

requirements for a voluntary request for a facilitated merger under section 4231(e) of ERISA, including a financial assistance merger.

PBGC uses information submitted by plan sponsors under the regulation to determine whether mergers and transfers conform to the requirements of ERISA section 4231 and the regulation.

The collection of information under the regulation has been approved by OMB under control number 1212-0022 (expires November 30, 2021). PBGC intends to request that OMB extend its approval for another 3 years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that there are 14 transactions each year (excluding financial assistance mergers). The estimated annual burden of the collection of information for 14 transactions (excluding financial assistance mergers) is 14 fund office hours and \$84,400 in contractor costs for work by attorneys and actuaries. PBGC further estimates that there is one request each year for a financial assistance merger. The annual burden of the collection of information for financial assistance mergers is 10 fund office hours and \$36,000 in contractor costs. The total annual burden of the collection of information is approximately 24 fund office hours and \$120,400 in contractor costs.

PBGC is soliciting public comments to—

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
