ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2019-0578; FRL-10004-31]

Approvals and Denials of Test Marketing Exemptions for Certain New Chemicals Under TSCA

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This document provides notification of EPA's approvals and denials of applications for test marketing exemptions (TMEs) submitted under the Toxic Substances Control Act (TSCA) for certain new chemicals. The test marketing conditions are described in the TME applications and in this document.

FOR FURTHER INFORMATION CONTACT: For technical information contact: Meg Victor, New Chemicals Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 343-9193; email address: victor.meg@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action may be of interest to the chemical manufacturers and/or importers who submitted the TMEs to EPA and to the public in general. The Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPPT-2019-0578, is available at <http://www.regulations.gov> or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William

Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPPT Docket is (202) 566-0280.

Please note that due to the public health emergency the EPA Docket Center (EPA/DC) and Reading Room was closed to public visitors on March 31, 2020. Our EPA/DC staff will continue to provide customer service via email, phone, and webform. For further information on EPA/DC services, docket contact information and the current status of the EPA/DC and Reading Room, please visit <https://www.epa.gov/dockets>.

II. What is the Agency's authority for taking this action?

TSCA section 5(h)(1) authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture (which includes import) new chemicals for test marketing purposes, if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the chemicals for test marketing purposes will not present any unreasonable risk of injury to health or the environment, including an unreasonable risk to a potentially exposed or susceptible subpopulation identified by the Administrator for the specific conditions of use identified in the applications. The requirement to consider risks to a potentially exposed or susceptible subpopulation was added to TSCA section 5(h)(1) in 2016. EPA's regulations implementing TSCA section 5(h)(1) are found at 40 CFR 720.38.

TSCA section 5(h)(6) requires EPA to publish in the **Federal Register** notice of receipt of an application for a TME and of the disposition of the application. The implementing regulation (40 CFR 720.38(d)) indicates that EPA will publish a notice in the **Federal Register** explaining the reasons for approval or denial.

III. What action is the Agency taking?

EPA is publishing this document to announce TME approvals and denials. EPA determined that test marketing the new chemicals, under the conditions in the TME applications, will not present any unreasonable risk of injury to health or the environment; the Agency approved the TMEs listed in Unit IV. For those TMEs for which EPA made this approval after TSCA was amended in June 2016 by the Lautenberg Chemical Safety for the 21st Century

Act, EPA's determination included an assessment of unreasonable risk to a potentially exposed or susceptible subpopulation identified by the Agency for the specific conditions of use identified in the applications.

EPA has denied the following TMEs because EPA was unable to determine that test marketing the new chemicals, under the conditions in the TME applications will not present any unreasonable risk of injury to health or the environment. For those TMEs for which EPA made this denial after TSCA was amended in June 2016, EPA's determination included an assessment of unreasonable risk to a potentially exposed or susceptible subpopulation identified by the Agency for the specific conditions of use identified in the applications.

EPA may impose restrictions considered appropriate by the Agency on test marketing activities and may modify or revoke this test marketing exemption upon receipt of any information that indicates the test marketing activity may present an unreasonable risk of injury to health and the environment. The following additional restrictions apply to these TMEs: A bill of lading accompanying each shipment must state that the use of the chemical is restricted to that approved in the TME. In addition, the applicant shall maintain the following records for 5 years after the date they are created, and shall make them available for inspection or copying in accordance with TSCA section 11:

1. Records of the quantity of the TME chemical produced and the date of manufacture.

2. Records of dates of the shipments to each customer and the quantities supplied in each shipment.

3. Copies of the bill of lading that accompanies each shipment of the TME chemical.

V. What was EPA's risk assessment for these approved TMEs?

EPA did not identify unreasonable health or environmental risks for the test market chemicals under the intended conditions of use described in the TME applications. Therefore, the test market activities will not present any unreasonable risk of injury to human health or the environment, including an unreasonable risk to a potentially exposed or susceptible subpopulation identified by the Administrator for the specific conditions of use identified in the applications.

VI. Can EPA change its decision on these approved TMEs in the future?

The Agency reserves the right to rescind approval or modify the conditions and restrictions of an exemption upon the receipt or evaluation of any information, new or existing, that indicates the test marketing activities may present an unreasonable risk of injury to human health or the environment.

Authority: 15 U.S.C. 2601 *et seq.*

Dated: June 11, 2021.

Request for Nominations for the Science Advisory Board 2021 Scientific and Technological Achievement Awards Panel

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office requests public nominations of scientific experts to form the SAB 2021 Scientific and Technological Achievement Awards (STAA) Panel.

DATES: Nominations should be submitted by July 27, 2021 per the instructions below.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this notice and request for nominations may contact Dr. Holly Stallworth, Designated Federal Officer (DFO), EPA Science Advisory Board Staff Office by telephone/voice

mail (202) 564-2073 or email at stallworth.holly@epa.gov. General information concerning the EPA SAB can be found at the EPA SAB website at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: The SAB (42 U.S.C. 4365) is a chartered Federal Advisory Committee that provides independent scientific and technical peer review, advice, and recommendations to the EPA Administrator on the technical basis for EPA actions. As a Federal Advisory Committee, the SAB conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C. app. 2) and related regulations. The SAB Staff Office is forming the 2021 STAA Panel, under the auspices of the Chartered SAB. The 2021 STAA Panel will provide advice through the chartered SAB. The SAB and the 2021 STAA Panel will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

The EPA established the STAA in 1980 to recognize Agency scientists and engineers who published their work in the peer-reviewed literature. The STAA Program is an agency-wide competition to promote and recognize scientific and technological achievements by EPA employees. The STAA program is administered and managed by the EPA's Office of Research and Development (ORD). Each year the SAB has been asked to review the EPA's STAA nominations and make recommendations to the Administrator for monetary awards.

Request for Nominations: The SAB Staff Office is seeking nominations of nationally and internationally recognized scientists with demonstrated expertise in the following disciplines as they relate to human health and the environment: *Air pollution exposure; chemical engineering; civil and environmental engineering; decision science; ecology; environmental economics; groundwater and surface water contaminant fate and transport; human health effects and risk assessment; monitoring and measurement methods for air and water; risk management; transport and fate of contaminants; water quality; and water and wastewater treatment processes.* The SAB Staff Office is especially interested in scientists and engineers with expertise described above who have knowledge and experience in *air quality; aquatic and ecological toxicology; chemical safety; community environmental health; dosimetry and inhalation toxicology; drinking water; ecological modeling; ecological risk assessment; ecosystem restoration;*

ecosystem services; energy and the environment; epidemiology; green chemistry; homeland security; human health dosimetry; mechanisms of toxicity and carcinogenicity; metabolism; statistics; sustainability; toxicokinetics; toxicology; waste and waste management; and water re-use.

Process and Deadline for Submitting Nominations: Any interested person or organization may nominate qualified individuals in the areas of expertise described above for possible service on the 2021 STAA Committee. Individuals may self-nominate. Nominations should be submitted in electronic format (preferred) following the instructions for "Nominating Experts to Advisory Panels and Ad Hoc Committees Being Formed," provided on the SAB website (see the "Nomination of Experts" link under "Current Activities" at <http://www.epa.gov/sab>). To be considered, nominations should include the information requested below. EPA values and welcomes diversity. All qualified candidates are encouraged to apply regardless of sex, race, disability or ethnicity. Nominations should be submitted in time to arrive no later than July 27, 2021.

The following information should be provided on the nomination form: Contact information for the person making the nomination; contact information for the nominee; and the disciplinary and specific areas of expertise of the nominee. Nominees will be contacted by the SAB Staff Office and will be asked to provide a recent curriculum vitae and a narrative biographical summary that includes: Current position, educational background; research activities; sources of research funding for the last two years; and recent service on other national advisory committees or national professional organizations. Persons having questions about the nomination procedures, or who are unable to submit nominations through the SAB website, should contact the DFO at the contact information noted above. The names and biosketches of qualified nominees identified by respondents to this **Federal Register** notice, and additional experts identified by the SAB Staff Office, will be posted in a List of Candidates on the SAB website at <http://www.epa.gov/sab>. Public comments on the List of Candidates will be accepted for 21 days. The public will be requested to provide relevant information or other documentation on nominees that the SAB Staff Office should consider in evaluating candidates.

For the EPA SAB Staff Office a balanced review committee includes
