Privacy Act of 1974; Systems of Records

AGENCY: Office of Legal Policy, United States Department of Justice.

ACTION: Notice of a modified system of records.

SUMMARY: Pursuant to the Privacy Act of 1974, as amended, and Office of Management and Budget (OMB) Circular No. A-108, notice is hereby given that the Office of Legal Policy (OLP), a component within the United States Department of Justice (DOJ or Department), proposes to modify its system of records notice titled "General Files System of the Office of Legal Policy," JUSTICE/OLP-003. OLP proposes to modify this system of records notice as part of the Department's overall effort to update leadership system of records notices in light of organizational, procedural, and technological changes at the Department.

DATES: In accordance with 5 U.S.C. 552a(e)(4) and (11), the modifications to this system of records will be effective upon publication, subject to a 30-day period in which to comment on the modified routine uses, described below. Please submit any comments by August 13, 2021.

ADDRESSES: The public, OMB, and Congress are invited to submit any comments by mail to the United States Department of Justice, Office of Privacy

and Civil Liberties, ATTN: Privacy Analyst, Two Constitution Square (2Con), 145 N Street NE, Suite 8W.300, Washington, DC 20530; by facsimile at 202-307-0693; or by email at privacy.compliance@usdoj.gov. To ensure proper handling, please reference the above CPCLO Order No. on your correspondence.

FOR FURTHER INFORMATION CONTACT: Matrina Matthews, Executive Officer, Office of Legal Policy, U.S. Department of Justice, 950 Pennsylvania Avenue NW, Room 4234, Washington, DC 20530-0001; telephone: (202) 616-0040.

SUPPLEMENTARY INFORMATION: OLP is principally responsible for planning, developing, and coordinating the implementation of major policy initiatives of high priority to the Department and to the Administration. In addition, the Assistant Attorney General, OLP, consistent with 28 CFR 0.23, is responsible for: Examining and studying legislation and other policy proposals and coordinating Departmental efforts to secure enactment of those of special interest to the Department and the Administration; advising and assisting the Attorney General and the Deputy Attorney General regarding the selection and appointment of Federal judges; representing the Department on the Administrative Conference of the United States and, as appropriate, on regulatory reform matters; advising appropriate Departmental officials, from time to time, on investigation, litigation, negotiation, penal, or correctional policies to ensure the compatibility of those policies with overall Departmental goals; and performing such other duties and functions as may be specially assigned by the Attorney General and the Deputy Attorney General.

The Department established the system of records, "General Files System of the Office of Legal Policy," JUSTICE/OLP-003, to assist the Assistant Attorney General, OLP, and the personnel within OLP in carrying out the responsibilities of the Office. Since JUSTICE/OLP-003 was last published in full, 50 FR 37299 (Sept. 12, 1985), OLP and the Department as a whole have undertaken a number of organizational, procedural, and technological changes that have modernized the information and information system that are used to collect, use, maintain, and disseminate these records.

Specifically, JUSTICE/OLP-003 is being updated as follows: The system location paragraph has been updated to account for the location of both hard copies and the Department's data

centers; the authorities paragraph has been clarified to include statutes outlining the role and responsibilities of the Assistant Attorney General and OLP, as delegated by the Attorney General; the routine uses have been updated to include additional routine uses that appear in almost every DOJ system of records notice, which allow for disclosures that are functionally equivalent to the purpose for which the DOJ information is collected, or are necessary and proper uses of the DOJ information (for example, disclosures to NARA, disclosure to identify and mitigate actual or suspected breaches, and disclosures to the public or news media, when appropriate); the records-storage paragraph has been updated to include the electronic storage of records; the paragraph detailing the policies and practices for the retrieval of records in the system has been updated to account for the electronic storage of records; the records-retention paragraph has been updated to include the appropriate records control schedules; the access, amendment, and notification procedures have been clarified to detail the process for requesting access to, amendment of, or notification of, records within this system of records not otherwise exempt from such requests; and a history paragraph has been added. The Department has not amended the Privacy Act exemptions already claimed for this system of records, so that paragraph remains unchanged. The Department has published this system of records in its entirety for the benefit of the public.

In accordance with 5 U.S.C. 552a(r), the Department has provided a report to OMB and Congress on this new system of records.

Dated: July 1, 2021.

Peter A. Winn,

Acting Chief Privacy and Civil Liberties Officer, United States Department of Justice.

BILLING CODE P**DEPARTMENT OF JUSTICE****[CPCLO Order No. 002-2021]****Privacy Act of 1974; Systems of Records**

AGENCY: United States Department of Justice.

ACTION: Notice of a modified system of records.

SUMMARY: Pursuant to the Privacy Act of 1974, 5 U.S.C. 552a, and Office of Management and Budget (OMB) Circular No. A-108, notice is hereby given that the Department of Justice (Department or DOJ), proposes to modify an existing DOJ system of records previously titled, “Department of Justice Computer Systems Activity and Access Records,” JUSTICE/DOJ-002. The Department proposes to modify JUSTICE/DOJ-002 to reflect changes in technology, including the increased ability of the Department to link individuals to information technology, information system, or network activity, and to better describe the Department’s records linking individuals to reported cybersecurity incidents or their access to certain DOJ information technologies, information systems, and networks through the internet or other authorized connections.

DATES: In accordance with 5 U.S.C. 552a(e)(4) and (11), this notice is effective upon publication, subject to a 30-day period in which to comment on the routine uses, described below. Please submit any comments by August 13, 2021.

ADDRESSES: The public, Office of Management and Budget (OMB), and Congress are invited to submit any

comments by mail to the Department of Justice, ATTN: Privacy Analyst, Office of Privacy and Civil Liberties, 145 N St. NE, Suite 8W.300, Washington, DC 20530, by facsimile at 202-307-0693, or by email to privacy.compliance@usdoj.gov.

FOR FURTHER INFORMATION CONTACT:

Nickolous Ward, DOJ Chief Information Security Officer, (202) 514-3101, 145 N Street NE, Washington, DC 20530.

SUPPLEMENTARY INFORMATION:

In accordance with the Federal Information Security Modernization Act of 2014, among other authorities, DOJ is responsible for complying with information security policies and procedures requiring information security protections commensurate with the risk and magnitude of harm resulting from the unauthorized access, use, disclosure, disruption, modification, or destruction of DOJ information and information systems. *See, e.g.*, 44 U.S.C. 3554 (2018). Consistent with these requirements, DOJ must ensure that it maintains accurate audit and activity records of the observable occurrences on its information systems and networks (also referred to as “events”) that are significant and relevant to the security of DOJ information and information systems. These audit and activity records may include, but are not limited to, information that establishes what type of event occurred, when the event occurred, where the event occurred, the source of the event, the outcome of the event, and the identity of any individuals or subjects associated with the event.

Additionally, monitored events—whether detected utilizing information systems maintaining audit and activity records, reported to the Department by information system users, or reported to the Department by the cybersecurity research community and members of the general public conducting good faith vulnerability discovery activities—may constitute occurrences that (1) actually or imminently jeopardize, without lawful authority, the integrity, confidentiality, or availability of information or an information system; or (2) constitute a violation or imminent threat of violation of law, security policies, security procedures, or acceptable use policies. The Department has developed a formal process to track and document these reported “incidents,” which may, in limited circumstances, include records of individuals reporting, or otherwise associated with, an actual or suspected event or incident.

The system of records previously titled JUSTICE/DOJ-002, “Computer Systems Activity and Access Records,” covers the Department’s tracking of all DOJ information technology, information system, and/or network activity, including any access, whether authorized or unauthorized, by users to any DOJ information technology, DOJ information systems, and/or DOJ networks. These records assist Department information security professionals in protecting DOJ data, ensuring the secure operation of DOJ information systems, and tracking and documenting incidents reported to the Department. JUSTICE/DOJ-002 was first published at 64 FR 73,585, on December 30, 1999, and later modified at 66 FR 8,425, on January 31, 2001, and 82 FR 24,147, on May 25, 2017. The revisions to this notice reflect advances in technology, such as the ability of authorized users to connect to Department information systems through the internet or other authorized network connections, as well as the increased ability of the Department to link the identity of individuals or subjects associated with an actual or suspected event or incident for security and administrative purposes.

The Department proposes to modify JUSTICE/DOJ-002 by: Revising the title of the system of records to, “Department of Justice Information Technology, Information System, and Network Activity and Access Records;” modifying and clarifying the location of the system’s records; clarifying the individuals covered by the system to include any and all individuals who access Department information systems for any reason and from any location; clarifying the way in which the records maintained in this system of records are retrieved; expanding the routine uses of records for disclosures that are functionally equivalent to the purpose for which the DOJ information is collected, or that are necessary and proper uses of the DOJ information, to enhance the flexibility of JUSTICE/DOJ-002; and to notify the public that the Department intends to claim certain Privacy Act exemptions, promulgated elsewhere in the **Federal Register**. DOJ is republishing the entire system of records notice for ease of reference to these changes.

In accordance with Privacy Act requirements of 5 U.S.C. 552a(r), the Department has provided a report to OMB and to Congress on this revised system of records.
