

data from multiple sources. FNS estimates that data preparation takes 1 to 30 hours with a median of 10 hours. For this estimate, median is used instead of mean as the data is skewed, based upon the number of records reported by each State agency on authorized vendors. FNS estimates the burden hours needed to comply with this requirement is 890 hours (89 State agencies × 10 hours per submission).

SA System Feedback

Table 1 depicts the estimated time that each State agency might spend reviewing and responding to FNS requests for feedback on the system on an annual basis. FNS estimates that it

will take approximately 2.5 hours per State agency to provide this feedback, for an estimated 222.5 hours.

Affected Public: State, Local, and Tribal Government. Respondent groups identified include State, Tribal, and WIC agencies in the District of Columbia and in U.S. territories.

Estimated Number of Respondents: The total estimated number of respondents is 194.

Estimated Number of Responses per Respondent: For update Option 1, the frequency for the manual entry of a new record is 1.6 and 26.9 for the manual update of existing records, while the frequency for Option 2 (Data Upload) is one. Respondents prepare the data and

respond to system feedback once per year. For all of the respondents across the entire collection, FNS estimates a frequency of 3.644.

Estimated Total Annual Responses: 707 responses.

Estimated Time per Response: The estimated time of response varies from 5 minutes (.083 hours) to 10 hours depending on respondent group, as shown in the table below, with an average estimated time of 1.682 hours for all participants.

Estimated Total Annual Burden on Respondents: 1,189 hours. See the table below for estimated total annual burden for each type of respondent.
