

results) that an intervention to prevent, eliminate, or reduce *Salmonella* will also reduce or prevent *Campylobacter* is not scientifically accurate.

Response: The Agency has modified the language in question to account for the different effects of different interventions. Also, the Agency has divided the guidance into two separate documents—one addressing *Salmonella*, the other *Campylobacter*—with the aim of accounting for differences between the pathogens and ensuring that recommended controls will be effective. FSIS also revised the guidance to include additional literature supporting controls for the pathogens. The updated references may assist establishments in identifying the best process controls for *Salmonella* and *Campylobacter* in their operations.

FSIS agrees that an intervention for controlling one microorganism will not necessarily have a similar effect on the other. For example, hard freezing is likely to be more effective against *Campylobacter* than *Salmonella*. On the other hand, vaccine development for controlling *Salmonella* in flocks is clearly in advance of that for controlling *Campylobacter*.

New Technology Review

Comment: The poultry industry association said that FSIS has recommended several interventions that the industry has sought but that are still awaiting review or approval by FSIS. According to the poultry industry association, the Agency should consider an expedited review and approval process.

Response: The Agency does not have a backlog of new technology submissions. The Agency reviews a new technology to determine whether it may express its “non-disapproval” for use of the technology. The technology should be safe to use, compliant with pertinent regulations, not interfere with inspection procedures, and help the establishment achieve the objectives of its HACCP system. FSIS has made available a guideline to assist the industry in preparing and submitting new-technology notifications and protocols to the Agency (See <https://www.fsis.usda.gov/guidelines/2015-0012>). By following the advice in the guideline, the submitter can assist the Agency in completing its review within a reasonable timeframe. FSIS Directive 7,120.1, on “Safe and Suitable Ingredients,” is updated every month to incorporate newly approved entries, including new interventions (See <https://www.fsis.usda.gov/wps/wcm/connect/bab10e09-ae4a-483b-8be8->

Certain Frozen Warmwater Shrimp From the Socialist Republic of Vietnam: Notice of Initiation and Preliminary Results of Antidumping Duty Changed Circumstances Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is initiating a changed circumstances review (CCR) to determine whether Camimex Group Joint Stock Company is the successor-in-interest to Camau Frozen Seafood Processing Import Export Corporation in the context of the antidumping duty (AD) order on certain frozen warmwater shrimp (shrimp) from the Socialist Republic of Vietnam (Vietnam). We also preliminarily determine that Camimex Group Joint Stock Company is the successor-in-interest to Camau Frozen Seafood Processing Import Export Corporation. Interested parties are invited to comment on these preliminary results.

DATES: Applicable July 8, 2021.

FOR FURTHER INFORMATION CONTACT:

Irene Gorelik or Samuel Glickstein, AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-6905 or (202) 482-5307, respectively.

SUPPLEMENTARY INFORMATION:

Background

On February 1, 2005, Commerce published the AD order on shrimp from Vietnam.¹ In the original investigation, we selected Camau Frozen Seafood Processing Import Export Corporation as a mandatory respondent and granted it a separate rate.² Camau Frozen Seafood Processing Import Export Corporation's separate rate status has not changed in subsequent administrative reviews of the *Order*. Most recently, in the administrative review covering the period February 1, 2017, through January 31, 2018, we assigned Camau Frozen Seafood Processing Import Export Corporation a separate rate, as a non-individually examined exporter under review.³

On June 2, 2021, Camimex Group Joint Stock Company requested that, pursuant to section 751(b) of the Tariff Act of 1930, as amended (the Act), Commerce conduct a CCR of the *Order* to confirm that Camimex Group Joint Stock Company is the successor-in-interest to Camau Frozen Seafood Processing Import Export Corporation and, accordingly, to assign it the cash deposit rate of its predecessor.⁴ In its request, Camimex Group Joint Stock Company stated that it undertook a legal name change from Camau Frozen Seafood Processing Import Export Corporation, but the company is, otherwise, unchanged with regard to the factors to be examined.⁵ No interested parties filed comments opposing the CCR request.

¹ See *Notice of Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order: Certain Frozen Warmwater Shrimp from the Socialist Republic of Vietnam*, 70 FR 5152 (February 1, 2005) (*Order*).

⁴ See Camimex Group Joint Stock Company's Letter, "Request for Changed Circumstances Review," dated June 2, 2021 (CCR Request). Camimex Group Joint Stock Company also requested that Commerce conduct an expedited initiation and preliminary results of CCR, pursuant to 19 CFR 351.221(c)(3)(ii).

⁵ *Id.* at 4-9.

Scope of the Order

The merchandise subject to the *Order* is certain frozen warmwater shrimp. The product is currently classified under the following Harmonized Tariff Schedule of the United States (HTSUS) item numbers: 0306.17.00.03, 0306.17.00.06, 0306.17.00.09, 0306.17.00.12, 0306.17.00.15, 0306.17.00.18, 0306.17.00.21, 0306.17.00.24, 0306.17.00.27, 0306.17.00.40, 1605.21.10.30, and 1605.29.10.10. Although the HTSUS numbers are provided for convenience and for customs purposes, the written product description, provided in the Appendix, remains dispositive.

Initiation and Preliminary Results of CCR

Pursuant to section 751(b)(1) of the Act, and 19 CFR 351.216, Commerce will conduct a CCR upon receipt of information concerning, or a request from an interested party for a review of, an AD order which shows changed circumstances sufficient to warrant a review of the order. The information submitted by Camimex Group Joint Stock Company supporting its claim that it is the successor-in-interest to Camau Frozen Seafood Processing Import Export Corporation, demonstrates changed circumstances sufficient to warrant such a review.⁶ Therefore, in accordance with 751(b)(1)(A) of the Act and 19 CFR 351.216(d), we are initiating a CCR based on the information contained in the CCR Request. Section 351.221(c)(3)(ii) of Commerce's regulations permits Commerce to combine the notice of initiation of a CCR and the notice of preliminary results if Commerce concludes that expedited action is warranted. In this instance, because the record contains information necessary to make a preliminary finding, we find that expedited action is warranted and have combined the notice of initiation and the notice of preliminary results.⁷

In making a successor-in-interest determination, Commerce examines several factors, including, but not limited to, changes in the following: (1)

⁶ See 19 CFR 351.216(d); see also *Notice of Initiation and Preliminary Results of Antidumping Duty Changed Circumstances Review: Carbon and Certain Alloy Steel Wire Rod from Mexico*, 75 FR 67685 (November 3, 2010).

⁷ See 19 CFR 351.221(C)(3)(II); see also, e.g., *Notice of Initiation and Preliminary Results of Changed Circumstances Reviews: Certain Passenger Vehicle and Light Truck Tires from the People's Republic of China*, 85 FR 5193 (January 29, 2020), unchanged in *Certain Passenger Vehicle and Light Truck Tires from the People's Republic of China: Final Results of Changed Circumstances Reviews*, 85 FR 14638 (March 13, 2020).
