FOR FURTHER INFORMATION CONTACT: Lona Saccomando, 703-235-5263, CISARegulations@cisa.dhs.gov.

SUPPLEMENTARY INFORMATION: The CFATS Program identifies chemical facilities of interest and regulates the security of high-risk chemical facilities through a risk-based approach. The CFATS Program is authorized under the Protecting and Securing Chemical Facilities from Terrorist Attacks Act of 2014¹ or "CFATS Act of 2014". CISA collects necessary information through 1670-0014 to implement CFATS.

CISA's Methodology in Estimating the Burden for the Request for Redetermination

This instrument collects information to support a facility's request for redetermination of high-risk which CISA is obligated to perform pursuant to the CFATS Act of 2014. The collection of information may be concurrent with a facility's submission of a Top-Screen pursuant to 6 CFR 27.210(d) or collected after CISA reviews a Top-Screen that reflects material modifications made by the facility. This instrument authorizes CISA to collect both the reason for the redetermination as well as supporting documentation.

CISA is proposing minor revisions to the instrument that reflect the passage of the Cybersecurity and Infrastructure Security Act of 2018, 6 U.S.C. 651-74, such as updating the Agency name to

¹ The Protecting and Securing Chemical Facilities from Terrorist Attacks Act of 2014 (also known as the CFATS Act of 2014, Pub. L. 113-254) codified the CFATS program into the Homeland Security Act of 2002. See 6 U.S.C. 621 *et seq.*, as amended by Public Law 116-136, Sec. 16007 (2020).

conform with the Agency's new designation as CISA, as well as a clearer description of the scope of the instrument. The scope of this instrument remains unchanged.

Number of Respondents

The current information collection estimated that 625 respondents would submit a request for a Request for Redetermination annually. Based on data collected between CY 2018-2020, 215 respondents, on average, submitted a Request for Redetermination annually. Because of the historical pattern of lower submissions over the past three years, CISA proposes to decrease the estimated number of respondents from 625 to 250 respondents. CISA will retain the number of responses per respondent of 1.0.

Estimated Time per Respondent

In the current information collection, the estimated time per respondent to prepare and submit a Request for Redetermination is 0.25 hours (15 minutes). CISA continues to believe this is a reasonable burden estimate for this instrument.

Annual Burden Hours

The annual burden hours for a Request for Redetermination is [0.25 hours × 250 respondents × 1 response per respondent], which equals 62.5 hours.

Total Capital/Startup Burden Cost

CISA provides access to CSAT free of charge and assumes that each respondent already has computer hardware and access to the internet for basic business needs. Therefore, there are no annualized capital or start-up costs incurred by chemical facilities of interest or high-risk chemical facilities for this information collection.

Total Recordkeeping Burden

There are no recordkeeping burden costs incurred by chemical facilities of interest or high-risk chemical facilities for this information collection.²

Total Annual Burden Cost

CISA assumes that Site Security Officers (SSOs) are responsible for submitting a Request for Redetermination. For the purpose of this notice, CISA maintains this assumption.

Therefore, to estimate the total annual burden, CISA multiplied the annual burden of 62.5 hours by the average hourly wage rate of SSOs which is

² The recordkeeping burden for facilities under CFATS is accounted for by CISA under the CSAT Information Collection No. 1670-0007.
