

III. Data

OMB Control Number: 0693–0032.

Form Number(s): None.

Type of Review: Regular submission (revision of a current information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 51.

Estimated Time Per Response: 20 Hours for Quarterly Review, 4 Hours for Semi-Annual Review, 30 hours for the Annual Review; 80 hours for Panel Review. Recipients of Special Funding awards should anticipate an additional burden of 2 hours quarterly/semiannually (per award) based on the requirements of the cooperative agreement.

Estimated Total Annual Burden Hours: 5,508 hours for Quarterly, Semi-annual, and Annual Review; and 1,360 hours for Panel Review.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Mandatory.

Legal Authority:

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council (Pacific Council) will hold an online meeting to consider information on marine planning and offshore development planning and activities. This meeting is open to the public.

DATES: The online meeting will be held Thursday, July 22, 2021 and Friday, July 23, 2021, from 9 a.m. to 5 p.m., Pacific Daylight Time, each day. Exact meeting times may be adjusted in advance, and the meeting may be adjourned early if work for that day has been completed. The meeting agenda with specific times will be posted to the Pacific Council website in advance of the meeting.

ADDRESSES: The meeting will be held online. Specific meeting information, including directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov, (503) 820–2412) for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220–1384.

FOR FURTHER INFORMATION CONTACT: Kerry Griffin, Pacific Council; telephone: (503) 820–2409.

SUPPLEMENTARY INFORMATION: Representatives of the United States Bureau of Ocean Energy Management and the Pacific Council will present information related to the planning process for identifying potential offshore wind energy sites in the U.S. Exclusive Economic Zone.

Representatives of Pacific Council Advisory Bodies will consider the information presented, provide feedback and advice, and develop reports to the Pacific Council for its consideration. A meeting agenda will be posted to the Pacific Council's website in advance of the meeting.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820–2412) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1901 *et seq.*

Dated: June 29, 2021.

Diane M. DeJames-Daly,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[RTID 0648–XB210]

Endangered Species; File Nos. 24140 and 24368

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Jane Provancha, Herndon Solutions Group, LLC., 2562 Meadow Lane, Cocoa, FL 32926 and the NMFS Southeast Fisheries Science Center (SEFSC), 75 Virginia Beach Drive, Miami, FL 33149 (Responsible Party: Lisa Desfosse), have applied in due form for permits to take green (*Chelonia mydas*), hawksbill (*Eretmochelys imbricata*), Kemp's ridley (*Lepidochelys kempii*), leatherback (*Dermochelys coriacea*), loggerhead (*Caretta caretta*), olive ridley (*L. olivacea*), and

unidentified hardshell sea turtles for purposes of scientific research.

DATES: Written, telefaxed, or email comments must be received on or before August 5, 2021.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 24140 or 24368 from the list of available applications. These documents are also available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please include the relevant File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Amy Hapeman or Erin Markin, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

File No. 24140: The applicant proposes to continue long term monitoring of the relative health, abundance, and distribution of green, loggerhead, Kemp's ridley and hawksbill sea turtles inhabiting the northern Indian River Lagoon, including the Mosquito Lagoon, Banana River in Volusia and Brevard Counties, Florida. Annually up to 30 greens, 30 loggerheads, one Kemp's ridley and one hawksbill would be captured by tangle net. Turtles would be measured, weighed, flipper tagged, and passive integrated transponder (PIT) tagged, photographed, and released. Green and loggerhead sea turtles would also be scute, skin, and blood sampled, and gastric lavaged prior to release. Up to 10 green and 10 loggerhead sea turtles may be released with sonic transmitters. The permit would be valid for 10 years.

File No. 24368: The SEFSC proposes to continue studying sea turtles legally bycaught within commercial fisheries and during other human activities operating in the Atlantic Ocean, Gulf of Mexico, Caribbean Sea, and the high seas. The objective is to better

understand movement and migration, habitat use, genetics, and population dynamics of the sea turtle species that interact with these human activities. Up to 111 green, 31 hawksbill, 260 Kemp's ridley, 117 leatherback, 490 loggerhead, 20 olive ridley, and 23 unidentified/hybrid live turtles would be photographed, measured, weighed, flipper tagged and PIT tagged, skin biopsied, and released annually. Carcasses, tissues or parts also may be salvaged from dead sea turtles. This work includes the import of biological samples or dead parts collected on the high seas. The permit would be valid for 10 years.

Dated: June 29, 2021.

Julia Marie Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Socioeconomics of Coral Reef Conservation, Puerto Rico 2022 Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 25, 2021 (86 FR 6876) during a 60-day comment period and again on April, 16, 2021 (86 FR 20120) during a 30-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Socioeconomics of Coral Reef Conservation, Puerto Rico 2022 Survey.

OMB Control Number: 0648-0646.

Form Number(s): None.

Type of Request: New information collection.

Number of Respondents: 1,800.

Average Hours per Response: 20 minutes (0.33 hours).

Total Annual Burden Hours: 600 hours.

Needs and Uses: This request is for a new information collection under the currently approved hybrid-generic information collection under OMB Control Number 0648-0646. The information collection is part of the National Coral Reef Monitoring Program (NCRMP), which was established by the National Oceanic and Atmospheric Administration (NOAA) Coral Reef Conservation Program (CRCP) under the authority of the Coral Reef Conservation Act of 2000. The CRCP was created to safeguard and ensure the welfare of the coral reef ecosystems along the coastlines of America's states and territories. In accordance with its mission goals, NOAA developed a survey to track relevant information regarding each jurisdiction's population, social and economic structure, the benefits of coral reefs and related habitats, the impacts of society on coral reefs, and the impacts of coral management on communities. The survey is repeated in each jurisdiction every five to seven years in order to provide longitudinal data and information for managers to effectively conserve coral reefs for current and future generations.

The purpose of this information collection is to obtain human dimensions information from residents in Puerto Rico. Specifically, NOAA is seeking information on the behaviors and activities related to coral reefs, as well as information on perceptions of coral reef conditions and attitudes toward specific reef conservation activities. The survey has a core set of questions that are the same for all jurisdictions to allow for information to be tracked over time. To account for geographical, cultural and linguistic differences between jurisdictions, the survey questions include items that are specific to the local context and developed based on jurisdictional partner feedback.

We intend to use the information collected through this survey instrument for research purposes, as well as for measuring and improving the results of our reef protection programs. Because many of our efforts to protect reefs rely on education and changing attitudes toward reef protection, the information collected will allow CRCP to ensure that programs are designed appropriately at the start, future program evaluation efforts are as
