 108-136) removed the "small numbers" and "specified geographical region" limitations indicated above and amended the definition of "harassment" as it applies to a "military readiness activity." The activity for which incidental take of marine mammals is being requested addressed here qualifies as a military readiness activity.

##### History of Request

On March 1, 2021, NMFS received an adequate and complete application from the Navy, requesting the take of marine mammals incidental to target and missile launch activities on SNI. NMFS previously issued an IHA for this activity on June 12, 2019 (84 FR 28462; June 19, 2019) as well as a renewal IHA on June 19, 2020 (85 FR 38863; June 29, 2020). The activities for which incidental take is authorized are identical to those covered under the previous IHAs.

Navy complied with all the requirements (*e.g.*, mitigation, monitoring, and reporting) of the previous authorizations and information regarding their monitoring results may be found in the Potential Effects of Specified Activity on Marine Mammals

and their Habitat and Estimated Take section of the previous authorization (84 FR 28462; June 19, 2019) as well <https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-military-readiness-activities#active-authorizations>. This IHA would cover 1 year of an on-going activity for which Navy obtained prior authorizations, specifically continuation of target and missile launches on SNI. Of note, the Navy also submitted a revised and complete application on August 28, 2020 for a 7-year rulemaking and Letter of Authorization (LOA) for the same target and missile launch activities on SNI, as well as other Navy testing and training activities in the same area. On September 4, 2020, NMFS published a notice of receipt of application in the **Federal Register** (85 FR 55257) requesting comments and information related to the Navy's request. However, NMFS is unable to make determinations regarding the requested LOA prior to the expiration of the currently active renewal IHA, which would leave a lapse in coverage for the Navy for target and missile launch activities on SNI after it expires on June 11, 2021. This IHA is intended to provide coverage during this period and is valid for one year from June 12, 2021 through June 11, 2022.

##### Description of the Planned Activity and Anticipated Impacts

The Navy plans to continue a target and missile launch program on SNI, located in Southern California and part of the Channel Islands, which is identical to the program covered under the previous authorizations. The Navy has been conducting this program since 2001, which supports testing and training activities associated with operations on the Point Mugu Sea Range (PMSR). The PMSR is used by the U.S. and allied military services to test and evaluate sea, land, and air weapon systems; to provide realistic training opportunities; and to maintain operational readiness of these forces. Missiles vary from tactical and developmental weapons to target missiles used to test defensive strategies and other weapons systems. Some launch events involve a single missile, while others involve the launch of multiple missiles in quick succession and are launched from two launch sites on SNI. As before, the Navy proposes to conduct up to 40 missile launch events from SNI, but the total may be less than 40 depending on operational requirements. Launch timing will be determined by operational, meteorological, and logistical factors. Up to 10 of the 40 launches may occur
