AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Indirect transfer of licenses; order.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an Order approving the application dated November 19, 2020, as supplemented by

letter dated April 13, 2021, filed by NorthStar Nuclear Decommissioning Company, LLC (NNDC) and ADP CR3, LLC (ADP CR3), on behalf of themselves, NorthStar Vermont Yankee, LLC (NVY), and their corporate parents related to NorthStar Group Services, Inc (NorthStar). The application sought NRC consent to the indirect transfer of (1) NNDC's licensed authority under, and NVY's licensed ownership of, Renewed Facility Operating License No. DPR–28 for the Vermont Yankee Nuclear Power Station (Vermont Yankee) and the general license for the Vermont Yankee independent spent fuel storage installation (ISFSI); and (2) ADP CR3's licensed authority under Facility Operating License No. DPR–72 for the Crystal River Unit 3 Nuclear Generating Plant (CR3) and the general license for the CR3 ISFSI. Duke Energy Florida, LLC (DEF) will remain the licensed owner of CR3, and the application does not involve any direct or indirect transfer of DEF's license or responsibilities. No physical changes to the Vermont Yankee or CR3 facilities or operational changes were proposed in the application. The application requested NRC consent to these indirect transfers in order to complete an internal reorganization with new intermediary holding companies that would acquire control of NorthStar.

BILLING CODE 7590-01-C

Notices entitled “Vermont Yankee Nuclear Power Station; Consideration of Approval of Transfer of License” and “Crystal River Unit 3 Nuclear Generating Plant; Consideration of Approval of Transfer of License,” were published in the **Federal Register** (FR) on April 2, 2021 (86 FR 17415 and 86 FR 17412, respectively). The NRC did

not receive any comments or hearing requests related to these notices.

Under 10 CFR 50.80 and 10 CFR 72.50, no license for a production or utilization facility or ISFSI, or any right thereunder, shall be transferred, either voluntarily or involuntarily, directly or indirectly, through transfer of control of the license to any person, unless the Commission gives its consent in writing. Upon review of the information in the

application, and other information before the Commission, the NRC staff has determined that the Applicants can indirectly transfer their licenses via the intermediary holding company structure proposed in the application. The proposed transferees are qualified to have indirect control over the holders of the licenses and the indirect transfer of the licenses is otherwise consistent with applicable provisions of law,

regulations, and orders issued by the Commission pursuant thereto.

The findings set forth above are supported by an NRC staff safety evaluation dated the same date as this Order, which is available at ADAMS Accession No. ML21159A042.

III.

Accordingly, pursuant to Sections 161b, 161i, and 184 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2201(b), 2201(i), and 2234; and 10 CFR 50.80 and 10 CFR 72.50, *it is hereby ordered* that the application regarding the proposed indirect license transfers is approved for Vermont Yankee, CR3, and their respective ISFSIs.

It is further ordered that after receipt of all required regulatory approvals of the proposed indirect transfer action, the Applicants shall inform the Director of the NRC Office of Nuclear Material Safety and Safeguards in writing of such receipt, and of the date of the closing of the transfer, no later than two business days prior to the date of the closing of the transfer. Should the proposed indirect transfer not be completed within 1 year of the date of this Order, this Order shall become null and void, provided, however, upon written application and for good cause shown, such date may be extended by order.

This Order is effective upon issuance.

For further details with respect to this Order, see the indirect license transfer application dated November 19, 2020, the supplemental information dated April 13, 2021, and the NRC staff safety evaluation dated the same date as this Order, which are publicly available electronically through ADAMS in the NRC Library at <https://www.nrc.gov/reading-rm/adams.html>. Persons who encounter problems with ADAMS should contact the NRC's Public Document Room reference staff by telephone at 1-800-397-4209 or 301-415-4737 or by email to pdr.resource@nrc.gov.

Dated this 28th day of June, 2021.

For the Nuclear Regulatory Commission.

John W. Lubinski,

Director, Office of Nuclear Material, Safety, and Safeguards.
