### Appendix I—Scope of the Investigation

The merchandise covered by the scope of this investigation is seamless carbon and alloy steel (other than stainless steel) pipes and redraw hollows, less than or equal to 16 inches (406.4 mm) in nominal outside diameter, regardless of wall-thickness, manufacturing process (e.g., hot-finished or cold-drawn), end finish (e.g., plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish (e.g., bare, lacquered or coated). Redraw hollows are any unfinished carbon or alloy steel (other than stainless steel) pipe or “hollow profiles” suitable for cold finishing operations, such as cold drawing, to meet the American Society for Testing and Materials (ASTM) or American Petroleum Institute (API) specifications referenced below, or comparable specifications. Specifically included within the scope are seamless carbon and alloy steel (other than stainless steel) standard, line, and pressure pipes produced to the ASTM A–53, ASTM A–106, ASTM A–333, ASTM A–334, ASTM A–589, ASTM A–795, ASTM A–1024, and the API 51 specifications, or comparable specifications, and meeting the physical parameters described above, regardless of application, with the exception of the exclusions discussed below.

Specifically excluded from the scope of the investigation are: (1) All pipes meeting aerospace, hydraulic, and bearing tubing specifications, including pipe produced to the ASTM A–822 standard; (2) all pipes meeting the chemical requirements of ASTM A–335, whether finished or unfinished; and (3) unattached couplings. Also excluded from the scope of the investigation are (1) all mechanical, boiler, condenser and heat exchange tubing, except when such products conform to the dimensional requirements, i.e., outside diameter and wall thickness, of ASTM A53, ASTM A–106 or API 51 specifications. Also excluded from the scope of the investigation are: (1) Oil country tubular goods consisting of drill pipe, casing, tubing and coupling stock; (2) all pipes meeting the chemical requirements of ASTM A–335 regardless of their conformity to the dimensional requirements of ASTM A–53, ASTM A–106 or API 5L; and (3) the exclusion for ASTM A335 applies to pipes meeting the comparable specifications GOST 550–75.

We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. Public comments were previously requested via the **Federal Register** on March 18, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

*Agency:* International Trade Administration, Department of Commerce.

*Title:* Survey of International Air Travelers (SIAT).

*OMB Control Number:* 0625–0227.

*Form Number(s):* None.

*Type of Request:* Regular submission.

*Number of Respondents:* 300,000.

*Average Hours per Response:* 15 minutes.

*Burden Hours:* 75,000.

*Needs and Uses:* The Survey of International Air Travelers (SIAT)

program, administered by the National Travel and Tourism Office (NTTO) of the International Trade Administration provides source data required to: (1) Estimate international travel and passenger fare exports, imports, and the trade balance for the United States, (2) comply with the U.S. Travel Promotion Act of 2009 (Pub. L. 111–145), collect, analyze, and report information to the Corporation for Travel Promotion (CTP), and support U.S. exports, (3) comply with the 1945, 1961, 1981, and 1996 travel and tourism related acts to collect and publish comprehensive international travel and tourism statistics and other marketing information, and (4) support the continuation of the Travel & Tourism Satellite Accounts for the United States, which provide the only spending and employment figures for the industry. The SIAT program contains the core data that is analyzed and communicated by NTTO with other government agencies, associations and businesses that share the same objective of increasing U.S. international travel exports. The SIAT assists NTTO in assessing the economic impact of international travel on state and local economies, providing visitation estimates, key market intelligence, and identifying traveler and trip characteristics. The U.S. Department of Commerce assists travel industry enterprises to increase international travel and passenger fare exports for the country as well as outbound travel on U.S. carriers. The Survey program provides the only available estimates of nonresident visitation to the states and cities within the United States, as well as U.S. resident travel abroad. The SIAT also assists NTTO in producing in-depth statistical reports, fact sheets and briefings on economic factors and policy issues affecting U.S. industries. With the SIAT statistical data not replicable by private sector trade associations or by private firms, Federal agencies, Congress and international organizations rely on these statistic-based tools, as do American businesses, state and local governments, and news organizations.

#### Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe From Ukraine: Final Affirmative Determination of Sales at Less Than Fair Value

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (Commerce) determines that imports of seamless carbon and alloy steel standard, line, and pressure pipe (seamless pipe) from Ukraine are being, or are likely to be, sold in the United States at less than fair value (LTFV) for the period of investigation, July 1, 2019, through June 30, 2020.

**DATES:** Applicable July 2, 2021.

**FOR FURTHER INFORMATION CONTACT:** Lilit Astvatsatrian, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–6412.

**SUPPLEMENTARY INFORMATION:**

#### Background

On February 10, 2021, Commerce published in the *Federal Register* its preliminary affirmative determination in the LTFV investigation of seamless pipe from Ukraine.<sup>1</sup> Commerce invited

<sup>1</sup> See *Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from Ukraine: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Extension of Provisional Measures*, 86 FR 8889 (February 10, 2021) (*Preliminary Determination*),

interested parties to comment on the *Preliminary Determination*. The mandatory respondent in this investigation is Interpipe, the collapsed entity which includes Interpipe Ukraine LLC (Interpipe Ukraine), PJSC Interpipe Niznedneprovskiy Tube Rolling Plant (NTRP), and LLC Interpipe Niko Tube (Niko Tube). For a complete description of the events that followed the *Preliminary Determination*, see the Issues and Decision Memorandum.<sup>2</sup> The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/fjn>.

#### Scope of the Investigation

The products covered by this investigation are seamless pipe from Ukraine. For a complete description of the scope of this investigation, see Appendix I.

#### Scope Comments

We did not receive comments from interested parties on the Preliminary Scope Decision Memorandum.<sup>3</sup> As discussed in the Preliminary Scope Decision Memorandum, Commerce codified the scope language as it appeared in the *Initiation Notice* to clarify certain exclusions. See the scope in Appendix I to this notice.

#### Analysis of Comments Received

All issues raised in the case and rebuttal briefs that were submitted by parties in this investigation are addressed in the Issues and Decision Memorandum. A list of the sections of the Issues and Decision Memorandum are in Appendix II of this notice.

#### Verification

Commerce was unable to conduct on-site verification of the information relied upon in making its final

and accompanying Preliminary Decision Memorandum.

<sup>2</sup> See Memorandum, “Issues and Decision Memorandum for the Final Affirmative Determination in the Less Than Fair Value Investigation of Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from Ukraine,” dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

<sup>3</sup> See Memorandum, “Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from the Czech Republic, the Republic of Korea, the Russian Federation, and Ukraine: Preliminary Scope Decision Memorandum,” dated January 13, 2021 (Preliminary Scope Decision Memorandum).

determination in this investigation. However, we took additional steps in lieu of an on-site verification to verify the information relied upon in making this final determination, in accordance with section 782(i) of the Tariff Act of 1930, as amended (the Act).<sup>4</sup>

#### Changes Since the Preliminary Determination

Based on our review and analysis of the comments received from parties and our findings related to our request for information in lieu of verification, we made certain changes to our calculations of the dumping margin for the sole respondent, Interpipe. For a complete discussion of these changes, see the Issues and Decision Memorandum and Final Analysis Memorandum.<sup>5</sup>

#### All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated weighted-average dumping margin for all other producers and exporters not individually investigated shall be equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated excluding rates that are zero, *de minimis*, or determined entirely under section 776 of the Act. Pursuant to section 735(c)(5)(B) of the Act, if the estimated weighted-average dumping margins established for all exporters and producers individually examined are zero, *de minimis* or determined based entirely on facts otherwise available, Commerce may use any reasonable method to establish the estimated weighted-average dumping margin for all other producers or exporters.

Because the only individually calculated dumping margin is not zero, *de minimis*, or based entirely on facts otherwise available, we assigned the estimated weighted-average dumping margin calculated for Interpipe to all other producers and exporters of subject merchandise, pursuant to section 735(c)(5)(A) of the Act.

#### Final Determination

The final estimated weighted-average dumping margins are as follows:
