Methodology

Commerce is conducting this CVD administrative review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found countervailable, we preliminarily determine that there is a subsidy, *i.e.*, a financial contribution by an “authority” that confers a benefit to the recipient, and that the subsidy is specific.¹⁰ For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum.

Rate for Non-Selected Companies Under Review

To determine the rate for companies not selected for individual examination, Commerce’s practice is to follow the instructions to calculate the all-others rate under section 705(c)(5) of the Act and weight average the net subsidy rates for the selected mandatory companies, excluding rates that are zero, *de minimis*, or based entirely on facts available.¹¹ In this review, we preliminarily calculated a *de minimis* subsidy rate for the sole mandatory respondent (*i.e.*, Hyundai Steel) during the POR. In CVD proceedings, where the number of respondents being individually examined has been limited, Commerce has determined that a “reasonable method” to use to determine the rate applicable to companies that were not individually examined when all the rates of selected mandatory respondents are zero or *de minimis* is to assign to the non-selected respondents the average of the most recently determined rates that are not zero, *de minimis*, or based entirely on facts available.¹² However, if a non-selected respondent has its own calculated rate that is contemporaneous with or more recent than such previous rates, Commerce has found it appropriate to apply that calculated rate to the non-selected respondent, even when that rate is zero or *de minimis*.¹³

¹⁰ See sections 771(5)(B) and (D) of the Act regarding financial contribution; section 771(5)(E) of the Act regarding benefit; and section 771(5A) of the Act regarding specificity.

¹³ See *Steel Concrete Reinforcing Bar from the Republic of Turkey: Preliminary Results of*

In the most recently completed administrative review of this order, we calculated a net subsidy rate of 0.28 percent *ad valorem* for DSM. Therefore, consistent with Commerce’s practice, described above, we are assigning the rate of 0.28 percent *ad valorem* to DSM, based on the company’s rate calculated in the prior review.¹⁴

With regard to the two other remaining non-selected companies, for which an individual rate was not calculated, we are assigning the rate of 0.50 percent *ad valorem*, which is the only above *de minimis* rate calculated in the most recently completed administrative review.¹⁵

Preliminary Results of Review

As a result of this review, we preliminarily determine the following net countervailable subsidy rates for the period January 1, 2019, through December 31, 2019:

Company	Net countervailable subsidy rate (percent)
Hyundai Steel Co., Ltd	* 0.45
Dongkuk Steel Mill Co., Ltd	* 0.28
BDP International	0.50
Sung Jin Steel Co., Ltd	0.50

* *de minimis*.

Assessment Rate

In accordance with 19 CFR 351.221(b)(4)(i), Commerce has preliminarily assigned subsidy rates as indicated above. Consistent with section 751(a)(2)(C) of the Act, upon issuance of the final results, Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, countervailing duties on all appropriate entries covered by this review. Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Rate

Pursuant to section 751(a)(2)(C) of the Act, Commerce intends to instruct CBP to collect cash deposits of estimated countervailing duties in the amount indicated above with regard to shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this review. For all non-reviewed firms, we will instruct CBP to continue to collect cash deposits of estimated countervailing duties at the most recent company-specific or all-others rate applicable to the company, as appropriate. These cash deposit instructions, when imposed, shall remain in effect until further notice.

Disclosure and Public Comment

Commerce intends to disclose to parties to this proceeding the calculations performed in reaching the preliminary results within five days after the date of publication of this notice in the **Federal Register**.¹⁶ Commerce intends to issue a post-preliminary analysis memorandum subsequent to the publication of this notice. Commerce will notify the parties to this proceeding of the deadlines for the submission of case and rebuttal briefs after the issuance of the post-preliminary analysis memorandum. Parties who submit case or rebuttal briefs are requested to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.¹⁸ Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information, until further notice.¹⁹

Interested parties who wish to request a hearing must do so within 30 days of publication of these preliminary results by submitting a written request to the Assistant Secretary for Enforcement and Compliance using ACCESS.²⁰ Requests should contain the party’s name, address, and telephone number, the number of participants, whether any participant is a foreign national, and a list of the issues to be discussed. Welded Line Pipe From the Republic of Korea and the Republic of Turkey: Continuation of Antidumping and Countervailing Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC) that revocation of the antidumping duty

(AD) and countervailing duty (CVD) orders on welded line pipe from the Republic of Korea (Korea) and the Republic of Turkey (Turkey) would likely lead to continuation or recurrence of dumping, net countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of these AD and CVD orders.

DATES: Applicable June 30, 2021.

FOR FURTHER INFORMATION CONTACT:

Amaris Wade, Office II, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3874.

SUPPLEMENTARY INFORMATION:

Background

On December 1, 2015, Commerce published the AD orders on welded line pipe from Korea and Turkey,¹ and the CVD order on welded line pipe from Turkey.² On November 2, 2020, the ITC instituted,³ and on November 3, 2020, Commerce initiated,⁴ the first five-year (sunset) reviews of the *AD Orders* and the *CVD Order*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its reviews, Commerce determined that revocation of the *AD Orders* would be likely to lead to continuation or recurrence of dumping, and revocation of the *CVD Order* would be likely to lead to continuation or recurrence of countervailable subsidies. Therefore, Commerce notified the ITC of the magnitude of the margins of dumping and the net subsidy rates likely to prevail should the *AD Orders* and the *CVD Order* be revoked.⁵

On June 24, 2021, the ITC published its determinations, pursuant to sections 751(c) and 752(a) of the Act, that

revocation of the *AD Orders* and the *CVD Order* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁶

Scope of the Orders

The scope of these orders is circular welded carbon and alloy steel (other than stainless steel) pipe of a kind used for oil or gas pipelines (welded line pipe), not more than 24 inches in nominal outside diameter, regardless of wall thickness, length, surface finish, end finish, or stenciling. Welded line pipe is normally produced to the American Petroleum Institute (API) specification 5L, but can be produced to comparable foreign specifications, to proprietary grades, or can be non-graded material. All pipe meeting the physical description set forth above, including multiple-stenciled pipe with an API or comparable foreign specification line pipe stencil is covered by the scope of these orders.

The welded line pipe that is subject to these orders is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 7305.11.1030, 7305.11.5000, 7305.12.1030, 7305.12.5000, 7305.19.1030, 7305.19.5000, 7306.19.1010, 7306.19.1050, 7306.19.5110, and 7306.19.5150. The subject merchandise may also enter in HTSUS 7305.11.1060 and 7305.12.1060. While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of these orders is dispositive.

Continuation of the Orders

As a result of the determinations by Commerce and the ITC that revocation of the *AD Orders* and the *CVD Order* would likely lead to a continuation or a recurrence of dumping, countervailable subsidies, and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), Commerce hereby orders the continuation of the *AD Orders* and the *CVD Order*. U.S. Customs and Border Protection will continue to collect AD and CVD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.
