- (1) Name of substance;

(i) The automated system maintains the information required in paragraph (a);

(ii) The automated system has the capability of producing a hard copy printout of the program’s dispensing records;

(iii) The NTP or its mobile component prints a hard copy of each day’s dispensing log, which is then initialed appropriately by each person who dispensed medication to the program’s patients;

(iv) The automated system is approved by DEA;

(v) The NTP or its mobile component maintains an off-site back-up of all computer generated program information; and

(vi) The automated system is capable of producing accurate summary reports for both the registered site of the NTP and any mobile component, for any time-frame selected by DEA personnel during an investigation. If these summary reports are maintained in hard copy form, they must be kept in a systematically organized file located at the registered site of the NTP.

(2) The NTP must retain all records for the NTP as well as any mobile component two years from the date of execution, in accordance with § 1304.04(a). However, if the State in which the NTP is located requires that records be retained longer than two years, the NTP should contact its State opioid treatment authority for information about State requirements.
