**SUPPLEMENTARY INFORMATION:** In compliance with 44 U.S.C. 3507, ACL has submitted the following proposed collection of information to OMB for review and clearance. The Administration for Community Living (ACL) is requesting approval to collect data for the State Councils on Developmental Disabilities (State Councils) Annual Program Performance Report (PPR). On an annual basis, each Council must submit a PPR to describe the extent of annual progress achievement on the 5-year State plan goals. The PPR: (1) The Council as a planning document to track progress made in meeting state plan goals; (2) the citizenry of the State as a mechanism for monitoring progress and activities on the plans of the Council; and (3) the Department as a stewardship tool for ensuring compliance with the Developmental Disabilities Assistance and Bill of Rights Act and for monitoring and providing technical assistance (e.g., during site visits), and support for management decision making.

**Comments in Response to the 60-Day Federal Register Notice**

A notice published in the **Federal Register** on April 1, 2021 in 86 FR 17152. There was one public comment received during the 60-day FRN.

Public comment indicated the performance measures are useful in addressing impact and the burden hour for template completion was a reasonable estimate. The respondent did indicate the need to streamline some of

the narrative reporting for ease of use. ACL will explore this through additional grantee guidance and development of a web-based reporting platform with user-friendly features, such as data cloning and other such efficient features.

**Estimated Program Burden**

ACL estimates the burden associated with this collection of information as follows: The total estimated hour burden per respondent for the proposed DD Council PPR is 172 burden hours per response. The number of hours to complete the PPR multiplied by 56 State Council programs, results in a total estimated annual burden of 9,632. The burden is reflective of performance measures introduced in the FFY 2017–2021 state plan cycle. These measures hone in on individual and family advocacy, as well as systems change advocacy. One example of these measures is a reporting of the number of promising and/or best practices improved based on results of systems change activities. The PPR is an opportunity for Councils to report on the actual data and outcomes that resulted from carrying out the new State Plan activities. This extension was previously pilot tested by a Performance Measures Workgroup consisting of nine (9) State Council representatives. This workgroup deemed the PPR necessary to accurately capture and report on the progress of the State Councils. A separate workgroup consisting of nine (9) different State Council representatives further discussed data collection methodologies as it relates to the proposed PPR template. This PPR offers a comprehensive categorization and approach to collecting data necessary to report to Congress and other interested entities.

Respondent/data collection activity	Number of respondents	Responses per respondent	Hours per response	Annual burden hours
State Councils on Developmental Disabilities Annual Program Performance Report (PPR) .....	56	1	172	9,632
Total .....	56	1	172	9,632
