

# Proposed Rules

Federal Register

Vol. 86, No. 116

Monday, June 21, 2021

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA–R02–OAR–2020–0613; FRL–10024–96 Region 2]

#### Approval and Promulgation of Implementation Plans; New Jersey and New York; 1997 Ozone Attainment Demonstrations for the NY-NJ-CT Nonattainment Area

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing to approve revisions to the ozone attainment portions of the State Implementation Plan (SIP) submitted by the states of New Jersey and New York to meet the Clean Air Act (CAA) requirements for attaining the 1997 8-hour ozone national ambient air quality standard (NAAQS). Specifically, the EPA is proposing to approve New Jersey's and New York's

demonstrations of attainment of the 1997 8-hour ozone NAAQS for their portions of the New York-Northern New Jersey-Long Island NY-NJ-CT Moderate 1997 8-hour ozone nonattainment area (hereafter, the NY-NJ-CT area or the NY-NJ-CT nonattainment area). This action is being taken under the Clean Air Act.

**DATES:** Written comments must be received on or before July 21, 2021.

**ADDRESSES:** Submit your comments, identified by Docket ID Number EPA–R02–OAR–2020–0613 at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

**FOR FURTHER INFORMATION CONTACT:** Omar Hammad, Environmental Protection Agency, 290 Broadway, New York, New York 10007–1866, at (212) 637–3347, or by email at [Hammad.Omar@epa.gov](mailto:Hammad.Omar@epa.gov).

#### SUPPLEMENTARY INFORMATION:

- I. What action is the EPA proposing?
- II. What is the background for this proposed rulemaking?
  - A. History of NY-NJ-CT Nonattainment Area
  - B. Moderate Nonattainment Area and Anti-Backsliding Requirements
- III. What is the EPA proposing to approve?
- IV. What is the EPA's basis for proposing to approve the 1997 attainment demonstration analysis?
  - A. Air Quality Data and Attainment Determinations
  - B. Components of the Modeled Attainment Demonstrations

- C. The EPA's Evaluation
- V. Proposed Action
- VI. Statutory and Executive Order Reviews

#### I. What action is the EPA proposing?

##### A. History of NY-NJ-CT Nonattainment Area

The Environmental Protection Agency (EPA) is proposing to approve the ozone attainment demonstration portions of the comprehensive State Implementation Plan (SIP) revisions submitted by New Jersey and New York to meet Clean Air Act requirements for attaining the 1997 84 parts per billion (ppb) 8-hour ozone National Ambient Air Quality Standards (NAAQS). New Jersey submitted its SIP revision to the EPA on January 2, 2018<sup>1</sup> and New York submitted its SIP revision to the EPA on November 13, 2017.<sup>2</sup> New Jersey and New York previously submitted attainment demonstrations for the 1997 84 ppb 8-hour ozone standard which were approved by the EPA. 78 FR 9596 (February 11, 2013). On June 18, 2012, the EPA issued a Clean Data Determination (CDD) for the 1997 84 ppb 8-hour ozone standard for the NY-NJ-CT area based on the attainment demonstrations submitted by the two States. 77 FR 36163 (March 26, 2012). However, on May 4, 2016, EPA rescinded the CDD since EPA determined that areas within the NY-NJ-CT area exceeded the 1997 84 ppb standard based on 2010–2012 monitoring data. 81 FR 26697 (May 4, 2016). EPA simultaneously issued a SIP Call for the affected states within the nonattainment area to address the 1997 84 ppb 8-hour ozone standard. The SIP revisions submitted by New Jersey and New York address the attainment demonstration requirements of the May 4, 2016 SIP Call. The EPA's review of this material indicates that ambient air quality monitors within the NY-NJ-CT area are attaining the 1997 ozone NAAQS.

#### II. What is the background for this proposed rulemaking?

In 1997, the EPA revised the health-based NAAQS for ozone, setting it at 84 ppb (parts per billion) averaged over an 8-hour time frame. The EPA set the 8-hour ozone standard based on scientific

<sup>1</sup> Submittal letter dated December 22, 2017 and received by the EPA January 2, 2018.

<sup>2</sup> Submittal letter dated November 10, 2017 and received by the EPA November 13, 2017.
