1. On page 30460, in Table 1, remove the complete entries for “10163-41, 10163-225, 10163-242, 10163-243, and FL000011.”
2. Insert the following table below Table 1.

TABLE 1A—PRODUCT CANCELLATIONS

EPA Registration No.	Product name	Active ingredients
10163-41	Prokil Cryolite 96	Cryolite.
10163-225	Gowan Cryolite Bait	Cryolite.
10163-242	Prokil Cryolite 75-Dust	Cryolite.

Prior to the issuance of the cancellation order, the registrant of the five cryolite product registrations in Table 1A, requested the cancellations to be effective on September 30, 2022. The Agency intended to accept this effective cancellation date, but inadvertently neglected to separate out these products with the correct effective date in the prior cancellation order. In addition, as requested, the registrant may continue to sell and distribute existing stocks of the cryolite products listed in Table 1A of Unit II. until March 31, 2024, which is 18 months after the effective date of the cancellations. Persons other than the registrants may sell, distribute, or use existing stocks of products listed in Table 1A of Unit II. until exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

Atrazine, Simazine, and Malathion; Notice of Receipt of Requests to Voluntarily Cancel Certain Pesticide Registrations and/or Amend Registrations To Terminate Certain Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is issuing a notice of receipt of requests by the registrants to voluntarily cancel their registrations of certain products containing the pesticides atrazine and simazine, and/or to amend their atrazine, simazine, or malathion product registrations to terminate or delete one or more uses. The requests would delete atrazine use in or on roadsides; Conservation Reserve Program (CRP) land; conifers, including Christmas tree plantings; timber and forestry; and miscanthus and other perennial bioenergy crops. The requests would delete simazine use in or on shelterbelts and all forestry uses except for

Christmas tree plantings. The requests would delete malathion use as a mosquito larvicide and in or on cull piles (including the terms cull dumps, fruit dumps, and cull fruit and vegetable dumps). The requests are limited to the product registrations specified in this notice and would not terminate all of the atrazine, simazine, or malathion products registered for use in the United States. EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrants withdraw their requests. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registrations have been cancelled/uses deleted only if such sale, distribution, or use is consistent with the terms as described in the final order. **DATES:** Comments must be received on or before July 23, 2021.
